

A NAVAL TERROR.

A Description of the Proposed New Dynamite Cruiser and Destroyer.

The London Times says that "the most important triumph of American ingenuity is the dynamite cruiser recently constructed for and now being built by Wm. Cramp, of Philadelphia. Four years ago Lieutenant Zalkinsky was detailed by the Government to experiment with a pneumatic gun capable of throwing dynamite. His experiments have proved so successful that a vessel armed with such guns is about to be constructed.

This vessel is to be 246 feet over all in length, with a beam of 35 feet and a draught of 7 1/2 feet. She will be built of American iron, and will have a deflection deck from which ordinary shot will glance off. There will be four boilers to drive the two independent screws. These, with the engines, will be powerful enough to drive the vessel through a water of the rate of twenty knots an hour.

The armament will be the unique feature of this craft. It will consist of three steel tubes, each with breech and muzzle, containing one or two of the boilers blown away she would float and still have power enough to get to help.

The arrangement will be the unique feature of this craft. It will consist of three steel tubes, each with breech and muzzle, containing one or two of the boilers blown away she would float and still have power enough to get to help.

On suggesting to the engineer in charge that the vessel was designed to attack the enemy on the "pilot" principle only, he replied that the guns would throw shells, or six tons of the most terrific explosive known, during twenty minutes of the time they are steaming up to the enemy, and the presumption is that before that time has elapsed there will be no enemy left.

An advantage claimed by this pneumatic gun method of sending a torpedo to the enemy is its economy. The torpedoes which are stored by electric wires from a station on shore cost from \$7000 to \$15,000 each, and of course are destroyed by being used. Shot from this kind of gun, containing the same weight of explosive will cost but \$200.

It was an old clerical doctrine that women have no souls. More enlightened philosophy concludes that they have souls, but they are too often contained in feeble, suffering bodies, which hamper and retard their full development.

For all these painful ailments incident to the sex, Dr. Pierce's "Favorite Prescription" is the best specific in the world, and is sold under a positive guarantee that it will do all that is claimed for it. Price reduced to one dollar. By druggists.

Children and frost-bitten hands cured with a few applications of West's World's Wonder or Family Lintiment. All druggists.

A New Spectacle. March 21.—News has reached here of an accident which occurred near Whitehead Hill, Indian Territory, last week, resulting in the serious injury of a man named Foster and his wife, the killing of their children, and the destruction of their cabin on a ranch. In the corner of the room a can of powder was lying on the floor and some came up through the floor and around the can, when it exploded and killed several times as many people.

For all these painful ailments incident to the sex, Dr. Pierce's "Favorite Prescription" is the best specific in the world, and is sold under a positive guarantee that it will do all that is claimed for it. Price reduced to one dollar. By druggists.

The best spring medicine is one of West's Liver Pills every night on going to bed. Just what you need. Sugar coated, 25 pills 25c. All druggists.

IF YOU MISS BUYING THE GRIP

This week (now ready) and seeing the double-page cartoon MISSED!

You will make a mistake, as every one will be talking about it, and you will not tell you any more about it, but let you go and buy the cartoon on the great go-ahead, please calling Hyman's name in London, which will be the best special advantage over London friends.

JANES & MINKLER.

KING STREET. DOWLING AVE. SPRINGHURST AVE. JAMESON AVE.

We now have the Pleasure to place on the Market the Best Located Property in Parkdale.

It overlooks the beautiful Humber Bay and fronts on King Street, Jameson, Springhurst and Dowling Avenues. The Suburban Station is in next block.

The unnumbered lots are not included in our offering, but belong to private parties, and thereon are erected eight elegant brick residences.

Parkdale, south of Queen Street, is well built up with fine class of private residences and has handsome streets, many of them being block-paved.

It is a matter of surprise to those competent to judge that land there is so ridiculously cheap. All things considered, its market value ought to be from \$50 to \$70 per foot. The opinion prevails that we are on the eve of a decided change and that hereafter

PARKDALE PROPERTY WILL RAPIDLY ADVANCE IN VALUE.

In the sale of these lands, we shall pursue our usual custom, viz.: to sell at such low prices and on such easy terms as will enable our patrons to realize quick returns and handsome profits. Those wishing to purchase will please call on us at once as we expect to dispose of these lots in a few days.

PROPOSED BY LAW

To provide for the issue of "General Consolidated Loan 4 per cent. Debentures" to the amount of \$350,000, for a certain permanent improvement by way of erecting a City Hall on a design for combining the same with the erection of the Court House.

WHEREAS, by an Act passed by the Legislature of the Province of Ontario, in the forty-second year of Her Majesty's陛下, and chapter twenty-five, entitled "An Act respecting the Debenture Debt and certain property of the City of Toronto," it is amongst other things enacted that the Corporation of the City of Toronto may pass a By-law or By-laws for authorizing the issue of Debentures of the said City for a sum not exceeding in the whole the sum of \$3,000,000, to redeem certain outstanding debentures therein specified, with other payments for permanent improvements therein also specified, and that any balance or residue thereof not required for the purposes aforesaid may be applied or expended in improvements of like nature, the whole issue being nevertheless limited to the said sum of \$3,000,000.

And whereas, the limitation of the issue of debentures to the said sum of \$3,000,000 was based on the assessment of the City not exceeding at the time of passing the said Act the sum of \$2,000,000, and it was further enacted that an increase of the debt by a further issue of debentures might be made when said assessment should exceed the said sum of \$2,000,000, such increase being nevertheless limited to eight per centum of such excess:

And whereas, the amount of the whole rateable property in the City of Toronto, irrespective of any future increase of the same, and also irrespective of any income in the nature of tolls, interest or dividends from the work, or upon which the money to be so raised, or any part thereof, may be invested, and also irrespective of any income to be derived from the temporary investment of the sinking fund hereinafter mentioned, or any part thereof, according to the last revised Assessment Rolls of the City, being for the year one thousand eight hundred and eighty-seven, is \$2,982,052;

And whereas, the General Debenture Debt of the City, as controlled by the said Act, and exclusive of Local Improvement debts, secured by special Acts, rates, or assessments, amounted on the 1st of January, 1887, to \$7,400,833, and has not been changed since, leaving a full margin for the increase of the same in the year one thousand eight hundred and eighty-seven, of which debt no part of the principal or interest is in arrears:

And whereas, it is expedient and necessary to the City by way of creating a City Hall, the sum of \$350,000 for the purpose of effecting a certain permanent improvement in the said City by way of erecting a City Hall on a design for combining the same with the erection of the Court House, together with the interest thereon at the rate of four per cent. per annum, and it is expedient and necessary to the City by way of creating a City Hall, the sum of \$350,000 for the purpose of effecting a certain permanent improvement in the said City by way of erecting a City Hall on a design for combining the same with the erection of the Court House, together with the interest thereon at the rate of four per cent. per annum, and it is expedient and necessary to the City by way of creating a City Hall, the sum of \$350,000 for the purpose of effecting a certain permanent improvement in the said City by way of erecting a City Hall on a design for combining the same with the erection of the Court House, together with the interest thereon at the rate of four per cent. per annum, and it is expedient and necessary to the City by way of creating a City Hall, the sum of \$350,000 for the purpose of effecting a certain permanent improvement in the said City by way of erecting a City Hall on a design for combining the same with the erection of the Court House, together with the interest thereon at the rate of four per cent. per annum, and it is expedient and necessary to the City by way of creating a City Hall, the sum of \$350,000 for the purpose of effecting a certain permanent improvement in the said City by way of erecting a City Hall on a design for combining the same with the erection of the Court House, together with the interest thereon at the rate of four per cent. per annum, and it is expedient and necessary to the City by way of creating a City Hall, the sum of \$350,000 for the purpose of effecting a certain permanent improvement in the said City by way of erecting a City Hall on a design for combining the same with the erection of the Court House, together with the interest thereon at the rate of four per cent. per annum, and it is expedient and necessary to the City by way of creating a City Hall, the sum of \$350,000 for the purpose of effecting a certain permanent improvement in the said City by way of erecting a City Hall on a design for combining the same with the erection of the Court House, together with the interest thereon at the rate of four per cent. per annum, and it is expedient and necessary to the City by way of creating a City Hall, the sum of \$350,000 for the purpose of effecting a certain permanent improvement in the said City by way of erecting a City Hall on a design for combining the same with the erection of the Court House, together with the interest thereon at the rate of four per cent. per annum, and it is expedient and necessary to the City by way of creating a City Hall, the sum of \$350,000 for the
