

wax room and we think with more satisfaction to our customers as well as to ourselves. As a matter of fact it is impossible to give each customer who sends us in wax the identical thing which he sends us, in the shape of foundation. Oftentimes we have probably 25 pounds of wax sent to us with the request that so much of it is to be made up into brood and so much into section foundation; perhaps one light cake will be set apart for the latter. If we were to make up each customer's wax separately, in most cases there would not be sufficient wax to cover more than the bottom of our dipping tank, if we were to try to make it up alone. The consequence is that the customer never gets the wax that he sends. We always endeavor to send foundation equally as good as the wax sent, and in the majority of instances it is a great deal better.
