CANADIAN NORTHERN CANCELS ALL TRAINS

Some of Canadian Pacific Trains Lost—Storm Swept Province.

TORONTO, Feb. 2.—Partial demoralization on the main lines of the railroads, and complete on branch lines, was the result of the storm, almost to be dignified by the name of blizzard, which swept the province last night and this morning. All trains arriving were from four to fourteen hours late, and some are still held up.
The railroad authorities state that the storm was the most severe in years. The Grand Trunk fought a fairly even battle, but the Canadian Pacific was hard hit, several of their trains being lost. The Canadian Northern cancelled all trains.

MIDDLE STATES HIT.
CHICAGO, Feb. 2.—Falling temperatures through the middle west tonight added to the troubles of the telephone and telegraph companies, whose service has been hindered for two days by the sleet and snowstorm. Increasing cold contracted the wires hanging heavy with iceicles and all companies reported that their wires were breaking with every degree drop in the temperature.

ONE OF WORST IN HISTORY.
ROCHESTER, N. Y., Feb. 2.—A thirty-mile nor'easter, laden with sleet and snow that froze as it fell, swept over this section during the night and caused one of the worst tie-ups in the history of interurban traffic. A train on the Rochester, Syracuse and Eastern jumped the track near the city line, severely injuring the conductor and a passenger. Derailments and delays are reported on other trolley lines. Steam roads also suffered.

SMALL SUM FOR ROADS
Government Will Not Ask Thirty Millions This Year.

TORONTO, Feb. 2.—The report of the Ontario Highway Commission that the Ontario Government spend \$30,000,000 on good roads throughout the province will not be adopted by the Government.
The cabinet has decided not to introduce any bill asking for permission to borrow \$50,000,000 for road purposes. Road legislation is still under consideration but the measure to be brought down will not cover more than a few million dollars.

NEWCASTLE AT CALLAO.
CALLAO, Peru, Feb. 2.—The British cruiser Newcastle arrived here today and is taking on provisions. The vessel will remain in port 24 hours.

UNEMPLOYED TO BE GIVEN WORK
CLEANING BRICKS
Plan To Give Out-of-Works Jobs On Old McCormick Property.

The session of the board of works, held in the city hall Tuesday night, was called to order by Ald. Palmer, who brought up the matter of mail delivery for the annexed districts, submitting Government plans as to where the delivery would be made. The plans were found satisfactory, with the exception that Controller Gammage wished the east end of Grosvenor and St. James streets included. Ald. Palmer asked that both sides of East street from Hamilton road to Trafalgar street, be also included in the mail service.
Instructions were given City Engineer Brazier to see that the street signs and the house numbering in the annexed districts be carried out immediately. The city engineer promised to have the work done by the end of the month.

Give Unemployed Work.
The board recommended that the unemployed be given a chance to clean the bricks at present in the foundation of the old McCormick property on the corner of Dundas and Wellington streets. City Engineer Brazier promised that the cleaning will be all done work as far as possible, while the excavating will be done by day labor. The men will work in relays.

A communication from the Department of Agriculture with the use of vacant city lots for garden purposes, was referred to the parks commission.
It is more than probable that the McCormick property will be marked by numerous billboards in the near future. The London Bill Posting Agency offered to put up the boards for the cleaning of the property. The city engineer will look into the cost of putting up billboards.

Those present at the meeting were Chairman Ald. Mayor Stinson, Controller Gammage, Ald. Daly, Ald. Palmer and City Engineer Brazier.

ARCADIA DANCE PROCEEDS FOR FIELD COMFORT FUND
Large Crowd Attends Popular Club's Social Evening in Masonic Hall.

Very informal, and thoroughly delightful in every respect, the dance given last night in Masonic Hall under the auspices of the Arcadia Club and the Lord Elgin chapter, Imperial Order of the Daughters of the Empire, was very large crowd of dancers, young and old, gathered, and lightly tripped the hours away to an excellent program of dances, music, and singing by the Tony Cortese orchestra.
The dance was one of the popular Arcadia Club affairs, but the management of the club kindly turned over all the proceeds to the Lord Elgin chapter to be spent in purchasing supplies for soldiers' field comforts. Judging by the good attendance last night, a large sum should be realized. The patronesses were: Mrs. Fred White, regent; Mrs. Samuel Stevely, Mrs. M. J. McLean, Mrs. H. W. Lind, and Mrs. A. E. Miller. Many other members of the local chapters, Daughters of the Empire, were present, and the dancing, being busily engaged in "grey knitting."
The members of the Lord Elgin chapter express themselves as very grateful to the management of the Arcadia Club for their efforts to make the dance a success.

The flags of the allied nations were used in the decorative scheme.

Ford Manufacturing In Moving Pictures

At the Princess Theatre, Thursday, Friday and Saturday of this week will be presented a series of moving picture film, illustrating the assembling, etc., of the Ford Motor Car. Very interesting and educating. Come and see it.

FEARS FOR STEAMER.
LONDON, Feb. 2.—3:10 p.m.—Fears expressed in Copenhagen says a dispatch that the Danish steamship Marselsborg, which sailed from Pen-scoia December 15 for Copenhagen, has been lost as the result of striking mines. The Marselsborg carries a crew of 25 men.

British Social Union Elects 1915 Officers

Members of the British Social Union are in sympathy with suffrage for women. At least, such seemed the attitude of the representation that attended the second annual meeting held last night in Hyman Hall. Up to the present time, men have held all the offices. From time to time, the women sisters and girl friends of the members have enjoyed the social dances and card evenings and have sometimes themselves acted as hostesses giving box socials, etc. Corporal Hall suggested last night that since the ladies have taken an active part, and owing to the fact that their services have proved very valuable, they should have some place on the executive. W. Heaman, who has held the responsible position of president for the past two years, when the matter was referred to him, stated that he had done all in his power to have the ladies attend the social gatherings. He thought they evoked warm applause, especially from the west side of the hall, where the ladies were seated. He believed out and out in votes for women. As the ladies paid a fee of 25 cents for their membership, he thought they should have some voting privileges. Another member moved that three ladies should be attached to the executive committee, as the ladies had given invaluable assistance. W. E. Banner, newly elected second vice-president, reminded that according to the constitution, ladies could not be appointed "on" the committee, but could be attached "to" the committee. This solution met with approval, and Messrs. F. Reed, W. E. Banner, and W. Gilbert were elected by ballot from several nominations.

Objects of Union.
The objects of the British Social Union Society are to add to its members the means of social intercourse, mutual helpfulness, mental and moral improvement, rational recreation and to uphold the dignity and traditions of the British race. Only adult males born in the British Isles are eligible for membership. The society was organized a year ago last March and has a membership at the present time of over 400. Some forty of the members have within the past few months joined the ranks of the empire, including last year's financial secretary, E. C. Dal, W. Heaman has been the president since organization, and under his ruling the association has flourished and realized in a substantial measure its objects. Welcoming hands have been extended to newcomers from the British Isles, and in addition, help has been given them in establishing a business, industrial and social relationships in a new country. Benefit concerts have been given from time to time for members requiring financial aid through sickness or for other causes. Recently successful benefits were given for members who had been burnt out and lost practically all their worldly goods.
Meetings, as a rule, are of a social nature and on Tuesday and Thursday evenings each week, cards, dancing and other forms of amusement are enjoyed in the refectory, Hyman Hall.

The New Officers.
Last night, the chief business was the election of officers for the coming year. The following were elected:
Honorary president—Lieut.-Col. T. S. Rolles.
President—John Nutkins.
First vice-president—T. J. Holmes.
Second vice-president—E. Banner.
Treasurer—Mark Guinness.
General Secretary—Garratt.
Financial Secretary—W. Ball.
Trustees—W. Heaman, R. Robertson, L. Banbury.
Executive committee—W. Corbett, W. Gilbert, Hanson, J. Williams, E. Bryant, B. Penhall, E. Morris, C. Pinches, H. Watkin, H. Carless, R. Robertson, L. Banbury.

Retiring from office. Mr. Heaman thanked the officers and members for the support that had been given him, congratulated them on the continuing success of the organization, and expressed best wishes for the future. Owing to the absence of the newly-elected president and first vice-president, the second vice-president, Mr. Banner, was installed as chairman, and gave a brief address. Mr. Robertson, reporting for the entertainment committee, referred to the man-of-war that had been enjoyed by the association. After the conclusion of business, the meeting adjourned for a social hour.

ANOTHER MEDICAL SMALLPOX CONTROVERSY
House Placarded in City and Inmates Says Disease Not Smallpox.

Medical controversies over smallpox have been more or less prominent since the disease first became known to the medical science. Lately they have been more common in London than usual. The "epidemic" that has created such a stir throughout the city has increased the controversies. Yesterday another case was brought to the attention of the health department. In this particular instance, the doctor in attendance, has declared the case is smallpox and as a result the house has been placarded. Now the statement has been put forth that the patient is not suffering from smallpox. Those who have seen the patient and who are supposed to be conversant with every symptom of the "pox" are positive in their statements that the disease is something else.

Musical Health Officer T. V. Hutchinson, M.D., is conducting an investigation into the disputed diagnosis. If, and there is good reason to believe that it will be, he declares that the disease is not smallpox, but is not suffering from smallpox. Those who have seen the patient and who are supposed to be conversant with every symptom of the "pox" are positive in their statements that the disease is something else.

GOVERNOR FREED.
(Canadian Press.)
Havana, Feb. 3.—Gen. Ernesto Asbert, former governor of Havana Province, who last June was sentenced by the supreme court to 12 years' imprisonment for killing Gen. Armando Riva, of the national police, was last night released. He was escorted from the prison to his home by cheering crowds.

City Architects To Build Schools
Costing \$200,000

Board of Education Will Not Employ Its Own Man—Grant Free Text Books.

The board of education, at its inaugural meeting Tuesday afternoon, rejected a recommendation from No. 2 committee that a school architect be appointed at a salary of \$2,400 per annum, and decided to let whatever work is proceeded with to various city architects on a basis of 1 per cent for the whole contract, or 2 per cent for preparing plans and specifications.
The architects attended the meeting in a body, and Mr. John M. Mares, president of the chapter, presented their claims as citizens and taxpayers for a fair share of the work, especially in the city like the present.
Mr. Gilbert at the board's request, presented estimates showing that the board would save nothing by employing an architect of its own at \$2,400 per year.

Three Applications.
Applications were received from Architects Nutter, Ferguson and Munroe for the position.
Dr. W. Shoebottom moved, seconded by Trustee Hayman, that Mr. Nutter be appointed, and that the board should make a recommendation to the board of the chapter, presented their claims as citizens and taxpayers for a fair share of the work, especially in the city like the present.
Mr. Gilbert at the board's request, presented estimates showing that the board would save nothing by employing an architect of its own at \$2,400 per year.

Official Records Show Up Old Saw As Not Infallible.

"If Candlemas Day be dry and fair,
The half of winter's to come and mair."

The bear didn't see his shadow yesterday, and the groundhog didn't come out, it should indicate an early spring, official weather prognosticators have not much faith in the old Scotch lay, and they disclaim even the slightest superstition, and the official record of the common meteorological office at Toronto for sections across the back rather backs them up, it shows:

1898—Mid 'spring followed Feb. 2, which was cloudy.
1912—Severe winter, clear, and cold weather followed.
1906—Following was cold.
1907—Day with a bright sun, but cold.
1902 and 1903—Mid spring came after cloudy Candlemas Days.
1904—Sun did not shine, but the spring was cold with a few bright days.
1905—Cold weather followed bright, clear day.
1906—Sun shone brightly, but spring was not so early.
1907 and 1908—Moderately cold weather prevailed, followed cloudy Candlemas Days.
1913—Severe winter, clear, and cold weather followed.
1914—Day with a bright sun, but cold.
1902 and 1903—Mid spring came after cloudy Candlemas Days.
1904—Sun did not shine, but the spring was cold with a few bright days.
1905—Cold weather followed bright, clear day.
1906—Sun shone brightly, but spring was not so early.
1907 and 1908—Moderately cold weather prevailed, followed cloudy Candlemas Days.
1913—Severe winter, clear, and cold weather followed.
1914—Day with a bright sun, but cold.

Voluntary Vaccination.

Chairman Somerville, of the board of health, reported that the immediate necessity of stamping out the smallpox epidemic in the city, and requested that the board co-operate in every way possible with the health department in securing vaccination. Several of the trustees expressed themselves as being very strongly opposed to any compulsory vaccination, but it was finally decided that as long as all vaccination is voluntary that the school board help in every way possible in the matter.

Another BALE SHIPPED BY THE DORF WORKERS
Contains Many Useful Things for Belgians.
[Special to The Advertiser.]
THE DORF, Feb. 2.—The Dorford millers workers have shipped four bales, containing new quilts and ladies' and men's and children clothing to the Belgium Fund.
Rev. Mr. Osterholt preached an anniversary sermon in Bethel on Sunday and Rev. Mr. Fair, of Arkona, filled the Dorford pulpit.
The Presbyterians will hold their annual tea meeting on Wednesday. A large sleigh load of young people drove to Forest rink last night to skate.

GERMANY TO KILL PIGS.
FODDER IS SO SCARCE
AMSTERDAM (via London), Feb. 3.—4:45 a.m.—The Berliner Tageblatt says that the German Government intends to buy up pigs to the value of \$50,000,000 to be killed and canned, in order to save fodder useful for military and other purposes.

The best and most satisfactory investment on the calendar is a good time share.

UP COOK CO.

FEBRUARY SALE
25 per cent off on all Furniture, Beds, Stoves, etc.
FURNISH TO SUIT.
Collet Furniture Co.
35 and 37 King Street, West of Talbot.

A Record Increase

The past year has been memorable for many reasons—mainly because of the outbreak of the war and the consequent situation in the financial and commercial world.

Despite these adverse conditions, most Canadian institutions are presenting good reports for the year, and doubly encouraging is the fact that an increase in every department of the Huron and Erie has been made during 1914.

The Assets now total over sixteen millions, being an increase over 1913 of over one million dollars—the largest annual increase in the company's history.

Hundreds of new customers were added to the books during the year, and it is noted with pleasure that the "small investor"—the man or woman with a few hundred dollars saved up—is fast becoming a more profitable security and service offered by the "Old Huron and Erie."

Full particulars of any of our departments gladly given. Call in or write

School, informed the board that there were 87 full-time students registered at the school, with an average attendance of 72. The average attendance for special day classes was 35, and for the evening classes 142.

A Big Increase.
Inspector Edwards reported that the enrollment in the public schools was 6,897, as compared with 6,337 a year ago. The average attendance was 5,915, an increase of 263. There was a decrease in the kindergarten enrollment, numbering 605, as compared with 700 a year ago. The total enrollment was 7,302, including the kindergarten, an increase of 206. There were 737 boys in the manual training departments and 809 girls in the household science departments.

The school nurses reported that 3,059 inspections had been made during the month. It was discovered that there were 6 cases of eye disease, 10 cases of skin disease, 124 affected with defective breathing, 14 with defective vision, and 44 with carious teeth. The nurses made 124 visits to schools and 215 visits to homes. Two children had teeth filled, 18 had glasses fitted, and 18 had adenoids and tonsils removed.
