

## MEDICAL REPORT.

---

OTTAWA, 27th January, 1876.

SIR,—As Surgeon to the Dominion Rifle Association, I have the honour to make the following short report:

My duties have not extended beyond attendance during the annual meeting for 1875.

I have much pleasure in being able to report that during the matches which were held from the 7th to the 13th September, 1875, there did not occur any casualties or any cases of sickness. Slight wounds which have occurred on former meetings both here and at Wimbledon from splashing of lead, have been rendered impossible by the adoption of the "Brunel" target, the merits of which will no doubt be described in another report.

As absence in Manitoba rendered it doubtful that I should be present during the annual meeting, the Council solicited the services of Surgeon F. B. Bentley, Ottawa Field Battery, to whom I beg here to accord my obligations.

I have the honour to be

Sir,

Your obedient servant,

E. C. MALLOCH,

Surgeon G. G. F. G.

LT.-COLONEL GZOWSKI,

*President Dominion of Canada Rifle Association.*
