Commercial Summary.

A MEETING of the General Freight Agents of
Canada has been called to consider the best
means of adopting a uniform classification for
freight throughout the Dominion.

During last month there were 212 patents
issued in Canada. The number issued during
the half-year ended the 30th June, ult., was
949. The fees received during the half-year
amounted to \$36,539.68.

During the past fortnight marine affairs at
Toronto have considerably improved. Rates
are steadily advancing, all the vessels in port
are getting charters, and coal from the Ameri-
can side is coming in freely.

The Ontario Pacific Railway Co., it is said,
purpose asking the City of Ottawa for a bonus
of \$50,000, out of consideration of their deflect-
ing their line so as to run in close proximity to
the city.

It is reported that several deposits of coal
have recently been found in the Ottawa Valley.
The discoverers are reticent as to the locality
of the deposits, but show samples said to have
been taken from them.

The Ottawa City Council appear to be mov-
ing forward in the matter of manufacturing
industries; by-laws were read a second time at
their last meeting, granting bonuses of \$5,000
to the Ottawa Brush Company, \$10,000 to
Chevalier & Son, shoe manufacturers, and \$5,-
000 to McFarlane Bros., iron founders.

The dry goods stock of Mark T. Rogers, of
Napanee, has been sold by the Sheriff to Mr.
John Henry. The greater part of the estate is
said to have been previously consumed in
satisfying the judgments of three creditors,
principal among whom was Rogers' father-in-
law. The general creditors get little or
nothing.

The cotton supply of the United States this
year promises to greatly exceed that of last
year; the visible supply, according to the New
York Chronicle of Saturday last, at present is
2,322,934 bales, a decrease from the previous
week of 87,152 bales, and, as compared with the
like date last year, an increase of 379,000 bales.
