Marketing Profile

Fishmore Inc. is the exclusive manufacturer of SIMOR fish processing equipment, including automatic fish scalers, glazing tables, heading/eviscerating machines for shoal fish (including smelt, herring, anchovy, sardine, capelin and muikku, a Finnish species), conveyor systems, orientator/feeders, smoke racks, and cutting tables.

SIMOR fish processing equipment has been manufactured for 30 years, and has been exported to 20 different countries worldwide. The equipment is well-known for quality workmanship, durability, affordability and quick payback. Fishmore has an excellent reputation for standing behind its product after the initial installation.
