#### Cemetery Board Approves of the Mausoleum Proposition.

The Cemetery Board last night decid ed to apply to the Finance Committee at its next meeting to amend the clause in the cemetery by-law that prohibits the sale of lots for profit. The proposed amendment will not mean that persons can buy indiscriminately and sell for profit any parcel of lots they want to. It will be worded specially to cover such agreements as the Cemetery cover such agreements as the Cemetery Board is asked to enter into in regard to building a mausoleum which W. S. McBrayne, C. D. Blachford, S. McPhie and Pitt Curtis put before the board at a special meeting last week. Mr. Mc-Brayne and his confreres were present Brayne and his confreres were present last night at the board meeting, when Chairman Fearman reported that City Solicitor Waddell, the chairman of fin-ance and the Mayor were of the opinion that the proposed agreement could not be entered into. Mr. McBrayne promis-ed to be present with the members of the board and the members of the Son-pany at the next meeting of the Finance Committee, when that committee will be asked to amend the clause. If the Finance Committee is in favor of the proposed amendment it is likely it will be granted by the council, and the pro-moters of the scheme intend to go right ahead and hustle for subscribers for their crypts. They intend to have most of them sold before the building is creeted. night at the board meeting, wher

Chairman Fearman reported that the legislation asked for in regard to the investment of the \$40,000 had been measurement of the \$40,000 had been passed. The Trusts & Guarantee Co. wrote, saying that their offer of a ten year investment at  $53_{\frac{1}{2}}$  per cent, still held good, and the board will, following the new heristation

held good, and the board will, following the new legislation, suggest that this be approved of by the council. The coun-cil merely holds the right now to ap-proposed by the board. The statement for khe first three months of this year showed receipts of \$4,328, of which \$1.728 was turned into the perpetual care fund. The expendi-ture for the quarter was \$1,715.43. Work on the grading will start within three weeks, and tenders will be opened at once for the rails, poles and other equip-ment. Another effort will be made to have the bonus by-laws submitted in Moulton and Gainsboro townships. In the latter only the divisions directly in-terested in the railway will be maked for a sanction, the southeasterly divi-sions, not being affected, will not vote. It is possible under these circumstances to carry the by-law, while in Moulton a better condition of the roads will no doubt allow a majority of the electors to get to the polls this time in order to overcome the small adverse majofity. The decision of the company as to com-ing farther south than St. Ann's, before the snow flies, will depend on what ac-tion the townships of Louth and Clinton take in the matter. That a determined effort will be made to get the road to Beamsville, and then to Jordan Harbor, will take form on Monday night, when a monster meeting of ratepayers and the municipal Councils, is to be held in Victoria Hall, Vineland. As the state of affairs stands at present, the experi-mental farm is isolated for seventy-five per cent. of the people. The road would also give an impetus to land values in southern Clinton and South Grimsby town sips that have remained dormant for a longer period than a generation can tell. stretch of steel on the Dunnville, Wellandport & Beamsville Electric Railway In accepting the position, Mr. Murton said he promised five and a half years ago, after the summer carnival, that he would steer sby of a very active part in any big public movements, but he assur-ed them that now he had taken up the work he would do his best. For cent of the people. The road would also give an impetus to land values in southern Clinton and South Grimsby town aips that have remained dorman't for a longer period than a generation can tell. It is said this road will be one of the easiest constructed roads in Ontario. As regards bridges, three or four small ones will be needed, the largest to span the Chippewa Creek, and one over the Twenty. The grade down the mountain is a comparatively easy one, being on an average about 3 per cent. Along the whole route, the fills will be insignifi-cant, the heaviest being between St. Ann's and Dunnville. The engineer is confident that three large box cars, and perhaps four, can be carried over the heaviest portion of the mountain grade, between Beamsville and St. Ann's.
