

# MALTINE,

## A CONCENTRATED EXTRACT OF MALTED WHEAT, OATS, AND BARLEY.

In its preparation the temperature employed does not exceed 150 deg. Fahr., thereby retaining all the nutritive and digestive agents unimpaired. Extracts of Malt are made from Barley alone, by the German process, which directs that the mash be heated to 212 deg. Fahr., hereby coagulating the Albuminoids, and almost wholly destroying the starch digestive principle, Diastase.
