Heavy Wheat Receipts in West Bring Further Decline in Market

Chicago Exchange Flooded With Liquidation and Prices Prove Readily Vulnerable—Corn and Oats Higher.

CHICAGO, Dec. 11.—Big receipts northwest, both sides of the International line, exerted pressure to-day on the market for wheat. Largely as a result the close was 3-8c to 3-4c lower Saturday night. Corn showed a decline of 1-8c to 1-4c, and oats a decline of 1-8c to 1-4c. At the end of the day hog products were down 3c to 10c to 12-14c.

From the outset, bears in the wheat pit had the advantage, being aided by the fact that less serious losses than expected were shown in to-day's crop advices from the Argentine. A more immediate and potent influence, however, developed in reports that Minneapolis and Duluth had arrivals totaling 300 cars, against 751 a year ago. Moreover, Winnipeg sent word of 141 cars there, as compared with 45 the corresponding day last year.

Corn held firm.

There was good commission buying, which kept corn strong when other grains were weak. A little export business had an inspiring effect. Then, too, the country movement was lighter than last week. Wheat ranged from 3-8c to 1-3c, closing firm, 3-8c net higher at 63 7-8c. Cash grades were steady.

Shorts did most of the buying in the oats crowd. This demand was of sufficient volume to absorb the surplus offerings on the market.

Argentine Conditions.
Crop Expert B. W. Snow wires the following summary of Argentine conditions: Weather bad, and two inches of rain everywhere. Yield per acre much reduced in Santa Fe and Cordoba by frost and mud. Harvest progressing slowly. Wheat crop prospects in western part of Buenos Ayres going back rapidly, also in northern part of Pampa Central. Yield will be below average. Central Southern Buenos Ayres and Pampa Central about five million acres, prospects excellent and promising average yield. Estimate total crop at 120,000,000 bushels. Oats harvest begun in Buenos Ayres under unfavorable weather conditions. Estimate yield about average, however.
