

THE AMERICAN JOURNAL OF THE MEDICAL SCIENCES

Is the oldest and best-known medical periodical of America, having been founded in 1820. It numbers among its contributors the most eminent names in the profession, and, according to unquestionable authority, "It contains many original papers of the highest value; nearly all the real criticisms and reviews which we possess; and such carefully prepared summaries of the progress of medical science and notices of foreign works, that from this file alone, were all other publications of the press for the last fifty years destroyed, it would be possible to reproduce the great majority of the real contributions of the world to medical science during that period."
Published monthly. \$4.00 per annum.

THE MEDICAL NEWS

Is the leading medical newspaper of this country. Started in 1843 as a Monthly, it was changed to a Weekly in 1882. It has been shaped to furnish the profession at rapid intervals with the latest information on all medical subjects. During the year 1888 THE AMERICAN JOURNAL and THE MEDICAL NEWS published 2160 articles on Progress alone, and, in addition, one and three-quarter million words of original matter, the equivalent of 9 octavo volumes. THE NEWS is sent post-paid for \$5.00 per annum; THE AMERICAN JOURNAL for \$4.00, or both at \$7.50.

THE YEAR-BOOK OF TREATMENT FOR 1888

Now in press for its fifth annual issue, gives a classified statement of the value and uses of all remedies which have been introduced and practically tested during the year. Price, \$1.25; or in combination with either or both the above journals, 75c.

THE MEDICAL NEWS VISITING LIST.
