THE WHEAT MARKETS LOWER

CHICAGO GAS ONLY WEAK SPOT IN STOCKS.

Prices of Grain a Year Ago — Late W Gooderham's Executors Sell Stocks— The Money Market—Grain and Flour— Stocks in Store in Montreal and Toron to—Visible Supply—Miscellaneous.

MONDAY EVENING, June 15.

Consols closed ⅛ lower than opening for account.

London and Canada Loan sold 1 lower than Friday.

Bank of Commerce sold at 127½, an advance of ½ over previous transactions.

Canadian Pacific stock closed in London at 81⅝, ⅜ above opening. It sold here and in Montreal at 79¾.

The monetary outlook is considered by Henry Clews clear until the fall. Then the crop movement begins and cantion will be necessary.

Transactions on local Stock Exchange aggregated 2634 shares, 1486 of which were in Canada Permanent and 906 in Western Canada Loan.

Stocks in store here have decreased 25,728 bushels during the week. The principal falling off was in barley, which shows a loss of 8952 bushels.

A year ago white wheat sold on the street market at $1, red at 98c, spring at 95c, goose at 77c, barley at 47c to 51c, oats at 42¾c to 43c, hay at $12 to $14 and straw at $6.50 to $7.50.

One year ago to-day fall wheat was quoted at 96c to 97c outside and 99c on track; oats were quoted at 41½c to 42c on track for mixed and 43c for white, with 37c and 38½c respectively outside; peas firm at 60c to 61c outside.

The Bank of England hold about £5,000,000 more in gold than at this time in 1890, and is in a much better position to meet all probable demands than was thought possible a few weeks ago.

Henry Clews of New York does not look for any radical or immediate change in the stock market, but the present position of affairs certainly justifies taking a more hopeful opinion regarding the future; and good stocks at present prices ought to yield a profit to buyers with reasonable expectations.

J. J. Dixon & Co.'s New York correspondents state that the L. & N. pool is still making desperate efforts to get out even, each adding a few more disheartening experiences to their lot. The whisky trust after the present month is likely to discontinue monthly dividends and make quarterly ones instead.

The feature of the local Stock Exchange was the sale of shares of Canada Permanent and Western Canada by the executors of the estate of the late William Gooderham. The shares sold aggregated 2332 and the proceeds will be distributed among the bequests.

The American wheat markets opened weak, but light receipts, liberal shipments and visible decrease imparted strength later in the day. Prices at close, however, were ½c to 1c lower than Saturday. July wheat opened in Chicago at 94¾c, dropped 1½c and closed at 94½c; in New York at 94¾, and closed at $1.03; in Milwaukee at 93¾c and closed at 94c; in St. Louis at 90¾c and closed at 91c; in Toledo at 95½c and closed at 96c; in Duluth at $1.04¾ and closed at $1.04; in Detroit opened and closed at 96c.

R. Cochran received the following to-day from Counselman & Day of Chicago: Wheat opened ⅝c lower on seasonable weather in producing districts at home and abroad. With New York the best buyers price rallied ¾c, with some covering of shorts. At the advance heavy local bears attacked market and weakened it 1⅛c to 93¾c and loosened some long wheat which has been held since last fall. Strong local parties were the buyers during this liquidation and market assumed a much healthier tone afterward. Light receipts, liberal shipments, visible decrease, and apprehensions of heavy rains in southwest were additional elements of strength and market finally closed with but ⅛c loss for the day. The short interest in July wheat appears to us to be rather overgrown again among small speculators and we think they are liable to be run in at someewhat higher prices. The heavy bears are short on new crop futures and will probably so remain until they can fill their sales with new wheat. Corn and oats were very weak, buyers of Friday and Saturday turning sellers again today and receivers selling new crop futures at whatever was bid. Provisions were in excellent speculative demand on further agitation of removal of the continental embargo against imports and growing belief among investors that hog product is worth the prices asked.

Drummond & Brown received the following to-day over their private wire from Schwartz, Dupee & McCormick of Chicago: The wheat market has been dull, with trading chiefly for local account, operators generally feeling uncertain as to the course of the market. Early cables showed a decided downward tendency, and those received later showed no reaction. News was more scanty. A private cable was received giving a very exaggerated account of French damage, but had no effect on the market. The estimate by the Kansas State Board of Agriculture gives 58,000,000 as the probable crop, which is 8,000,000 over the Government estimate. St. Louis received a car of new wheat and Indiana reports wheat being cut. The decrease in the visible 976,000 was about as expected, while the decrease of the local stocks 867,000 bushels was fully up to expectations. Receipts at 11 primary points 390,000, shipments 408,000. July ranged 94⅝c to 95¾c, closing 94¾c. A rain which came up just before close was partially responsible for the firm closing, and in view of the fact that harvest is progressing and that stormy weather would injure grain, we are inclined to advise conservatism in short selling for the present. The weather was considered exceedingly favorable, causing a weak market and lower prices in corn. Shippers declare that the eastern market has fallen off, while receivers say that the country loadings are somewhat increasing. The decrease in the visible, 651,000, stopped the decline and brought about the late reaction. The market ranged 54¾c to 55¾c for July, closing 54¾ bid. Oats was the wheat thing on the list, showing at one time 3c decline from Saturday. Provisions were surprisingly strong, pork advancing 40c, lard and ribs 15c over Saturday, the close being at the top. Local professionals were the buyers, assisted by grain men who had been free short sellers on the break. Foreign houses were free buyers of lard, induced by the prospect of a change in the French duty, which they claim will make heavy buying of spot lard. Estimates of hogs for to-morrow were 22,000, which is large for Tuesday.

Drummond & Brown received the following to-day over their private wire from Lamontagne, Clarke & Co., New York: Market opened at an advance of about ¼c over Saturday's closing prices and has shown a great deal of strength all day. There was little improvement in prices after opening, buyers seeming to meet stock. Chicago Gas was the only weak spot, however, selling off 2½ per cent. on the rumor from Chicago that a company to supply natural gas has been formed, headed by the old manipulators of the Chicago Gas Trust. The larger operators in the market are also inclined to leave things alone for the moment, waiting until the demand rate for exchange drops a bit. Money in London is very easy and there seems a possibility of a reduction in the Bank of England's rate on Thursday. The whole outlook is much better than last week, and in the absence of any bad news we feel inclined to advise purchases on weak spots. The crop outlook is too great a factor to be ignored, and its influence must tell in the end, although money may control prices for the time being. The market is manipulated just now and we think is being sold by the buyers of the early part of last week. Money is easy at 3 per cent.
