The Fairbanks-Morse Eclipse Engine

Made in Canada

is not expensive — two months wages of one man will pay for it.

It will do more work than any man when attached to a pump, churn, cream separator, washing machine, feed mill, corn sheller or other light machine. It is less cumbersome and less expensive than a windmill.

It is always ready when wanted, and works every minute of the time regardless of wind or weather.

Costs only a few cents an hour to operate, and requires no experience.

Ask for catalogue and learn all about this little Canadian-made money-maker.
