Chicago Grain Market Closes Higher for Wheat,

Local Market. Reported by A. M. Hamilton & Son. London, Wednesday, Feb. 10. WEEKLY REVIEW.

Corn, per bu25c to 31c Buckwheat, per bu24c to 26 1-2c Rye, per bu 22c to 28c

Among the few changes that occurred this week are lower prices for red clover seed and peas, and higher prices for oats, corn and buckwheat. The receipts were mostly of wheat and oats, and a good deal of hay. Butter and eggs sold at a few cents lower prices.

Meats were about the same values as last week. Apples and potatoes sold a little higher—about 5c per bag on both.

The annual meeting of the Liberal Association of South Middlesex was held yesterday at Delaware, and the various officers for the year were redlesex: Dr. Wilson, of St. Thomas, and unable to be present.

MR. MILLS' ADDRESS. After the officers were elected Mr. Mills made a short speech. He re-ferred to the history of the Liberal party, and its struggles for the in-troduction of Parliamentary Government. He pointed out the serious ob-stacle that local matter when dealt with by Parliament offered to legislation upon questions of general public policy; that to get rid of this mis-chief municipal institutions were introduced, which for a number of years proved an adequate remedy for the evil. Then, when the union took place between Upper and Lower Canada, another class of local mischiefs arose out of the difference of race and religion in the two provinces, which was met by the federal union of British doubtedly possesses the merit he North America. The union covered this evil, and it was hoped that our system adequately guarded against expense of this kind. It did so fairly well until 1883, when Sir Charles Tupper introduced a resolution declaring that all railways tributary to the main trunk lines

of Canada were roads for the general advantage of Canada, and thus the Dominion took control of the local roads and undertakings of this province, which had been constructed at the expense in a large part either by the province or the municipality. This led to a rapid increase in public expenditures, which conferred no corresponding advantage and neither directly nor indirectly made to the treasury adequate return.
