

Fifteen Years of Agony
"Fruit-a-tives" Promptly Cured Him After Doctors Had Failed To Give Relief.

CHARLES BARRETT, Esq.

Harbor au Bourche, Antigonish Co., N.S., March 24, 1909. "I wish to express my sincere appreciation of the great benefit I received from taking 'Fruit-a-tives.' I suffered from Biliousness and Dyspepsia for fifteen years and I consulted physicians and took many kinds of ordinary medicine, but got no relief. I was in miserable health all the time and nothing did me any good. I read the testimonial of Archibald McKechnie, of Ottawa, and I decided to try 'Fruit-a-tives.' I have taken a number of boxes of 'Fruit-a-tives,' but before I had taken one box I felt better and now am entirely well. I am thankful to be well after fifteen years suffering, and I am willing to have this statement published for the sake of other sufferers, and to them I strongly recommend 'Fruit-a-tives.'

(Signed) CHARLES BARRETT, Esq. 50c a box, 6 for \$2.50—or trial box, 25c. At all dealers or sent post-paid on receipt of price by Fruit-a-tives Limited, Ottawa.

NEW TRIUMPH IN PHOTOGRAPHY

Robert W. Woods, professor of experimental physics at John Hopkins University, has made another remarkable discovery. He has photographed light waves of color invisible to the human eye.

They are landscape photographs, in which the infra-red and ultra-violet rays never before photographed and never seen, produce startling and beautiful effects, some like snow scenes.

The discovery is of value to astronomy as well as photography, for Dr. Wood has already taken pictures of the moon by his new method.

Professor Wood is the discoverer of a method of color photography of the first eye lens, of a memory reflecting telescope that promises to solve many difficulties in the astronomical line; of a screen which, placed before an ordinary incandescent light, makes the light appear like that of ordinary day, and of a method of intensifying the colors of oil and water color paintings and giving them the same relative strength they have in nature.

RECEIPTS AND EXPENDITURES

A Statement By Secretary First of July Celebration Committee.

I hereby submit to the citizens of Newcastle a statement of the Receipts and Expenditures of the 1st of July celebration, 1908. This would have been published at an earlier date, but several small accounts were outstanding and were never rendered.

In submitting this favorable showing, we understand the balance is to be donated to the square committee to buy new seats.

"See That Triple Curved Spring!"

GENDRON

BABY CARRIAGE

"The GENDRON is a beauty, and it's the car for me. There are lots of good plain reasons why you should buy a GENDRON for baby. The carriage car is made in Canada. Every inch of material embodied in the GENDRON is the best that money can buy."

"See that triple curved spring? That feature is exclusive to the GENDRON. It's made of selected and tested steel—the triple curve absorbs every jar, making this carriage car a veritable feather bed for baby. There are other reasons why you should invest in a GENDRON carriage. Style and service are guaranteed. Then—GENDRON carriage cars are so easy for us baby drivers to operate. Sold by all first-class dealers. Write us if your dealer doesn't carry them."
