NOTICE!

To Parties Interested in Acquiring Timber, Pitt Props, Etc.

Proposals are invited for the cutting and shipment of timber, pit props, etc., from the property of the International Timber Company, situate inland Hall's Bay.

This property is considered one of the finest timber tracts in the Colony. Intending operators may have the use of the mill and dock of the Company, if required, on terms to be arranged.

All offers to be addressed to the undersigned Solicitor for said International Timber Company, who will be prepared to furnish any particulars as to the property.

Applications from irresponsible parties will not be considered.

WILLIAM R. HOWLEY,
Solicitor for the International Timber Company.

MACKINTOSH Fibre Steel Studded Tyres.

An all-rubber tyre is unsuitable for our roads. Look at the cars of those who have been motoring here for years, and what do you see? Why, Steel Studded Tyres.

But steel studs in leather do not wear well, the leather cracks with the wet and heat, the studs work in through the tyre and puncture the inner tube. This is where the Mackintosh Patent Tyre scores, the studs are embedded in fibre which is not affected by wet or heat, it does not crack, and the studs do not work inside the cover, and the fibre is puncture-proof. A car wearing these Tyres last year and this has not had a single puncture, and every cover has given over 4,000 miles of running before wearing out.

A new shipment just in, call and see them.
