When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

Pills for Nervous Troubles—The stomach is the centre of the nervous system, and when the stomach suspends healthy action the result is manifest disturbances of the nerves. If allowed to persist, nervous debility, a dangerous ailment, may ensue. The first consideration is to restore the stomach to proper action, and there is no readier remedy for this than Parmelee's Vegetable Pills. Thousands can attest the virtue of these pills in curing nervous disorders.

The little basket shown is an imported darning basket, which is lined with flowered cretonne and provided with all the implements required for darning successfully. These include a darning egg and emory pincushion, reels of darning silk and cotton and wool and a pocket for needles. The basket might be duplicated in raffia or by any one who has skill in basket making, or it may be purchased ready-made and, after being lined with cretonne, fitted up with the required articles.

Restoring Colors in Carpets.

If a carpet is almost all wool the color may be brightened or wholly restored if washed with a pall of water containing three gills of ox gall. If necessary to use fresh ox gall procure it at the butcher's, cut it into small pieces, cover with warm water and allow it to soak for several hours. Dilute the liquid and wipe the carpet off with it. It makes a lather and should be rinsed off with clear water.

OSTRICH IS POPULAR.

Many Uses Have Been Found For It This Season.

BLUE OSTRICH BOA.

Ostrich is to be one of the fashionable trimmings for hats. Likewise it will be used in the fall for many other decorative purposes. One of these ways is suggested by the illustration which shows a dainty little boa of blue ostrich with blue ribbon shaped ornaments and streamers at the ends. This little boa is secured by concealed snap fasteners.

FLOUNCES FOR FALL.

Fashion Now Favors Them For Semidress Costumes.

Pretty Afternoon Gown.

The vogue of flounces is prettily illustrated in the gown pictured here which is a charming creation of voile with the skirt covered by three deep flounces, rose embroidered and bordered by bands of black velvet. It is a suitable gown for mademoiselle and may be duplicated in any one of a half dozen materials.

CONVENIENT DARNING OUTFITS

Three Tiered Bag and Well Fitted Basket For the Mender or Fancy Worker.

It is not too early to begin planning for Christmas. The two useful little articles illustrated here would make splendid gifts for the thrifty housewife who has mending to do or for the maid or matron who loves fancy work. The bag shown above is fashioned of squares of cretonne. Two of the squares are lined with plain material and stitched together at the edges. Three of these sections are then fastened together by cutting out the centers, fastening them there and attaching a ribbon covered embroidery hoop to the top opening. Little pockets may be attached to the compartments inside the bag for the accom-

of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. Will You Help The Hospital for Sick Children, the Great Provincial Charity?

Dear Mr. Editor:—

Thanks for the privilege of appealing through your columns on behalf of the Hospital for Sick Children. The Hospital takes care of sick and deformed children, not only in Toronto, but in the Province, outside of the city. This coming year, of all the years in the Hospital's history, has a more serious outlook, as regards funds for maintenance, than any year that has passed its calendar.

So many calls are being made on the purses of the generous people of Toronto and Ontario, to help the soldiers of the Empire, that as I make my daily rounds through the wards of the Hospital, and see the suffering children in our cots and beds, the thought strikes me as to whether the people will as of old, with all the demands made upon them, answer our appeal and help to maintain the institution that is fighting in the never-ending battle with disease and death, in its endeavor to save the stricken little ones in the child-life of Ontario.

Last year there were 394 in-patients from 210 places outside of Toronto, and in the past twenty years there have been 7,000 from places in the Province other than Toronto.

It costs us \$2.34 per patient per day for maintenance. The municipalities pay for patients \$1 per patient per day; the Government allows 20 cents per patient per day; so, deducting \$1.20 from \$2.34, it leaves the Hospital with \$1.14 to pay out of subscriptions and the Province.

The shortage last year ran to \$18,000.

Since 1880 about 1,000 cases of club feet, bow legs and knock knees have been treated, and of these 900 had perfect correction. Nearly all these cases are giving in this day.

THE LONG WAISTED BODICE.

All Fashion Leaders Seem to Have Accepted It.

The most startling fashion innovation is the quick and emphatic lengthening of the line from the neck to the hips. Very few designers hold to the short line now, and even those who would not relinquish it under the onslaught made by the Russian and Persian fashions are giving in to this new
