d by Liberals. The Empire s ont on paper that the Govern-is beaten, but the average citizen a well grounded ides that Sir is sagacious enough to pull gh without much trouble.

The only possible mag would be a notion of Conservatives and Patrons a Patron plank which the Government would not accept. But the stron leaders say they are not in the eginlature to offer a factions opposition to the Government. As we undersand this, the Government's general city will have their support, and any will not be a party to map votes reach motions of want of confidence, run although personally favorable to a principle expressed in such. If a nir vete is thrown against the Government it will be with fair warning at because the Government will not

gave him a big majority in Palmerston, and the Roman Catholics swelled his majority in Peel to 188, whereas Mr. Allan had 198 there last election.

Tomorrow will see the beginning of Canada's 28th year of existence as confederation. Twenty seven years of national life have passed, and the Do-minion, in spite of a few adverse conditions, seems securely anchored. As Rev. Wm. Patterson put it at the O. A. College yesterday, this north country with its vigorous manhood and woman hood has a great future before her, if her sons and daughters are true to the best ideals of a nation's life and work. Let it be the endeavor of every Cana dian to culivate the virtues of honesty truth, brotherly kindness, and industry, both in private relations and public duties, and there need be no fear or anxiety about the destiny of this great country of ours.

THE Patron candidate in North Waterloo drew his biggest majorities so far as we have seen, from the Roman Catholic settlements of St. Agatha and New Germany, which would upset the idea that the Mowat Govern the corporate church vote. Why should there be such unjust suspicion and charges that this vote went to the Government for a consideration in legislation, when the whole Conserva tive policy of the past three campaigns ind to antagonize the drive them from the Conservative ranks? What is the use of obscuring the plain inferences to be drawn of effects of this Conservative policy, and attempting to lay these effects on an alleged underhand alliance between Sir Oliver and Archbishop Cleary. It is all based on a needless fear of Roman Catholic encroachment. The Roman Catholics had the benefit of the Separate school legislation for the past ten or twelve years and what do the returns of population show. In On tario from 1881 to 1891 the Roman Catholics increased 87,000; the Church of England increased 18,000; the Presbyterians increased 85,000; the Methodists increased 62,000, In Canada the Roman Catholics increased &8 per cent ; Church of England increased .06 per cent; Presbyterian increased .09 per cent; Methodist increased, .54 per cent. In other words, the Church of England increased twice as much in proportion as the Roman Catholics; the Presbyterians three times as much, and the Methedists eighteen times as much. If this ignoble fear of Roman Catholics was rooted out of some Protestants, we would have less aggressive Protest antism and more aggressive Christian

They were the same as that published in Tar Etranusc of the 57th, with the exception of a polling subdivision in Pustinels, which gives Mr. Darby one more yote. The total vote polled was —Darby, 1807; Musica, 1998, which gives Mutrie amploited 6-66. These were 3817 votes polled; unspolled 2360; total vote on roll 5577. The Ool, after sading the returns, declared Mayor Mutrie elected as the very resumtative for flouth Wellington in the Legislative Assembly for the present term. Before making the second control of the control of th

their vete is thrown against the Government it will be with fair warning and because the Government will not accede to their position. We are in thind to think that the Government will not be unreasonable, and that the ideas of the Patron leaders will be met, wherever the public service will not suffer. And even should the Government give battle with them, say, on the abolition of what is called class legislation, it is a question to be omissioned whether Mr. Mere life, can afford to aid the Patrons in the metallic many through the government generally gains. The people may rest easy in the conviction that Sir Oliver and his collesques are there to stay—at least for a good while yet.

The U. S. tariff has been finished in committee of the Senate, and will now be pushed through. It is expected to be in operation on August 1.

Mr. Tucker, the Patron candidate in West Wellington, has evidently obeyed in some respects Parl's injunction to be all things to all men. Not alone did not restrict the support of the Patrons and the Conservatives, but the P. P. A. gave him a big majority in Palmerston, and the Roman Catholics swelled his the Raelin Str. Read what the Frogs in the Creamcrock

Two frogs fell into a cream crock. One immediately gave up in despair, and said:—"There's no use in struggling; we might as well realize at once that we must die, and pass in our checks gracefully." "You may do as you please," replied the other, "but for my part, I shall continue to jump as long as there is life enough left in me, and perhaps something will turn up." The faint-hearted frog was impressed with the wisdom of this latter speech, and accordingly both frogs began vigorously to hop up and down, and keep up a constant commotion in the cream crock. The result was that the cream was churned to butter; whereupon both frogs got on top of the butter and hopped out.

MORAL - When you feel blue and discouraged, and are inclined to think that there is no use in wasting energy when times are dull, remember the two frogs that fell into the cream crock and keep a jumping.

This constant activity is the policy with which we have kept business brisk this season as in the past. We hear many reports of poor business, dull times, scarce money, etc., etc., but our experience has not been in accordance with this. Some lines of goods we have placed at prices that carry no profit to us, in others, we have taken advantage of the whole sale man's anxiety to unload part of too heavy a stock, and bought at figures that mean a big loss to him, but cheap goods to you, but there is not a department in our store in which you will not find goods selling at less than the regular prices. We propose to keep business humming all summer, if low prices will do it.
