

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the hair and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and all to no use. Hair Dyes have been introduced that do not give the hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years trial has perfected this Balm. It is soothing and emollient, allays all irritation of the scalp. It cures Dandruff and Scurf, and when the hair has turned gray it will bring it back to its original color, be it black, brown, or auburn. It makes the Hair soft and glossy,—prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have their Hair dyed. If you examine gray hair that has been colored for a week, you will find towards the roots, that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow gray tube, through which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow and it becomes gray. To invent a balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair.
