

NEWS OF SPECIAL INTEREST TO WOMEN

WOMEN INSPECTORS TORONTO VISITORS

Miss Agnes L. Petersen of Minnesota and Miss L. E. Bresette of Kansas.

WERE AT CONVENTION

Favorably Impressed With Queen City and Talked About Work.

Two bright women were at the King Edward yesterday, spending a day or two in Toronto on their return journey from the convention of government officers of labor of the United States and Canada, just held in Detroit.

Their visit to Toronto was of interest in view of the fact that for some years the local council of women has been endeavoring to awaken increased interest in the inspection of factories in which women and children are employed.

In a chat with a reporter of The World, Miss Petersen advocated, as she had done at the convention, one woman inspector for every 25,000 workers.

A woman inspector can get the personal confidence of the women workers in a way that would be impossible where men are the officials.

"A woman inspector offers avenues for co-operation," said Miss Petersen. "Men can take better care of themselves than women. Men have a pedestal of tradition to support them, whereas many women need assistance. Women inspectors are to help those who cannot help themselves."

Miss Bresette, who is the only official of her rank in Kansas, told of efforts to bring about a minimum wage, to be based on local economic conditions. She visited the factories in thirty towns of her state during the past year and was optimistic as to results.

Both women were charmed with Toronto generally and in particular with the new Technical School and its principal, Dr. McKay, who had given them a most courteous reception.

RUN DOWN MOTHER AND SICK BABY

Baby Was Rapidly Wasting Away, Mother Nervous and Dyspeptic.

What wonder that Dr. Cassell's Tablets are the most popular remedy in the old country when they can work such cures—even to the saving of life—as those here recorded? Mrs. Fins, of 19 Bernard-road, Brighton, England, in an interview said: "I'm quite sure that Dr. Cassell's Tablets saved my baby's life. He was so wasted with diarrhoea and sickness that I was almost afraid to dress and undress him. He only weighed 12 lbs. at six months, and now a year old, he is a fine, big baby. I also have benefited by Dr. Cassell's Tablets. I was terribly run down with the strain of nursing baby, for I never had a proper night's rest. I suffered much with dyspepsia and frightful headaches and was so nervous that a sound would make me jump. I had dreadful attacks of neuritis, too. But Dr. Cassell's Tablets cured me as thoroughly as they cured my baby, and now we are both in splendid health."

SURPRISED TO HEAR MESSAGES BURNED

Hon. Robert Rogers Never Asked Anyone to Destroy Them.

NO INQUIRIES MADE Had Nothing to Do With Campaign Funds of Conservative Party.

WINNIPEG, July 6.—Hon. Robert Rogers was a witness before the royal commission on the parliament buildings this afternoon, when asked about the telegrams procured for him by Ed. Anderson, K.C., from the Great Northwest Telegraph Co., said: "I did not want the telegrams to come down here, which had nothing to do with the commission."

He said that he was surprised to hear of the telegrams being burned. "I never asked Lash or anyone else to have them destroyed. The first I knew of the matter was what I saw in the newspapers," he said.

He had not made any inquiry as to the burning of these messages. He was not interested.

Gave Nothing to Funds. Mr. Rogers' examination did not take more than five minutes. He said he had nothing to do with the provincial Conservative party's campaign funds at the election last July and he did not make any contribution to that fund. He had no knowledge of who was looking after campaign funds.

Asked as to what part he had played in having Mr. Phippen come to Winnipeg, Mr. Rogers said he had met Mr. Rodmond in Toronto last April. Mr. Rodmond had told him that he had discovered there had been over-payments on the parliament buildings and he was anxious to have restitution made. He wished to secure Mr. Phippen's services, as he thought that Phippen might have some influence on the contractor. Mr. Rogers said that he had no knowledge of anything which would throw any light on the matters under investigation.

A newspaper quotes Premier Norris as denying "most emphatically and categorically" the statements made by ex-Artillery-General Howden, linking the former's name with the \$50,000 election protest deal.

MIGHT HAVE AVOIDED ACCIDENT BY CAUTION

Jury Investigates Death of Mrs. Annie Keho and Rider Mentions Motorman.

An inquest was held last night at the morgue into the death of Mrs. Annie Keho, 54 years old, of 193 River street, who, on July 1 was hit by a radial car on the Lake Shore road, sustaining injuries from which death resulted later in St. Michael's Hospital.

From the evidence submitted, it appears that the woman was waving to a car in the distance and did not see the car which struck her. The jury brought in a verdict of "accidental death," with a rider attached that "the accident might have been avoided had the motorman slowed up when he saw that the woman was unaware of the approach of the car that struck her."

SUMMER LESSENS THE DEMAND FOR WORKERS

Report of Women's Patriotic League Finds Conditions Tightening.

A good deal of light is thrown upon conditions of unemployment among women by the June report from the Women's Patriotic League. Mrs. Warren reports upon this department that the registration for the month of June shows an increase of 93 over the month previous. The report says: "There were 72 applications less for domestic help and 82 applications less for day work in June than in May; and when to these facts we add the increased demand for work, it shows a serious situation and one which will probably remain until the autumn brings a return of some of the employers."

Many more factory workers and some saleswomen were thrown out of work in June. If the women thus deprived of work were also trained house workers the problem would be solved, as, although the demand for domestic workers is very much lower, the number is still quite out of all proportion to the number applying for such work.

"Several good practical nurses and housekeepers have found it wiser to take what they consider more menial work with smaller wages than risk being unemployed."

"Some of our best charwomen have been placed in positions out of town for the summer months, one with the Children's Aid Society in the summer camp at Orillia, another with one of

MOVING FROM OLD WESLEY BUILDING

All Departments of Methodist Church Locating in Fine New Premises.

All the departments of the Methodist church are in process of being transferred to the new Methodist Book Room, Queen and John streets. "Packing-up" has already commenced at the month of the Wesley Building. The new offices are all to open in the Queen street building on Monday, July 19.

Some special ceremonies in connection with the opening of the new offices will probably be held, but the form they will take has not yet been decided. It is quite likely, too, that the structure will be thrown open to the public for two or three days, so that it can see the printing and other departments in operation.

HAS ACCEPTED CALL. Rev. Ed. O. Colbeck, lately of Fairbank, has accepted a call to the First Baptist Church of Monroe, Mich. He will take up his new duties this month.

Another has found the neighborhood Workers' Association. Each woman thus placed is important, as it leaves more work for the long list of applicants remaining.

"The out-of-town work has been progressing favorably, 27 women having been placed in country homes during the month."
