Grain Warkets WINNIPEG

Canadian Press Despatch Winnipeg, April 8.—Price fluctuations, which worked well above yesterday's closing figures, featured today's wheat market. At one time the May delivery soared to \$1.55, an advance of 4½c, and a new high mark for the present movement. This strength was dissipated during the latter part of the session, the respective closing quotations showing May unchanged at \$1.51%, July 1½c lower at \$1.49, and October 2½c down at \$1.28%.

A more confident feeling prevailed among the trade, and a good class of buying developed on every break. Continued strength of the foreign cables materially added to the bullish sentiment on this side. Trade volume today was not large, but reflected a firm undertone. Exporters absorbed a fair supply during the early part of the session, against sales made at the seaboard overnight. Germany, Italy and Holland were reported to have purchased nearly 1,000,000 bushels of Canadian wheat.

Liberal rains throughout the winter wheat belt influenced some selling during mid-session, explaining the temporary break. Winnipeg, April 8 .- Price fluctuations 5 Commerce . 199 199 199 199 3 Montreal . . . 245½ 245½ 245½ 245½
