

JOSHUA OLDHAM & SONS

ESTABLISHED 1870

NEW YORK SAW WORKS

**The Oldham
Sawmills**

Opened the era of
practical and successful work for
LARGE BANDSAWS AND BAND RE-SAWS
and became justly celebrated as the acme of quality;
standing up to their work without deviation

DAY BY DAY

with such perfection as to keep the foremost place
YEAR BY YEAR.

Vigilantly observing the working of all other saws,
we have found that saws of inferior quality
produce a poor cut, to the lumber manufacturer
"THE MOST UNKINDEST CUT OF ALL."
Those whose settled practice is the use of the
"OLDHAM" SAWS, find the best results and most

**SUCCESSFUL
LUMBER PRODUCTION**
