Money Savers for Farmers

DON'T eat more dinner than you can hold simply because the cook has prepared more than you can eat. If you do, you'll probably have "inside information" that things are not quite right. By the same token, don't buy something that you don't need merely because it's cheap. If Robinson Crusoe had paid one cent for a postage stamp he would have been a spendthrift.

But, when you find things that have an every-day need, selling at moderate prices, then is your time to *economize by buying*. Such products will save you money. We make such commodities. This page describes seven of them. Sold by good dealers everywhere.

Everjet Elastic Paint

We have a product called Everjet Elastic Paint that will save you many a dollar every year. It is a wonderful roof paint. Applied to ready roofings, it adds years to their life, makes them leak-proof and improves their appearance. Everjet is invaluable for farm implements. Protects them from rust and keeps them new. It never peels, scales or cracks. The best carbon paint made. Good wherever you have exposed surfaces. Try a can.

Everlastic Roofing

Insurance against wind, weather and water can be had very cheaply by laying Everlastic Roofing wherever you have a slanting roof. The best "Rubber Roofing" on the market at the price. It is easy to lay, costs little and gives satisfaction for years. Just the thing for barns, out-buildings and poultry houses. Comes in rolls of 1, 2 or 3 ply weight, each roll 36 inches wide. You could pay twice as much and not get as good.

Carbonol, Disinfectant and Deodorant

The most necessary thing you could have around the house is a bottle of Carbonol. It is the best disinfectant, healer and cleanser ever made. Removes grease, germs and odors. Therefore, put some in the water with which you clean house. Heals cuts and wounds; prevents blood poisoning. Wonderful in the sick room because it prevents contagion. It will keep your stable and hen house clean, and drive flies away from garbage pails and cattle pens. The best thing you could have for a hundred different uses. Get a bottle today.

Creonoid, Lice Destroyer and Cow Spray

One of the little things so often overlooked is the relation between contented live stock and profits. Best results cannot be secured if your live stock is infested or worried by flies. Spray your horses, cows, pig-pens and hen houses lightly with Creonoid. It positively and permanently destroys vermin and lice. Keeps flies away. Makes healthy porkers, happy cows, good tempered horses. More flesh from your live stock. More eggs from your hens. More milk from your cows. Follow directions carefully.

Amatite Roofing.

Amatite Roofing is distinctive for two reasons—its bright attractive, sparkling appearance and its great durability. It has wide fame, too, as the roofing that needs no paint. Its mineral surface is waterproof and fire resisting. Amatite is made in rolls, each roll containing enough to cover 100 square feet with a 3 inch lap.

Barrett's Grade One Liquid Creosote Oil

The best fence post made will rot if not protected with a good preservative. You can make an ordinarily good fence post last 20 years by using Barrett's Grade One Creosote Oil. It is the best wood preservative on the market. Penetrates deeper than any other Creosote product. Hence it accomplishes more. We can show you tests to prove this. Save the expense of timber renewals. It's a big item. Wherever you have wood exposed to moisture or earth, preserve it with Barrett's Grade One Creosote Oil.

Elastigum Waterproof Cement

Many a farmer or house owner has saved the day, by having Elastigum handy. This tough, elastic, adhesive cement is a wonder for those quick repairs that are daily coming up. And it makes those repairs permanent. If you have a leak to fix, a joint to seal, use Elastigum. Unexcelled for joining or re-lining gutters of wood or metal, and for flashings around chimneys. Elastigum is a real "handy man" and you ought to have it on hand. Good for a hundred uses.

81 Drop Forgings in the 1916 Indian

DROP forgings alone—costly to make as they are—meet Indian ideals of strength and stamina where durability and strength are most needed.

They are used because they are tougher than castings and more dependable than stampings.

Indian is called the all-drop-forge machine because it has more drop forgings than any other motorcycle made.

81 of these Samson pieces in the Indian make a machine which withstands, with smallest wear and operating cost, the hardest tests to which a motorcycle can be subjected.

Automobile engineers, who have studied the Indian and Indian manufacturing methods, marvel at the expensiveness and fineness of Indian construction, for it is built like a high grade motor car.

Indian is the *only* Motorcycle

MADE IN CANADA

thus giving the rider the *best*,
quickest, and *most complete* Service

Beautiful 1916 Indian Catalog now ready. Send for your copy.
