Oxford Wants No Women—Rumored Italian Defeat—The Venezuela Blue Book.

London, March 13.—The powder magazine in the Penedo fortress at St. Paul de Loondo, Portuguese West Africa, has exploded, nine soldiers having been killed and ten wounded. The explosion was due to the wilful act of one of the victims.

The naval and military co-operative stores at Bombay have been burned resulting in a loss of about \$860,500.

Queen Victoria was received with military honors upon her arrival at Cimiez.

The Oxford congregation has rejected all the proposals substituted for the degree of Bachelor of Arts of the Dreibund.

At the east end to of foreat Britain, time the chief from the brit end upon a platform sit eight players who represent the United States of America in the international struggle, with four official scorers, the captain of the team and the umpire for the British. Eight tables of players were placed at the outer edge of the platform and down the face of each table hang the scores of the moves kept by the stewards having that duty in charge. Upon the south wall hang the suspended boards upon which other stewards move the figures in accordance with the cabled moves received and sent. Telegraph operators have tables on the floor of the hall and to the right of the platform, the receiving and sending departments being entirely separated from each other. The contest, therefore, is highly peculiar and interesting, each move made by every player, whether in Brooklyn or London, being instantly shown on the suspended boards, and instantly cabled to the room in London where sit the eight British players.

British Pacific meeting last night was not by any means an exciting affair, though the theatre was packed in every part and hundreds were turned away from the doors. The speakers were all temperate in their remarks, though there were flat contradictions in matters of fact between Mr. Rithet and the Premier, who it must be admitted took a man's part throughout. Mr. Turner received some groans and hisses, it is true, but he also received ilberal applause, and the opinion of the meeting was not by any means hostile to him—though no doubt all present felt more or less disappointed with the turn of affairs, and not a dozen people stood up against the resolution. The result, will no doubt be to put more result will no doubt be to put more confidence in the Government, so far as the immediate future is concerned, and perhaps if the House had not al-ready adjourned until Monday a Fri-day sitting would have been held as

PEARL BRYAN'S MURDERERS. Cincinnati, O., March 14.—The most intense interest was taken by the general public here and in Kentucky in the hearing of the habeas corpus proceedings in the Circuit court to-day in the case of Walling and Jackson, indicted in Campbell county, Kentucky, for the murder of Pearl Bryan, whose dead body was found near Fort Thomas on Feburary 1st. The accused have been under arrest since February 5th and been twice in the Police court and twice in the Police court.

Paine's Celefy Compound Releases all from 1st Saturday to Sheriff Plummer of Campbell county. Their attorneys resorted to habeas corpus proceedings which will be heard in the higher court to-day. But one more dilatory step is left them, and that is to appeal to the Supreme court.

NEW WELLINGTON COAL AND THE PROTECTION ISLAND COAL

PROTECTION ISLAND COAL

HEE "NANAIMO" COAL gives a large percentage of gas, a high illuminating power, unequalled by any other bituminous coal in the world, and a superior quality of coke.

THE "SOUTHFIELD" COAL is now used by all the leading steamship lines on the Pacific "NEW WELLINGTON" COAL, which was introduced in 1896, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market. THE "PROTECTION ISLAND" COAL is similar to the New Wellington Coal. This coal is raised from submarine workings under the Gulf of eGorgia, and is shipped from wharves both on Protection Island and at Nanaimo.

The several mines of the Company are connected with their Wharves at Nanaimo, Departure Bay and Protection Island, where ships of the largest tomage are loaded at all stages of the tide. Special dispatch given to mail and ocean atsumers.
