all at once. A Nebraska dealer in agricul-tural implements "got religion," felt it his duty to point out the way to others, and said to a farmer:--- "Brother Jones, I will guaranty that if you join our church you will not only fine it the best in the market, but it will the set in the market, but it will take you straight through without any further inventory. Give it a trial, and if not satisfactory I will take back your re-ligion and refund your money."

The Russian Government has iss ting the game of cards known ccarat, on the ground that it is merely a of chance. The game had become mable in all the clubs of the Russian game of chance. cities, and people of both sexes, the old and the young, the nobles and the merchants were anxious to try their luck. From on

The Preston (Eng.) Guardian of the 5tl instant, speaking of the Canadian horse trade says :—" This trade is now becoming one of the most important between this country and Canada, especially those horses selected from the breeding District of Ottawa, as they make the linest carriage and harness horses in the country. The importers are nubling in the country. The importers are pushing them into various inland districts, and we notice that 50 imported by Mr. Fred. Sparks of Ottawa, are for sale next Friday at the watering place. If not, why not? "All aboard," from Mr. Hoben, with an

chester City Mews. Mr. Crawshay, the iron master, left pro-perty in England worth \$6,000,000. Ten years ago it would probably have been far larger. The comparatively small amount (\$13,500,000) under which Baron Rothschild's personality was sworn—less than half that of the late Mr. Brassey—is doubtless due to a large proportion of his wealth being in other countries. Only two British per-sonal estates have ever reached \$20,000,000, and there is but one instance of a direct legacy of \$5,000,000.

American Manufacturers are building up a great trade with Australia in machine-made doors, sashes, window blinds, and similar articles of joinery. As many as 32,000 doo were sent to Australia last month. To Eng land, also, 45,000 doors were sent in 1878 Why cannot we have all this trade ? Surel we can compete with American woodwork in a neutral market. The trade policy which would give us this business would be worth all the benefits that could be extracted from a street full of N. P's.

The New York Sun says the hopes of th Senian Brotherhood in New York have rise again, in consequence of the agricultural dis tress in England and Ireland, partly through American rivalry in grain and cattle. The regard the reform of the land laws and com parative impoverishment of the aristocracy as the speedy results, and believe the aboli-tion of the expense of monarchy and the establishment of a republic will en Fenian clubs in the Eastern States are ported as having large memberships, and as being active and united.

A rich widow, lacking only two years of half a century, and dressing her hair six times a day, in Elizabethtown, Ky., fell in love with a youth of nineteen who had bee working on her farm. Her two step-so ordered him to leave the town, and threaten m to leave the town, and threate to use a shot-gun if he should ever attem to return. The widow took the lad to tow ed for him a new suit of clothes, and charged him to get a license. The you man did as he was told, and when they w married she carried him home and asked h step-sons what they meant to do about it.

The latest incorporated company attract-ing attention in London is the "Anglo-American Food Supply Stores and Trading Company," with a capital of £150,000 stg. The prospectus informs Englishmen general-ly that it is the intention of the Company to open an establishment in London where the public will be enabled to purchase all articles of food under one roof, and from first hands, at a much less cost than they are now sold for. The Company is now making special The Company is now making special gements by which the products of the arrangements by which the products of the great food centres of America will be brought almost to the doors of the consumers without the employment of agents, and the usual at-tendant expenses,

Here on concessions along the recommodation, they probably went to the ple from the country crowded up to Londor left bank dwell descendants of families who "Tardy House." After tea, the President and a number of his guests gathered on a high rock. [near the court house on one side were located there in the years of French rule, when by way of the St. John there was

high rock, [near the court house on one side, high rock, [near the court house on one side, and a lofty flag staff on the other] to take a view of the lovely and peaceful scene beneath and beyond them. The first shade of evening was falling on the St. John (across it a ferry boat was being onstant communication between Quebec and the fort at the mouth of the Nashwaak, and in the harbor of St. John ; of some who after the expulsion of the Acadians from Grand Pré. Bay of Minas and Annapolis, found here the St. John (across it a ferry boat was being On Her new settlements, and also of families who at drawn by ropes) and on the woods and fields the close of the war between France and

being worked hard enough they feel their ats. But the chief trouble with them i table, is the distance between St. Basil and Little Falls. Little Falls was named Ed-mundston in honor of Sir Edmund Head, who was Governor of the Province in times which seem remote, so many changes having taken place since his day. The Falls here have aptly been named "Little;" the Mada-bay aptly been named "Little;" the Mada-thigh and shadowy wooded banks, flows rapid-t ly in its descent to meet the St. John and near its mouth, meeting with rocky obstruc-t tions becomes agitated and churns in wrath. At times of high freshet, the "falls" are wick Railway, for the most pleasant excurthat they are not sufficiently practiced in rawing the Steam Fire Engines, and becam rightened and unmanageable in the crowd They ought to be taken out frequently with the engine until they come thoroughly acustomed to it. The horses were purchased at first, principally for the use of the Fire Department, and they should be worked so as be efficient and placed under order of the Chief Engineer to that end. There is a grea lifference between moving easily about th treets and resting every now and then At times of high freshet, the "falls" are scarcely visible; seen in summer lowness, with their surroundings, there is a certain picturesqueness about them, though the first reflection that occurred to practical minds in the party, was that they were a splendid water nower and ought to be utilised. Edmundston, which is their chief work, and dragging neavy engine, with all the accompanyin clatter and excitement, at speed, which eir occasional duty, and it is no wonde that the horses feel the difference, and be ome restive. Only constant practice will

concile them to it. The shades of evenin Edinburgh, Quebec, for instance, is situated a black cloud, spaped like a great bear on, and runs down hills. To take a humbler Edinburgh, Quebec, for instance, is situated on, and runs down hills. To take a humbler parallel, its situation reminds one of Dorches-Mountain. a note and lost it, and anothen, lost and that. The Duke laughed so tauntingly at this that Garcia went to his iotel, stuffed his pockets with notes and gold, and returned to the play-roem. When it closed at night he had lost nearly \$100,000; in a few days the whole \$500,000 had vanished. The Calzado affair followed when Garcia was imprisoned for card sharping; this ruined him finally. Ere the play stopped at Saxon-les-Bains he hung round the place, tendering instructions to inexperienced players; afterwards he haunted Monaca, where, however, he was re-fused access to the gaming tables when ha had money. So he died in poverty.

In the facade of the Church of St. Augustine, Paris, where the Mass of Requiem was said for the late Prince Im-whispered to him "to be sure that Bill came to no harm, as it was quite an accident."
