THE ALERTS DEFEAT THE ATHLETICS.
If the Hamilton Athletics are among the kaders in their own district, and the Londard and the Londard Research of said Athletics, have not the Alerts signifity chance for the championship is the final rub?

This thought suggested itself to many in the disappointed crowd at Tecumsch Park yetterday afternoon—disappointed because they expected to onjoy a well-contested match between good teams. They were first disappointed because Mickey Jones was not in the box for the hillors. Mickey stayed at home, which saids was not in the box for the visitors. Mickey stayed at home, which his substitute, Jennings, might have done for all his services amounced to. Poshaps its latter was disheartened by the miserable support accorded him. Five errors and as many unearned runs in one inning—the first—is enough to discourage any pitcher. In the second inning, the Alerts made three runs—all earned—Hynd making a single, Sippi and Johnson a two-bagger ach, and Ball a pretty single. In the fifth hining eleven of the Alerts went to bat and free hits were made, including a surprising three-bagger from Sheere and a two-bagger from Sippi. Jennings was knocked out of he box, and in the sixth was replaced by Piece, who did much better, though he add difficulty in getting the ball over the late. Outside of these innings the home into did nothing remarkable with the fillow, though their base-stealing throught was admirable.

The only time the visitors took a runting spasm was in the fifth, when a lot is shoothey music by the Alerts two hits.

The allegations, four in number, are stated as follows: 1. That 200 shares in the Raleigh Company were allotted to him at par when the shares were at a premium, thus making him a present of all that premium. 2. That the Raleigh Company are paying him the whole of the profits of the advertisements and sale of a book, "Zimmerman on Training and Points for Cyclists," published by them as a return for his always having ridden a Raleigh. 3. That Mr. F. Bowden, on behalf of the Raleigh Company, presented him with diomonds valued at £100. 4. That he, or Mr. McDermott for him, stipulated with Mr. Garland, the honorary secretary of the Irish Cyclists' Association, that a mile seratch race, with a prize of a diamond ring valued at £10 los., should be put into the programme when he went to race in Iroland, and that unless such a race was introduced he would not compete.
