

IMPORTANCE OF PUNCTUALITY.

METHOD is the very hinge of business; and there is no method without punctuality. Punctuality is important, because it subserves the peace and good temper of a family; the want of it not only infringes on necessary duty, but sometimes excludes it, the calmness of mind which it produces, is another advantage of punctuality. A disorderly man is always in a hurry; he has no time to speak to you, because he is going elsewhere; and when he gets there, he is too late for his business, or he must hurry away to another before he can finish it. Punctuality gives weight to character. "Such a man has made an appointment—then I know he will keep it." And this generates punctuality in you; for, like other virtues, it propagates itself. Servants and children must be punctual where their leader is so. Appointments, indeed, become debts. I owe you punctuality, if I have made an appointment with you; and have no right to throw away your time, if I do my own.

UNLESS a vessel move at a certain rate, she will not obey her rudder; so unless the Christian keep pace with the motions of the Spirit, he loses the benefit of its sensible guidance in directing his steps.

It is in small things that brotherly kindness and charity chiefly consist. Little attentions; trifling, but perpetual acts of self-denial; a minute consultation of the wants, and wishes, taste, and tempers, of others; an imperceptible delicacy in avoiding what will give pain; these are the small things that diffuse peace and love wherever they are exercised, and which outweigh a thousand acts of artificial civility.

THE TONTINE INVESTMENT POLICY of The North American Mutual Insurance Company combines in one form the greatest number of advantages attainable in a Life Insurance Policy. It appeals at once to the intelligence of all who understand the principles and practice of Life Insurance.

All Policies whether on Life or Endowment Rates, are subject to no higher charge in Premium Rates, in taking the "Tontine Investment" form.

The extra benefits of this are conditioned only upon continuance of the Policy for a certain specified term or Tontine period of ten, fifteen or twenty years, selected by the insured himself.

Two things most desired in Life Insurance are the certainty of protection in early death, and profit in long life. These are combined in the "Tontine Investment Policy" of the North American Mutual Life Insurance Co., which also issues Annuities and all the ordinary approved forms of Life Policies.
