

# THE B. C. MINING EXCHANGE AND INVESTOR'S GUIDE

And Mining Tit-Bits.

Vol. III.—VANCOUVER, B. C., DEC. AND JAN., 1900-1—Nos. 12-1.

Since we last went to press, our Gracious Queen, VICTORIA, has after a short illness succumbed to the grim reaper, Death, thus finishing a career unprecedented in historical annals. Queen, Wife, and Mother, she ruled her people—as her family—well; shedding the light of her example amongst all nationalities. Her kindly rule and fostering care has developed “nations that be, and are to be.”

Sons of the Blood—an empire from Occident to Orient extending—who know no laws but those that Freedom has prescribed, and thy good Queen maintained.

Unbend the knee, and pray that Britain's heritage many ever be in such safe keeping as thy Queen's, who “has passed over.”

**God Save the King.**
