HALIFAX, N. S.

CHARACTERISTIC.

It is characteristic of the House to have only the very best, and never deal in what is known in the trade as cheap instruments.

It is characteristic of the House never to ask fancy prices (as some dealers do, and come down if they have to). Fvery instrument is marked in plain figures at actual selling price, which is always the lowest, consistent with quality and a fair living profit.

By these, and other strict commercial methods, I have built up one of the largest, if not the largest, retail Piano and Organ trades in the Dominion.

I was awarded a special diploma at the late Provincial Exhibition for the best exhibit of Pianos, consisting of CHICKERING, KNABF, BELL, DOMINION, MASON & RISCH, and NEWCOMBE, which means the diploma of the exhibition in the Piano line.

W. H. JOHNSON.

CURRENT COMMENTS.

Subscribers remitting Money, either direct to the other, or through Agents, will find a receipt for the amount inclosed in their next paper. All remittances should be made payable to A. Milne Fraser.

OURSELVES .- We are issued on Friday of each week, regularly as clock-OURSELVES.—We are issued on Friday of each week, regularly as clockwork. We are well printed on first-class paper, and twice our subscription price of one dollar and fifty cents would be cheap for us. We cater to readers of intelligence and good common sense. We do not cultivate the sensational, highlyer style of journalism, but we furnish our subscribers with well written, well thought out, original matter. We have something in us auitable for each member of the family, and we have nothing in us that any sensible man, woman or child need feel ashamed of reading. Tust that any sensible man, woman or child need feel ashamed of reading. Just now we are booming ourselves; we want our subscribers not only to apreciate us, as they do, but to tell their friends and neighbors what THE CRITIC is like, and recommend them to send along one dollar and fifty cents, so that they may receive us each week for the year to come.

CREDITABLE.—Charlottetown has the reputation of being well and economically governed. The city has a net debt of \$320,000, and the taxes average five dollars per head of her population.

ENTERPRISING .- The ship carpenters of Port Hawkesbury, C. B., have formed a union for the purpose of building a schooner during the present winter, and are now making preparations to proceed with the work.

An old family physician first recommended Johnson's Anodyne Liniment for colds,

THE PEOPLE'S ALMANAO.—The publishers of the Montreal Gazette will please accept thanks for the almanac for 1893 i sued as a supplement to the Gazette. It contains much useful information to all who are interested in current political events of Canada, and is very neatly gotten up,

TELLING SHOTS -A young lad at St. Margaret's Bay recently brought down four wild ducks with one shot, while Mr. D. R. Munro, of Wolfville, last week killed nine wild ducks at one shot. St. Margaret's Bay and Wolfville have the reputation of being excellent summer resorts, but according to the latest duckology they should be given a wide berth in the winter sea-

A GOOD AGRICULTURAL PAPER.—The Farmers' Advocate, London, Ont. and Winnipeg, Manitobs, is out in new form and type, and presents a very handsome appearance. Hereafter the Advocate will be issued twice each month, instead of once as heretofore, a change which we are sure the farmers. mers will appreciate, especially as the subscription rate remains at \$1 per

THE SITE NOT IN SIGHT.—Lunenburg and Bridgewater are rival claiments for the new County Courthouse. The Municipal Councillors stend six for one and a half dozen for the other. The balance of power lies with the thirteenth councillor, but as matters now stand his mouth has been closed by the Court, and for a time at least no definite settlement can be

NOVA SCOTIA APPLES -The Scottish Horticultural Association, of Edinburgh, has forwarded to the Provincial Government a silver medal awarded for the fine collection of apples sent from Nova Scotia for the exhibition held by them in October last. Nova Scotians have no reason to feel aught but proud of any exhibits of the products of their native land that may be

Scrofula, whether hereditary or acquired, is thoroughly expelled from the blood by Hood's Sarsaparilla, the great blood purifier.

THE INSTITUTE SETTLES IT .- The members of the Debating Institute of the Normal School, Truro, have been delving into the archives of the Province, and by a vote of over two to one have decided that the explusion of the Acadians was unjustifiable. The Executive of the Institute should send a verbatim report of the debate to Abbe Casgrain, who some years ago denounced the expulsion as being barbaric.

Go EAST, YOUNG MAN!-A tailor hailing from the Western States recently reached Moneton, and proceeded thence to Amherst, being under a mandate from the Lord to walk in an easterly direction. Unlike most tramps he scorns alms and refuses charity, preferring to earn his bread by the sweat of his brow. A novelty in tramps should receive the appreciative consideration of the authorities in our Eastern towns.

RECOGNIZE ABILITY.—Among the citizens of Lunenburg is a young man named J. E. Refuse, who possesses a decided talent in the line of marine architecture. This juvenile designer has recently exhibited an almost perfect model of a steamship, the details of which are admirably carried out. His fellow citizens should see to it that such a talent should not suffer the fate of the proverbial "gem of purest ray screne."

CREDITABLE WORKMANSHIP .- Messie. McLean & Son, of Mahone Bay. have recently completed two lifeboats for the steamer Bridgewater, which have recently completed two medoats for the steamer Dringewater, which are said to be models of fine workmanship, and are probably two of the finest boats of the kind ever built in Nova Scotia. The air tanks were furnished by Wm. Cook, of Bridgewater. The Steamer will run between Annapolis and St. John after the 30th of this month.

CANADA AHEAD !- The wheat produced in Canada is at the present time attracting not a little attention in the markets of Britain. Compared with the product of the Western States, Manitoba's wheat is in favor. A report recently issued by a Glasgow firm states that while Duluth and other American wheats have been disappointing, Manitoba's wheat is in every respect highly satisfactory. The prices brought for Canadian Nos. 1 and 2

Hood's Sarsaparilla stands at the head in the medicine world, admired in prosperity and envied in merit by thousands of would-be competitors. It has a layer sale than any other medicine. Such success could not be won without positive merit.
