

A rather interesting fact came out yesterday in connection with the Horon hockey team, which won first honors in this season's city league contest hands down. It is an old saying in London among devotees of winter pastimes that when one wants to learn anything of the hockey history of this city the proper person to look to for the information is Billy Foley, better known as right wing, J. Orr; left wing, Hague "Mike." "Mike," as the boys will persist in calling him, at one time was the most enthusiastic hockey fan in the Forest City, but this season finds him among the ranks of the semi-active members. Not that "Mike" doesn't still like the game. Far from it! But business duties, in the form of a managerial position in a Richmond street billiard and pool parlor, have held him in restraint, as it were, and he cannot find as much time to devote to the greatest of winter sports as he once did. Yesterday afternoon The Advertiser sporting man hied himself to Mr. Foley's place of business, and learned the history of the premier Hortons.

There was nothing of the sensational about the origin of the doughty league leaders. Not at all. Three youngsters-names are unnecessary-sat on a Horton street gate one evening in September, 1900, and talked over the idea of getting up a team to uphold the sporting reputation of the street. After discussing the matter pro and con, they decided to talk it over with "Mike (it was Billy then), and eventually the team was formed, albeit it was minus uniforms and other hockey paraphernalia. They then decided to hold a concert, at 10 cents a head, and from the proceeds (if there were any). buy what they needed. Fortune-in the guise of Horton street parents and friends -was kind to the boys, and enough money was raised to garb each boy in green and white uniforms-striped at that. From the green on the Horton's uniform came the name "Mike" for Manager Foley, and it stuck.

When the Hortons applied for entrance to the city league that winter they were almost laughed at.

"Some of you will do, and some of you won't," they were informed.

"All, or none," replied the green and white kidlets, and they got in. The following year the Hortons entered the junior series of the O. H. A., and played in that group until last year when what was practically the Horton team played under the colors of the Seventh Regiment in the Intermediate O. H. A. series, finishing not far behind the leaders. One of the largest crowds that ever witnessed a local hockey match turned out to the Princess Rink the night that the Seventh team defeated Goderich, it being said at that time that there were fully 2,000 paid admissions. The score at half time was 3-1, and at full time 3-3. With only a minute of the extra ten minutes to play the local boys laced the winning goal in amid wild enthusiasm. Archie McMahen, the popular referee, and Kenneth Casselman, of the Orients, helped to make up the team that season.

The Horton' excellent work this season is well known to all local hockey enthusiasts, and the general opinion is that the boys deserved their wellearned victory, if for nothing else than having stuck together so long. But two changes in the original lineup of 1900 are noticeable on this year's team, and they are both on the defense line. The only regretable feature about the tive. present victory (from Billy Foley's standpoint) is that, while he was manager of the team they never finished in first place. Foley managed the team up

"However," said "Mike" yesterday, "I am glad that the boys have won out at last. If ever there was a game bunch of boys comprising a local hockey While Lloyd also put up a splendid team it is those self-same Hortons. They are certainly the candy-kids."

"Bob" Emslie, the popular National League umpire, who rusticates during to reach. His temper, however, got the the long winter months in the village of St. Thomas, was one of the Saints' better of him on two or three occamost enthusiastic curling representatives in the Western Ontario Curling If the Indians play the same game in Tankard contests decided at the Thistle Club rinks yesterday. COLT'S TANKARD

Ingersoll, Feb. 22.-After playing for five hours and a half, Ingersoll won the Western Ontario Colts' tankard today, defeating Stratford by the overwhelming score of 59 to 32.

A great deal of interest centered on the contest, which was commenced at 9 o'clock in the morning and was not concluded until 2:30 o'clock in the afternoon. It was marked by considerable gilt-edged curling and the spectators were brought up to a high pitch

of excitement. The Ingersoll rinks got away to bad start, each losing five ends in succession. Then the locals pulled up and clean player, gave Young a jolt into fifteenth end. At this juncture, Sumthe game was very close until the ner's rink got a seven-head and Henderson's four. This was the turning point for the hometsers and the visit-

ors were never dangerous. Ingersoll enjoys the distinction of

Forty-Third Annual Report of

The Huron & Erie

Loan and Savings Company

THE CANADIAN SAVINGS AND LOAN, COMPANY AND THE HURON AND ERIE LOAN AND SAVINGS COMPANY. Amalgamated January, 1906.

The forty-third annual general meeting of the shareholders was held at the company's office in London, Ontario, on Wednesday, the 13th February, 1907

Present: Messrs. J. H. A. Beattle, H. C. Becher, H. S. Blackburn, Geo. Brown, J. A. Cairneross, Major Hume Cronyn, V. Cronyn, K.C., Very Rev. Dean Davis, F. R. Eccles, M.D., Wm. Ellis, Alex. Fraser, H. E. Gates, Griffith Griffiths, F. G. Jewell, J. W. Jones, F. E. Leonard, J. W. Little, J. H. Logan, Judge Talbot Macbeth, A. T. McMahen, T. G. Meredith, K.C., Charles Morton, M. H. Rowland, Geo. A. Somerville, Ven. Archdeacon Young and

The president, Mr. J. W. Little, took the chair, and the manager, Mr. G. A. Somerville, acted as secretary

The annual report and financial statement were submitted as follows: The directors of the Huron and Erle Loan and Savings Company have pleasure in submitting herewith their Forty-third Annual Report, showing the result of the company's operations for the past year, accompanied by balance sheet to December 31st, 1906, duly audited.

The amalgamation of The Canadian Savings and Loan Company and The Huron & Erie, which was completed harmoniously in the early part of the year, has resulted, not only in added strength and a lessening of competition, but also in a reduction in expenses of management, and a substantial increase in net profits, fulfilling to a marked degree the prediction that the amalgamation would be a great benefit to the shareholders of both companies.

After defraying the expenses of management and all other charges, and writing off anticipated as well as actual losses, the balance available for distribution is \$282,915 98, as follows:

	Net profits upon the past year's tusiness		
		282,915	98
1	Of which the following disposition has been made:		
1	Two half-yearly dividends at the rate of 9 per cent per annum, and Government and Business Tax		
2	and Government and Business Tax	\$173,024	43
	Transferred to Reserve Fund		
	Balance carried forward		
1		299 015	90

The Reserve Fund now amounts to One million six hundred dollars, or over eighty-four per cent of the paid-up capital.

The value of the real estate held by the company, other than office premises, is \$4,800. This sum includes all properties remaining unsold which have come into the possession of the company by foreclosure, failure to obtain purchasers under power of sale, or otherwise

The directors desire to bear testimony to the very efficient manner in which the manager and other officers of the company have discharged their

respective duties. All of which is respectfully submitted. J. W. LITTLE. London, Ontario, Jan. 28, 1907. President.

Manager. We herby certify that we have completed the audit of the books and accounts of The Huron and Erie Loan and Savings Company for the year ending December 31st, 1906. The cash and bank accounts have been audited monthly; the postings and balances of all the company's ledgers examined quarterly; and we find the whole correct and in accordance with the above statements. We have also examined the company's securities and find them in order.

M. H. ROWLAND,) Auditors. F. G. JEWELL,

London, January 31st, 1907.

In moving the adoption of the report the President said: The report just read covers the business of the first year following the amalgamation of the Huron and Erie and the Canadian Sayings and Loan Company, and whilst we have not yet realized all the advantages we anticipate from amalgamation the results so far obtained are such as to furnish conclusive evidence of the wisdom of the union of the two companies under one management. It was scarcely to be expected that any material reduction in the expenses could be made during the first year, but the report shows that already a large saving has been effected, and the results generally have been such as must prove most gratifying to all our shareholders, whether originally interested in the Canadian or the Huron and Erie.

The reduction in expenses and the steady demand for money at better rates all through the year have had a most favorable effect on our Profit and Loss Account, and we hope that next year's accounts will benefit still more from the higher rates of interest recently prevailing.

The building formerly occupied by the Canadian Company has been sold for Twelve Thousand Dollars more than the figure at which it stood in the Company's books. The addition of this amount to the profits on the ordinary business has enabled the Directors to pay the usual dividend, and add \$75,000 to the Reserve, bringing this fund up to the handsome sum of \$1,600,000, or nearly 85 per cent on the paid-up Capital.

The total assets of the Company amount to practically the same sum as the combined assets of the two Companies at the time of amalgamation. This 7 is most satisfactory, in view of the greatly increased competition for deposits owing to the opening of so many new branches of the chartered banks in 31 this city and neighborhood.

The loans made during the year have been selected with the utmost

caution, the Directors realizing that having regard to the recent advances in the values of real estate, it was most important to exercise especial care and secure the best possible margins. Our large staff of inspectors has been kept constantly on the alert, and our system of frequent re-inspection and revaluation of properties held under mortgage rigidly carried out. As a result, our losses have been practically nil, and we rarely have much, if any, real estate on our hands. The one farm which we had at the end of the year has since been sold, without loss to the Company.

All our assets have been valued on a most conservative basis, and full provision has been made for any probable loss in every case where our security appeared to be at all doubtful, and I feel free to say that in my opinion the assets of the Company were never at any time during the Company's history in a better condition than at present.

Our Manager and assistants of all ranks have, as usual, performed their duties faithfully and well; they have all been most zealous and efficient, and the Company have good reasons to be proud of their staff.

During the year it became the duty of the Board to appoint new auditors. Mr. Alfred A. Booker, who had acted as auditor with perfect satisfaction to the Company for about seven years, was obliged to resign owing to ill-health, and Mr. George F. Jewell, F. C. A., who for upwards of twenty-eight years served in the capacity of senior auditor, was removed by death. Mr. Jewell's ability and well-known integrity were a source of strength to any Company with which he was connected, and it will be difficult to estimate the value of his services to this Company, as also to many other monetary institutions in the city. The vacancies thus created were filled by the appointment of Mr. M. H. Rowland and Mr. Frank G. Jewell.

Mr. V. Cronyn, in seconding the motion, said:

Mr. President,-I heartily concur in all you have said, and particularly where you emphasize the fact of our conservative estimate of the assets of the Company, which I could make considerably larger, but perhaps it is as

The report makes the Reserve about 85 per cent of the Capital, but we have assets not included, which I consider as good as any, and which, if reckoned, would make our Reserve quite 90 per cent. For instance, this Company's share in the Reserve of the Canada Trust Company is, in my opinion, quite as good as the Company's Reserve, and might be included as well as other unreckoned assets, and these, as I have said, make our actual surplus quite 90 per cent of our paid-up Capital.

It is true that some sources of profit for the past year were exceptional, and cannot be reckoned upon for the future, but, nevertheless, I think the time approaches when the shareholders may fairly look forward to a bonus if not an increased dividend. I believe that we shall be able to afford it and still continue year by year adding to our Reserve Fund.

I have much pleasure in seconding the adoption of the Report.

I have much pleasure in supporting the motion, because I feel that the Huron and Erie, that old, well-known and long-established Company, has lost no prestige by locking arms with the Canadian Savings and Loan, and am confident that the shareholders of the latter will also feel some degree of satisfaction that they have been enabled to assist in bringing about such favorable results as have been submitted today. The fact of the Company being able to declare 4% per cent dividends semi-annually, and to add \$75,000 to the Reserve Fund, is a matter for congratulation, and shows the wisdom of amalgamating the two Companies, thus lessening competition, and increasing the power and strength of the Huron and Erie.

In reference to the dividend, we should all feel very glad indeed to have 10 per cent instead of 9 per cent. The difficulty has been suggested by the President of the keen competition for deposits, and we must look toward the future and keep on the conservative side, as we always have. We believe the assets in the report presented to you today are absolutely as good as gold.

Ven. Archdeacon Young thought that the time had arrived for an increase in the dividend, but that nothing could be said that would be too great by way of praise of the care, fidelity and success which had marked the conduct of the Company's affairs for a long term of years.

Mr. A. T. McMahen, as an old director of The Canadian, considered that the report fully justified the amalgamation of the two Companies. It was more important to have a strong Reserve than to pay a large dividend, as the Reserve enabled the Company to borrow money cheaply. He believed the credit of the Huron and Erie, both at home and abroad, stood as high as, or higher than that of any other loan company in Canada.

The Very Rev. Dean Davis agreed with what had been said by the President and Vice-President, but thought that a Company with such a magnificent showing could safely make an increase in the dividend. Such acourse, in his judgment, would be very preferable to heaping up a large Roserve Fund for posterity.

Mr. T. G. Meredith, K.C., thought all were agreed as to the advisability of increasing the dividend when that could be done consistently. Everybody felt it would be a nice thing to have something extra coming into his pocket. The gentlemen who had spoken could rest assured that so far as the Board of Directors were concerned, there appeared to be very good reasons for not increasing the dividend, and that a little patience would show that the decision of the Board was a wise one. the Company's assets would be a great mistake and entirely contrary to the principles underlying the whole institution and governing all its actions. The utmost conservatism is desirable. It would be better to defer increasing the dividend until there was every reasonable assurance that the increase could be maintained permanently.

Mr. Alexander Fraser, in moving a vote of thanks to the President, Directors, Manager and other officers of the Company, considered that the report was the best that had ever been put into the hands of the shareholders. The fact that the Company had practically no losses, notwithstanding the large volume of business, was a remarkable evidence of the excellent conduct of the Company's affairs.

Mr. Frank E. Leonard, replying on behalf of the Directors, referred to the thoroughness with which applications for loans were considered and to the cordial relations existing between all the members of the Board, whether originally connected with the Huron and Erie or The Canadian.

On motion of Mr. J. H. A. Beattie, seconded by Mr. H. E. Gates, Messrs. M. H. Rowland and F. G. Jewell were reappointed Auditors.

The retiring Directors were unanimously re-elected as follows: Messrs. J. W. Little, President; V. Cronyn, K.C., First Vice-President: Robert Fox. Second Vice-President; John Christie, F. R. Eccles, M.D., John Labatt, F. E. Leonard, A. T. McMahen, T. G. Meredith, K.C.

SENIOR REVOLT AGAINST O. H. A.

sertion From the Ranks of the Big Fellows.

The Toronto News says: The Ber-POINT COMPETITION lin Club has decided to jump the amateur ranks and play professional hockey, and this morning arrangements were made with the Toronto Pros. for a game at Berlin on Tuesday Club, proved victorious in the point night next. A return game will be played in To-

ronto.

The Dutchmen have been contemplating this step since the muddle here on Saturday last, and last night definitely decided to play pro. out and out.

At least one other senior O. H. A. club is considering the same question and will decide within a day or two.

In fact there are rumors of a wholesale desertion by O. H. A. senior play. sale desertion by O. H. A. senior play-ers and clubs, and when the local
