## A BOOK YOU NEED

### The Canadian Garden

By MRS. ANNIE L. JACK

Here is an intensely interesting and practical book for the amateur gardener. It answers fully and clearly the many questions which arise during the course of the season's work in connection with the growing of flowers, vegetables and fruits. This well known Canadian writer on horticultural subjects has put her best into this little book.

#### Some of the Contents

Below are the titles of a few of the chapters:

Making a Hotbed; Transplanting; The Kitchen Garden; The Fruit Garden; Red and Black Raspberries; Currants and Gooseberries; The Strawberry; Planning the Flower Garden; The Lawn; The Rose; Bulbs for All Seasons; Border Plants; Shrubs and Vines; Hedges; Pruning and Grafting; Fighting Insects and Diseases; Annuals; Window and Cellar Plants; Monthly Reminders.

This book is very attractively bound in green cloth, with gold lettering. It contains 120 pages.

Price, 75c postpaid, or

## Good Money in Growing Apples

Learn how to make more money out of your orchard by reading the best and most up-to-date book published on Canadian apple growing—**THE CANADIAN APPLE GROWERS' GUIDE**. It describes the different varieties (with illustrations) and tells what varieties are suited for the different sections; tells how to plant, prune and graft, how to pack and handle the crop, how to fight insect pests and diseases—in fact, it gives just such information as the practical fruit grower is looking for. Price \$2.25 postpaid.

### Send a Two Dollar Bill

Here is a bargain we are able to offer for a short time. For \$2.00 we will send you The Canadian Apple Growers' Guide, prepaid, also The Canadian Horticulturist for the balance of the year.

Tell your friend who has an orchard about this special offer.
