### Must Get Out.

The intensity of the unpopularity of the Government is only equalled by that of the last Tory Government of eleven years ago, and it is well known how the electors acted when their chance came in the fall of 1900. There was a record return of members sent to support Sir Robert Bond. Only four members were found on the Opposition benches when the session opened in 1901, and these represented but two districts in the whole electorate.

Now there is a general feeling that at all costs the present Government must go, and the electors are only waiting for an opportunity to clear out the Government. The main cause of this feeling is the disgust which has arisen from profuse expenditure, wild extravagance and general givings-out to supporters and members of the Morris Party.

Again, there is the givings-out of timber areas in extraordinary large areas to friends and supporters of the party, which has created a feeling that the chief end of the Government is to put the supporters of the Plenic Party in a position to be "on the make." The people have made up their mind that the Plenic Party must get out, and they will take care that the Plenic Party does get out when the General Elections comes round.

## THE PATIENT BRAIN

A tireless worker so long as supplied with rich, red blood.

The brain is one of the most patient and industrious organs of the body. It can be induced, by good treatment, to perform prodigies of work. But it is sensitive and will not brook abuse. It responds to the lash at first, but if the lash is laid on too hard it balks.

Nervous trouble is generally brain trouble, and no suffering is to be compared to mental suffering, with the accompanying dread, suspicion and melancholy.

One-fifth of the blood in the human body is consumed by the brain, so make the blood rich and red by using Dr. Chase's Nerve Food, and you will overcome diseases of the nerves. Headaches will disappear, irritability will go, digestion will improve, and weakness and despondency will give place to new hope and courage, new vigor and energy.

Dr. A. W. Chase's Nerve Food will enable you to avoid such extreme nervous trouble as prostration and paralysis. 850 cents a box, 6 boxes for \$2.50; at all dealers, or Edmanston, Bates & Co., Toronto.

### "Moonstruck."

Mr. P. T. McGrath is never himself unless he is courteous. Out of his personal experience of the ill the flesh is heir to, yesterday he called us "Moonstruck." Webster tells us the term stands for a state of mental or physical derangement. What charms us most about this gratuitous diagnosis is Mr. McGrath's strange forgetfulness of self. We thought Mr. McGrath would have been the last person in the world to publish a diagnosis of his own, relating to any sort of human debility. We can only thank him. We cannot reciprocate and tell him what he was suffering from when he so far forgot himself. The only return we can make for his generosity, urbanity and courtesy is to let him know the Plenic Party would suffer much less loss of popularity if he himself had not the reputation of an itching palm for Treasury fees.

Ask your Druggist for **SERRAVALLO'S TONIC** (Bark and Iron Wine). Cures: ANAEMIA, CHLOROSIS, DEBILITY. Delightful taste.

### Decorating Armoury.

This evening the members and ex-members of the C. L. B. will begin embellishing their Armoury for the celebration of the 20th anniversary of the inauguration of the Brigade. Evergreens and bunting will enter largely into the decorative scheme and everything will be finished by Tuesday next. The anniversary celebrations will be of a very interesting character.

BOSTON, To-Day.  
On the face returns from 354 out of 1,070 election district the Democrats won the State election and kept Massachusetts in party column by continuing Governor Foss in office for a second term. Returns gave Foss (Democrat) 137,553; Frothingham (Republican) 177,074. General Republican victory at Rhode island.

### Special Evening Telegram.

NEW YORK, To-Day.  
Returns received from throughout the State indicate the complexion as assembly body will be as follows: Republicans, 100; Democrats, 49; Socialists, 1. This would mean a net gain of 37 seats for Republicans and will give them a majority of 50. In New York City the election for local officers in Tammany Hall maintained supremacy.

### Becoming a Nuisance.

The actions of the large number of youthful thieves about the city are becoming a nuisance to business people who are the victims of petty larcenies almost daily. Night after night Mr. E. Berrigan had small things stolen from his store, and on some occasions he brought very young children had caught back to their parents and told them of their actions. He was constrained to call the police last evening when he found others about, but to-day showed his forbearance by pleading before Judge Knight in their behalf, and upon his recommendations the boys were released under suspended sentence.

## Supreme Court.

## Fish Very Plentiful.

The schr. Geo. May arrived here this morning from Sully Cove, T.B. She had a hard time of it last night and was the only vessel on the coast; she had a gale of S. S. wind and heavy rain and had to run under small canvas. She reports codfish more plentiful than ever on the south side of Trinity Bay, and that boats at Island Cove and neighbourhood yesterday took big fares of fish.

## Ethel May Be Sold.

Mr. W. S. Munroe's schooner the Ethel, while entering Figuera last week, went ashore on the Bar there and after a while floated off and entered port. The captain reports that damage to the extent of 200 pounds sterling was done the ship and it is not unlikely that she may be condemned there and ordered to be sold for the benefit of whom it may concern.

## Alone He Did It.

A Captain Who for Three Days Ran the Ship Himself.

For one man to do the work of twenty with his own hands for three days and nights, and with forty lives under his charge, is a feat that takes some beating. It was done by Captain Morrell, who brought the steamer Scindia home by himself, although the crew considered necessary to work her was twenty-five, including engineers.

With \$35,000 worth of cargo and fifteen passengers on board, she broke down in the Atlantic, and was driven hundreds of miles north out of her course. An accident spoiled the fresh water, and discoloured water gave the crew dysentery, which, together with mishaps, left the captain without an officer or a man capable of work. The first officer and five of the crew were washed overboard, the two chief engineers were killed in the mishap, and the third only managed to make the damage good before he was laid up.

The captain, when the storm subsided, actually started one of the fires himself, got one of the engines to work at slow speed, and, by superhuman efforts, he managed to navigate the ship and keep her going, backed by great good luck.

He brought the Scindia homeward round the North of Ireland, getting no wink of sleep for three days and nights; as he was out of the line of traffic, nobody saw his distress signals. He brought his ship to within twenty miles of the Mersey, and there a pilot-boat met him. Once boarded he collapsed, and slept soundly for twenty-four hours; but he had, says The Mariner, the biggest ovation any merchant captain ever received when he got ashore.

THINK OF IT, READERS, AND REMEMBER that when you want your clothes cleaned and pressed, or a new suit or overcoat made in the very latest style, the phone number is 574 and the place 345 Water Street, and the name SPURRELL BROS., next door to Parker & Monroe's West End store.—oct26,ec,tf

## Big Bazaar at North River.

Dr. Whelan's Bazaar which opens at North River, on Monday, 13th inst., promises to out rival all previous efforts in this direction. The local committee have been assisted by auxiliaries both in Sydney and in Boston. Three young ladies from Boston have come home especially for the occasion and will have a special table of their own, introducing some new attractive features. The parishioners of North River will be present in large numbers and will purchase with accustomed enthusiasm. The success of the enterprise is already assured, and the anticipated large proceeds will be utilized to complete the interior finishing of the handsome church at North River which is a standing monument of the zeal of the pastor, and the active co-operation of the Roman Catholics of the parish.

The firemen on the Cacouna yesterday protested against the class of goods they were getting, and also asked for a rise of wages. Complaint was made to the Union here, and the Delegate interviewed the right people about the matter. The men were promised better fare and the question of wages will be considered.
