BRUIN AND BATHER

The Swimmer Went Too Near a Chained Bear and Was Killed.

Iowa Falls, Ia., July 30.—In the presence of 50 people Sunday evening, William Lepley, a blacksmith of this city, was killed by a bear that is kept on exhibition at the Fallside boat landing. Lepley was in bathing and swam near the shore, where the bear is chained. Before Lepley could make an outcry the bear reached for him, and dragging him out fastened his teeth in his neck. After a struggle the body was recovered, but the man died a few moments later.

New York, July 30.—There was a lively time at the Bronx Zoo when two of the big black bears fought, result-

ing in severe injuries to Curator Dittmars, who went into the den to separate the animals. When the fight was over one of the bears lay in a fit with a water hose playing over it, while the other animal stood near by, ready to spring upon its foe as soon as it showed signs of returning life. The trouble in the den started three days ago, when Jennie, a black bear, showed signs of loneliness. A mate was furnished and they got along well, until suddenly Jennie showed a violent dislike to her companion. Dittmars jumped into the pit with a prodding iron. Jennie turned on him and pushed him against the bars, breaking his arm. Other attendants saved him from further injury.

HE NEEDS THE FULL FORCE!

Gen. Kitchener Refuses to Release Volunteer Rifles From Active Duty.

Boers Lived in Caves—Well-Furnished and Well-Stocked Hiding Places in the Lydenburg District—Captures and Surrenders of the Enemy Total 33,000.

Cape Town, July 30.—Boers are scattered throughout the upper districts of Cape Colony in small marauding parties. Some are within a few miles of Indwe. Others are around Jamestown and between Molteno and Burgersdorp. Several parties are close to Cradock.

It is reported that among Mr. Steyn's captured documents letters were found regarding a plan for Gens. Dewet and Delarney to join forces in making a dash into Cape Colony.

WANTS THE FULL FORCE.
Replying to an appeal by the mayor that the members of the Duke of Edinburgh's Rifles, a local corps, be released from active duty after twenty months' service, Gen. Kitchener has pointed out that the present disturbed state of the colony makes any reduction in strength very difficult and most undesirable.

LIVING IN CAVES.
Pretoria, July 30.—From July 1 to July 22 the number of Boers captured, wounded, or who surrendered was 1,068.

Caves have been occupied by Boers since they have been discovered in the Lydenburg district. They were hurriedly vacated by their occupants when the British approached. The caves were well furnished and stocked with provisions. A quantity of silks and satins were also found in them, and it is supposed that these were looted from stores.

A military census will be taken on July 31.

Col. Garrett has had a successful skirmish near Vereeniging. His force captured twenty-five Boers and a number of cattle and wagons.

London, July 30.—Lord Stanley, financial secretary to the war office, replying to a question in the House of Commons, said the number of Boers made prisoners, or who had surrendered since the declaration of war, totalled up to July 1, 33,000.

A dispatch received at Lisbon from Lorenzo Marques, Portuguese East Africa, announced that a Boer commando, accompanied by women and children, has entered Portuguese territory in the neighborhood of Limpopo River. Reinforcements of troops have been sent to disarm the party of Boers.

"THE LESSON."
London, July 30.—The Times publishes a poem by Rudyard Kipling, entitled "The Lesson," embodying the idea that Great Britain has learned from the war that her military system is all wrong, and has had, in the words of one line, "all her most holy illusions knocked higher than Gilderey's kite." Following are some of the stanzas:

"It was our fault, our very great fault, and not the judgment of heaven, We made an army in our image on an island nine by seven; Which faithfully mirrored its maker's ideals, equipment and mental attitude, And so we got our lesson, and we ought to accept it with gratitude.

"We have spent one hundred million pounds to prove the fact once more, That horses are quicker than men afoot, since two and two make four, And horses have four legs and men have two legs, and two into four goes twice, And nothing over, except our lesson, and very cheap at the price.

"It was our fault, and our very great fault, and now we must turn it to use, We have forty million reasons for failure, but not a single excuse, So the more we work, and the less we talk, the better results we shall have.

We have had an imperial lesson; it will make us an empire yet."

RUDYARD'S POPULARITY NOT INCREASED.
Rudyard Kipling's latest poem, "The Lesson," bearing on the Boer war, has not, says a New York Tribune dispatch from London, increased his popularity.

Keep Your Hair Thick and Glossy

No reason why your hair shouldn't be beautiful when "Oriental" Rum and Quinine Hair Tonic costs so little. This favorite preparation both protects and preserves the hair. It nourishes the roots—stimulates them to new growth—stops the hair from falling out—cleans the scalp—cures dandruff—makes the hair grow soft, silky and luxuriant.

Large bottles, 50 cents.

CAIRNCROSS & LAWRENCE,
Chemists and Druggists,
216 Dundas Street.

He is said to have written another poem, in which he metes out rough and ready justice to various British generals. Mr. Kipling, says the dispatch, is a strong military partisan, and is thorough-going in his contempt for Aldershot fussiness and red tape. He expresses colonial and imperial rather than British opinion of the military failures during the war.

\$500,000 FOR BOBS.

In the House of Lords, Lord Salisbury read a message from King Edward to the effect that, in consideration of the eminent services of Field Marshal Lord Roberts in South Africa, his majesty recommended that parliament grant him the sum of \$500,000. King Edward distributed more medals yesterday afternoon at Marlborough House. Winston Spencer Churchill, the war correspondent, former Hussar officer, and now member of parliament for Oldham, was among the recipients.

BACK FROM SOUTH AFRICA.
Quebec, July 29.—The steamship Numidian of the Allan Line arrived in port at 5 o'clock this afternoon. Among the passengers were 5 officers and 65 men of the Canadian Scouts from South Africa. The names of the officers are as follows: Lieut. Callaghan, Lieut. MacDonald, Lieut. Ross, Lieut. Ryan and Lieut. Thompson. Most of the men came straight from South Africa. They are all healthy. They speak of the hostilities in South Africa as being nearly over. Five of the privates, being from Quebec, have landed here. The 55 others are starting tonight on board the Numidian for Montreal.

RECONCENTRATED CAMPS—A DUTCH STATEMENT.
Chicago, July 29.—"The horror of the situation in the Boer reconcentrated camps of South Africa is appalling. Men, women and children are dying at a rate that would mean the extermination of the Boer race in nine years. The people are cooped up in unsanitary quarters where they are unable to secure sufficient food or clothing, with disease making terrible ravages among them."

Thus was the situation in the Transvaal and Orange Free State depicted tonight at the Christian Reformed Church by Rev. Herman D. Van Brockhuizen, late pastor of the leading Dutch Reformed Church of Pretoria. He has come to the United States to raise money to alleviate the sufferings of his countrymen who are huddled together in refugee camps. He says there are more burghers in the field than when Pretoria was taken.

EVIDENTLY MEAN TO STAY THERE.

The French and German Troops at Shanghai—Building Massive Barracks.

London, July 30.—The Shanghai correspondent of the Globe, cabling today, says: "The assent given in the House of Commons (July 23) by Lord Cranborne, the under foreign secretary, that the French and German troops are only temporarily here, are refuted by the fact that both nations are erecting massive permanent barracks, which will take two years to complete, indicating that many years' occupation are contemplated."

NEW BOILER AT NORMAL SCHOOL

Chief Engineer Wickens in the City in Connection With the Work.

Chief Engineer Wickens, of the Ontario Government service, is in the city. Mr. Wickens has charge of all lighting, heating and power services in the public institutions of the province. His visit at this time is in connection with the service at the Normal School, where it had been judged necessary to put in a new boiler. The one there at present is adequate for present requirements, but the other is being installed for cases of emergency.

HOT TIME IN NEW YORK.
New York, July 29.—There was a return of hot weather in New York city today. At 1 o'clock the temperature was 90 degrees and the humidity 71 per cent. Up to that hour there had been one death and seven prostrations from the heat in New York city.

BRITISH NAVAL MANEUVERS ENDED.
London, July 30.—For the purposes of the British naval war was declared yesterday morning, and the struggle of the opposing fleets to try and obtain command of the English Channel and of the approaches to it and St. George's Channel commenced. Before many hours had elapsed a great naval battle was fought off the Scilly Isles. The result of the encounter was the annihilation of the defending squadron, and the English Channel is now apparently at the mercy of the enemy. The fleet, representing the home defense force, lost the whole of its squadron of cruisers, while the enemy's fleet lost eight vessels out of twelve. Eighteen splendid warships had been theoretically destroyed in less than an hour.
