PANOPEPTON.

As a word in season, we wish to call attention to the Panopepton as an admirable "rest food" for an infant incapable of tolerating milk. Panopepton has wonderfully sustaining and nourishing properties, and has proved very beneficial in Cholera Infantum. Panopepton (Fairchild) contains the chief elements of nutrition in a perfectly peptonised assimilable form, and therefore supplies nutrition, gives complete rest to the digestive functions and renders the medical treatment more effective. Send for Clinical Reports on Panopepton.

FAIRCHILD, BROS. & FOSTER,
NEW YORK.
