

*Canadian Saltfish Corporation*

I want to stress that this bill sets up a corporation whose main objective is to improve the lot of the inshore fishermen, particularly those living in remote communities and those on low incomes in the Atlantic region. These people have long needed a corporation of this kind to help rationalize their

income. This is a great industry and one which historically was the first in Canada.

Motion agreed to and bill read the third time and passed.

At six o'clock the House adjourned, without question put, pursuant to Standing Order.
