and full information to

A. N. WOLVERTON, Nelson, B.C.

ALPINE CLUB OF CANADA.

In March last the Alpine Club of
Canada was organized in Winnipeg, and
already a preliminary membership of a
hundred and fifty has been enrolled,
thus ensuring its success at its very
inception. The first tangible step taken
by the new club was the organization of
a mountain camp, which was held in
the Rockies during the week of July
9-16 at Summit Pass, between Emer-
ald Lake and the Yoho Valley, eleven
miles north of Field. The undertaking
was successful beyond all anticipation,
thanks to the effective arrangements
made by the officers of the club and
the help of the Field outfitters. Those
who were fortunate enough to attend
enjoyed the treat of their lives.

The campers foregathered from far
and near at the Mount Stephen House
in Field, from which early on the morn-
ing of July 9th a start was made for
the chosen rendezvous. A long line of
mountain ponies took the Emerald
Lake trail through the superb trees on
the slope of Burgess avenue followed
by the pack of animals carrying the
kits of the alpinists.

After luncheon at the Chalet, where
a black bear made a call in order to
dine off the garbage heap, the company
proceeded in single file, led by Rev. J. C.
Herdman of Calgary, for the stiff as-
cent to the camp site nearly two thou-
sand feet higher. The delta of the
Emerald glacier had first to be nego-
tiated, involving the crossing of nume-
rous torrents by means of slippery and
sometimes submerged tree trunks, and
if an occasional slip was made into the
ice-cold waters it was only a bit of ex-
perience in keeping with the expedition.
The streams rose so rapidly that the
luggards in the procession had to be
ferried over on ponyback, the while
they tried to tuck their feet away safely
on the top of the saddles.

Then ensued a stiff trail climb of a
thousand feet up the cliffs and into a
dense tree-growth until the tented city
came in view, most beautiful for situa-
tion, on the shores of Summit Lake, and
in the midst of a fine grove of forest
giants. High above on either hand
towered Wapta Mountain, a peninsula
peak of the Presidential range.

The first camp meal was eaten with a
zest that kept "Ping-Pong," our Chi-
nese chef, on the jump, and the first
camp-fire, with its song and cheer and
story-telling, was but a sample of many
delightful ones that followed.

A series of excursions were daily made
to other and higher points. The chief
feature was the climbing of the Vice-
President, its height of 10,000 feet qual-
ifying the successful climbers for active
membership in the club. Nearly fifty
safely and successfully accomplished the
task of negotiating the four peaks that
form the great mountain, each party
being in charge of a Swiss guide or one
of Canadian make. Many a thrilling
tale was told around the blazing logs
of the precipices overcome, the ice
fields crossed, the snow areas passed
and the glissading down the slopes on
the homeward journey. The ascent of
the Vice-President made a stiff day's
work of twelve hours duration, involv-
ing all kinds of mountain climbing.

Another popular excursion was a
two days' trip up to the northern end
of the Yoho Valley, via the lower trail
and back by the upper one. Ten each
comprised these parties, in addition to
the guides and helpers, and a caravan
of pack ponies. There is surely no
more wonderful region in the Canadian
mountains than this; no vale where
nature's wonders are so numerous, or
her handiwork displayed on such a
titanic scale. It has well been termed
the Yosemite of Canada, and the twenty
five mile route takes the thrilled trav-
eller past the foot of the great Takka-
kaw Falls, 1,200 feet high, and by the
Wapta River and canyons to the won-
derous Wapta glacier that feeds the tur-
bulent stream.

The winding paths through the for-

Bone Spavin

Know it by the lump and the
limp—a hard, bony growth on the inner side
of the hock joint, usually low down and a lit-
tle forward of the center of the leg—a quick
hitch with the sound leg, and a stiff move-
ment of the lame leg, bearing the weight on
the toe, most noticeable in starting.

Now cases, old and bad cases, the very worst
cases, cases where firing has failed, are cured
by
**Fleming's
Spavin and Ringbone Paste**
Guaranteed to cure the lameness for good
—may or may not take off the lump. Easily
used by anybody, and a single 45-minute ap-
plication usually does the work—occasional-
ly two required. Write for Free Horse Book
before ordering. It gives all the particulars,
and tells you what to do for other kinds of
blemishes.
