"Public School Temperance."

The attention of teachers is respectfully called to this new work, designed for use in the Public Schools. It is placed on the programme of studies under the new regulations and is authorized by the Minister. It will be used in three forms. The object of the book is to impart to our youth information concerning the properties and effects of alcohol, with a view to impressing them with the danger and the needlessness of its use.

The author of the work is the celebrated Dr. Richardson, of England; and, this book, though somewhat less bulky, being printed in smaller type contains the whole of the matter of the English edition, slightly rearranged, as to some of the chapters to suit the requirements of our Public School work. It is, however, but half the price of the English edition.

The subject is treated in a strictly scientific manner, the celebrated author, than whom there is no better authority on this subject, using the researches of a lifetime in setting forth the facts of which the book discourses. At the same time the style is exceedingly simple; the lessons are short and accompanied by appropriate questions, and the language is adapted to the comprehension of all who may be required to use the book. Price 5 cents, at all bookstores.
