WASHINGTON, Sept. 29.—Official denial of the sinking of a French warship by the Austrian forts at Cattare was made to-day by the French admiralty through the embassy here. The French secretary for the navy has made known that this news is entirely false, and that there is nothing to justify such a report. Up to date (September 28) no French warship had been touched by an Austrian projectile, said the admiralty statement, which attributed the report to the "Cologne Gazette."

included with the scientific instruments. Hunting with the camera exceeded by far the results obtained by shooting or capturing specimens through roping, although the latter were entirely satisfactory. Ten thousand feet of films was secured, showing the chase of the moose and mountain sheep, scenes of Eskimo life, the hunting of seal, walrus and polar bear, and this was condensed into six reels, composing a two hour entertainment at once sensational, thrilling and educational. These grand pictures will be presented at ferrand Thursday, Friday, and Saturday, Oct. 1, 2, 3, twice daily. Mr. T. D. Jackman, a member of the expedition, will lecture while the pictures are in progress.

At the same time General von Kluck has extended his lines to St. Amand and is in touch with the Thirteenth French army corps at Courchelettes and Arleaux.
