MUSCULAR CRAMP.

e Said to Be the Only Certain Rem edy For the Trouble.

Muscular cramp, muscular exhaustion or myalgia, as it is variously called in common and medical parlance, is often confounded with neuralgia and rheuma-tism. There are undoubtedly many innces of muscular cramp in which one or the other of the last named conditions is present. But in these cases the exhaus-tion depends upon the existing neuralgic or rheumatic condition and disappears under treatment of the original trouble:

Myalgia-the word is derived from the Greek, and means muscular pain-arises from exhaustion of the substance of the muscle. This loss or vitality is in most excessive or long continued activity under favorable conditi

The amount of vitality which a muscle consumes when in action is, of course, proportionate to the amount of work required of it, and under normal conditions the supply furnished by the blood is sufficlent for the need. Under adverse conditions, however, there is no opportunity offered for the complete recovery of the muscle from its labors, and a strain is the result. The muscle feels lame and sore, and not infrequently one can almost im agine that in some way it has become tied

Myalgia may attack any muscle, though there are certain ones which, by reason of their location, are endangered more than others. Seamstresses are very liable to have cramp in the muscles of the shoulder on account of the steady application and confinement necessitated by the nature of

their occupation. A favorite seat for myalgia, as most of us can testify from painful experience, is in the calves of the legs. The pain is especially severe on lying down at night, and may be so great as even to draw up the

Massage offers the only certain relief from myalgia. The rubbing should be brisk to insure an abundant circulation of blood to the distressed muscles, and for this reason also it should be in the direction of the vessels through which the

Liniments of various kinds may be tried, or, what is better, the external application of alcohol may be resorted to. Cloths wrung out of hot water, with a teaspoonful or so of laudanum sprinkled on them, and placed directly over the ach-

ing muscles, are useful to ease the pain.

When the trouble is in the muscles of the leg, hot footbaths may be employed to restore the circulation in the limbs and to "draw out" the pain. The observation of general hygienic measures should not be forgotten where there is a tendency to muscular cramp.—Youth's Companion.

A GOOD SWALLOW

Thirty-seven Ohjects Recovered From the Stomach of a Melancholine.

It is satisfactory to have a story like this on high medical authority: Dr. Fricker, head physician of the Evangelical hospital, in Odessa, describes in The Ger-man Medical Weekly the case of a woman, 32 years of age, who comes of a woman, 32 years of age, who comes of a healthy family, but about a year and a half age the loss of a child caused a temporary nerv-ous disorder. Three months ago, on the death of a second ohild, this was renewed

and developed into decided melancholia. The patient declared her resolution to commit suicide. She began by drinking petroleum and a solution of carbolic acid, but these did not kill her. Then she swallowed needles, small buttons and nails. These failing, she turned her attention, in an asylum to which she had been taken, to larger objects—hairpins, steel pins and long nails. This being also done in vain, chet needle, pieces of glass, two teaspoons, a fork and a piece of iron.

On the surgeon asking how she could swallow those rather bulky objects, she answered quite calmly: "Oh, it is quite easy with the handle first. You will," she said, "find a whole store of things in my stomach." In his operation Dr. Fricker took out of his patient's stomach a key about 3 inches long, a silver teaspoon 6 inches long, a plated teaspoon 5% inches long, a plated fork 8 inches long, two nails, one 2% inches and the other 3% inches; two hairpins, 12 pieces of glass, an iron hook about 4 inches in size, a steel pin, nine needles, a piece of graphite, a boot button, a grape stone, two little balls of tin foil and a crochet needle 4 1/2 inches long. Altogether there were removed from the stomach 37 objects. The operation was successful, and the patient was dismissed

Stanton's Poverty.

Mr. Stanton, soon after he left Johnson's cabinet, wrote somewhat in these terms to the Hon. J. K. Muirhead, who was for many years member of congress from the Pittsburg district:

DRAR GENERAL—I am in need of money, even for marketing. I could get all I want, if I would let my poverty be known, by a public subscription. But you knew I would not think of permitting such a string. I want to borrow \$3,000. My security, you know, is sufficient in the coal lands we own together.

General Muirhead told me this soon after receiving Stanton's letter. He was my kinsman and most intimate friend, and he was aware of my friendship for many years for Mr. Stanton. My first acquainte with the great lawyer was made in 1850 in Philadelphia, where he was arguing before the supreme court, I believe, what was known as the Wheeling bridge I know he was in great poverty when he ceased to be secretary of war, and that he borrowed this money, and it was paid back afterward. James L. Claghorn and the Union league of Philadelphia soon after Mr. Stanton's death raised a fund of \$100,000 for his family. I was a subscriber to the fund. At that time I lived in Williamsport, Pa. Henry Dundas, when sec-retary of war under William Pitt, and while England was putting forth every man and dollar to creak the power of Na-poleon Bonaparte, took a bribe of £100,-000. Our great secretary, if he had desired, had the opportunity to acquire wealth beyond the greed of avarios. But he died in absolute poverty. We should all he proud of his memory.—J. B. M. in New York Sun.

OF HEALTH SAYS:

DUBLIN NATION IS WILD

It Warns the People of Ireland to be Wary of Emigrating to Canada, Especial-Is to Mashaba

Dublin, April 30.-The historic newspaper, The Nation, which has been revived, will to-morrow publish a warning address to the clergy and people of Ireland against what it characterizes as a nefarious scheme initiated in Canada to induce Irish emigrants to settle in Manitoba. Two emigrant commissioners, it says, have been sent to reside permanently in Dublin and Belfast Reside permanently in Dublin and Helfast. Both of these are Catholics, because, being of that faith, they will be more likely to facilitate the plan.

The Nation declares that Manitoba is a kind of Siberia, and, moreover, says that the Protestant majority in the Province tyranaize over the Catholics, who are deprived of schools and have only a few churches.

TORONTO HORSE SHOW,

The Great Society Event of the Spring Season Proves a Brilliant Success

Yesterday's Awards. The words "a brilliant function" may now be used in describing the third anpual Canadian Horse Show. The first day's performances placed it beyond failure as a sporting and artistic event, and yesterday's exhibitions assured it a social and financial success. In the afternoon a goodly audience enjoyed the ring She-It cannot be. I am not worthy program, while at night, despite the threatening aspect of the weather a brilliant and distinguished throng tilled the capacious Armourtes. It would, perhaps, be easier to say who were not there than to give the names of those present, but a few of the latter may be "A caneful, calculating, practical women who can live on your small salary."

How much business can a man do whose system is in a state of disorder? Headache is only a symptom. It is not a disease. The pain in the head is the sign of rebellion. There have been mistakes in diet and other abuses. Dr. Pierce's Pleasant Pellets are a gentle, effective renovator and invigorator of stomach, liver and bowels. They assist nature without threatening to tear the body piece-meal. There are no griping pains, no nausea. One is a laxative.

A book of 1008 pager, profusely illustrated, written by Dr. R. V. Pierce, called "The People's Common Sense Medical Adviser," will be sent free for 31 one-cent stamps to cover cost of mailing only. World's Dispensary Medical Association, No. 663 Main Street, Buffalo. N. Y.
