Sale and Tea

The Gower Street Church Mission
Circle Sale and Tea which opened yester-
day afternoon was a greater suc-
cess financially than last year's event.The sale was formally opened at
4.30 by Mrs. (Dr.) Macpherson, who
referred to the object for which it was
being held, and complimented the
members of the Circle on their efforts.
The stalls were very prettily arranged
and well stocked with vegetables,
pickles, cakes, candies, preserves and
fancy work, for which the ladies in
charge found ready purchasers so
that the supplies rapidly diminished.
At 6 p.m. meat teas were served to a
very large number, many who had
found it impossible to attend earlier
being present.A most enjoyable concert was also
held at the close of which all the
goods remaining unsold were auction-
ed. Those who took part in the con-
cert were:—Miss J. Taylor, Mrs. C.
Garland, Miss R. Curtis, Mrs. D. John-
ston and Mr. F. Wylie, Mrs. S. Clift.
Mrs. B. Leslie, Miss E. Tait at the
piano acted as accompanist.**Medical Movies**In the back garden of an old house
in Bermoneysay is a film studio which
possesses novel aspects. Here all are
produced, under the guidance of Dr.
R. King Brown, Medical Officer of
Health for Bermoneysay, propaganda
pictures dealing in matters of public
health and well-being. Subjects of
the films include child welfare and
the prevention of contamination of
food by flies. Dr. Connan, who is in
charge of the propaganda work of the
department, acts as producer, camera
man, and writer of the "sub titles,"
while all the actors are clerks, doc-
tors and nurses on the staff of the
department.On a large wooden platform at the
bottom of the garden the various
scenes are "shot," and whenever film-
ing is in progress a large crowd of
Bermoneysay's children may be seen
gathered outside the wall, hoping for
joys as scene-shifters or "supers." This
"film advice" is given in a
straightforward way, and is not wrap-
ped up in stories with imaginary
characters. Dr. Connan says that he
finds people pay more attention to
the advice given if it is done this
way. After all, it is so easy to make
baby's bath-time into a humorous
episode if one is not very careful.The only part of the work not done
by the Health Department staff is the
developing and printing of the
films. This is a highly technical
matter, and is better left in the hands
of experts.**Science Has**

Become Practical

"Science and faith, as Pasteur saw
and taught, are the expressions of
different and distinct attitudes of the
human spirit," comments the Even-
ing Standard.It is no inconsiderable gain that
this point of view has been generally
accepted, because, in abandoning her
claims to explain the ordering of the
universe, science has set herself free
for more useful, if less exalted, ac-
tivities.**NOW---PLAYING THE NICKEL---NOW****Harry Carey in
