

TANGLED THREADS

The transaction in regard to drawing the bill had been wholly Edmund North's. Some months ago he had sought Mr. Alexander, saying he was in want of some money—a hundred pounds; he did not know how to put his hands just then upon it, not wishing to apply to his family; would he, the surgeon, like a good fellow, lend it? At first, Mr. Alexander had excused himself; for one thing he had not the money—fancy a poor country surgeon with a hundred pounds loose cash, he said; but eventually he fell in with Edmund North's pleadings. A bill was drawn, both of them being liable, and was discounted by Dale, the lawyer of Whiteborough. When the bill had come due (about a week ago) neither of them could meet it; and the matter was arranged with Dale by a second bill.

"What I cannot understand is, how Edmund North, poor fellow, could have pitched upon me as the writer of that letter," observed the surgeon to Dr. Kane, when he had finished his recital. "He must have gone clean daft to think it. I had no reason for disclosing it; I did not fear but he would eventually acquit me of it."

"I told them you could not have written it," quietly rejoined the doctor.

Mr. Alexander lifted his hand with angry emphasis. "Rane, I'd give a thousand pounds out of my hospital, and long may I be spared in health and strength to administer relief to suffering humanity."

"Remarkable Cure of Dropsy and Dyspepsia."—Mr. Samuel T. Casey, Belleville, Wis., writes: "In the spring of 1884 I began to be troubled with dyspepsia, which gradually became more and more distressing. I used various domestic remedies and applied to my family physician, but received no benefit. By this time my trouble assumed the form of dropsy. I was unable to use any food whatever except boiled milk and bread; my limbs were swollen to twice their natural size; all hopes of my recovery were given up, and I quite expected death within a few weeks. Northrop & Lyman's Vegetable Discovery having been recommended to me, I tried a bottle with little hope of relief; and now, after using eight bottles, my dyspepsia and dropsy are cured. Although now 73 years of age, I can enjoy my meals as well as ever, and my general health is good. I am well-known in this section of Canada, having lived here 57 years; and you have liberty to use my name in recommendation of your VEGETABLE DISCOVERY, which has done such wonders in my case."

Little ones yet. Mrs. Alexander is remaining in town for a day or two.
In talking, they had walked slowly to the end of the avenue; Mr. Alexander passed through the gates, and took the road towards the Ham.
"If my wife will go on at once, and see Ketter, thought Dr. Kane. Time enough to call at the Hall as I return."
So he went on towards Dalory. Two gentlemen passed him on horseback, county magistrates, who were probably going to the Hall. The sight of them turned his thoughts to the subject of an inquest; he began speculating why Mr. North wished to evade it, and whether he would succeed in doing so. For his own part, he did not see that the case, speaking in point of law, called for one. Heburn said it did; and he was supposed, as chief undertaker in Dalory, to understand these things.

THE PEOPLE'S FORUM.

London City Hospital.
To the Editor of the ADVERTISER:
Having been sorely afflicted with stone in the bladder I put myself under the care of the medical superintendent of the London General Hospital, the necessary operation was very skillfully and successfully performed by the medical superintendent, assisted by his associates, and in my opinion to let it pass without a word of comment would be very ungrateful on my part, if not a positive injustice. I therefore thank Dr. Balfour and every one of his associates and assistants with whom I came in contact during my stay in the hospital, and long may they all be spared in health and strength to administer relief to suffering humanity.

"All run down" from weakening effects of warm weather, you need a good tonic and blood purifier like Scott's Emulsion. Try it.

The best bricks in the world are made by the tribes of Central Asia.

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Electric Oil is earache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hiccups, disorders of the bowels, and affections of the throat, to which the young are especially subject.

Asphalt is taken from a lake of pitch in the Island of Trinidad.

Why will you allow a cough to irritate your throat or lungs and run the risk of filling a consumptive's grave, when by the timely use of Bickel's Anti-Consumptive Syrup the pain can be allayed and the danger avoided? This Syrup is pleasant to the taste, and unsurpassed for relieving, healing and curing all affections of the throat and lungs, coughs, colds, bronchitis, etc.

New York City has 34,000 miles of underground wires.

Not That Kind.
Scott's Emulsion does not debilitate the stomach as other cough medicines do; but on the contrary it improves digestion and strengthens the stomach. Its effects are immediate and pronounced.

It is estimated that 1,200 tons of ostrich feathers have been exported from Cape Colony during the past 30 years, valued at \$50,000,000.

The Only One that's imitated, among all washing compounds is Pearline.

That is because it is the original, the most popular, and the best.

Peddlers and some grocers will tell you that this thing or that thing is "the same as" or "as good as" Pearline—what better recommendation do you want for Pearline? They tell you this because it pays them better to sell these "same as" stuffs. But how will it pay you to use them? Any saving that they can offer you, in prices or prices, can be only nominal. The loss in ruined linens, flannels, muslins, etc., can be large.
