A shows method of laying Red Star Brand Wire-Edged Ready Roofing, with 2-inch laps secured by nailing two inches apart. B B shows wires running through the edges of the roofing, giving it great strength at the joints or laps—a very desirable feature, especially in localities where high winds prevail.

ANY farmers are sceptics when the merit of some new article is pointed out to them. All the officials of the Paterson Manufacturing Co., Limited, were raised on a farm. We know how often the farmers have been deceived, and don't blame them for being cautious. When we tell you that our Heavy Tarred Felt Paper is the best material known to-day for lining Poultry Houses, and that our Patent Wire-Edged Ready Roofing is better and more economical than shingles, we know what we are talking about, and mean every word we say. Nearly all Hardware Merchants can tell you about our Business Reputation, and any Banker will give you our Financial Standing. You can have samples and further information by addressing
