A Complete Clothing Store!

There's nothing half-hearted about this business. we interested ourselves in Bicycles we started out to get the best wheel there was for the

money, and we got it. In regard to Clothing we meant to keep out of the rut into which the trade had got, and here we are, with a trade second to none in Canada and a business more successful than G any other within your reach. We're not sensational in our methods, nor backward in our styles, nor inferior in point of quality, nor greedy after profit. Our judgment on Clothing is that the best need not be an extravagance. We can't startle you with miracles, but somehow there's the steadiest kind of a trade here, month in and there's a reason for it all.

THIS AMOUNT WILL BE ADDED

Water Rates - The Rate Will Now be Payable in July and Feb

The preparation of the estimates for the civic year is being pushed forward as rapidly as possible. In compiling the estimates of the revenue to be received from the Waterworks Department for the year 1886 it has been discovered by the Treasury Department that this year's receipts will be \$70,000 short as compared with last year. This shortage is caused by the change made in the time for payment of water rates. Formerly the half yearly terms for which tariff rates were collected in advance expired on the 31st of March and 30th of September each year. The revised by-laws make the half yearly terms expire on the 30th of June and 31st of December respectively. The tariff bills now being prepared under the amended by-law for delivery to the water consumers are for the three months ending 30th of June The bills the amended by-law for delivery to the water consumers are for the three months ending 30th of June. The bills to be issued in July payable in August will be for the six months ending 31st of December. Consequently the revenue received from the tariff rates will only be for nine months this year amount-

received from the tariff rates will only be for nine months this year, amounting to about \$210,000 instead of for 12 months amounting to \$280,000 as in former years. As the estimates for the year must provide for the whole expenditure of the year, this shortage of \$70,000 will apparently have to be met out of the taxes for 1896.

There will be no real loss of revenue from the waterworks, the shortage this year being caused by the failure to collect during this year three months' rates that would not be actually earned until next year, as has been the practice formerly. Now that the result of the change is beginning to be understood, considerable opposition is being developed.

The Drill Saed and told Storage.

The sub-committee of the Property Committee appointed to deal with the proposition of the Dominion Cold Storage Co. to establish a warehouse here in the site of the old drill shed met resterday. The company wish to lease he drill shed and the vacant lot adoining at a rental of \$1000 a year and xemption from taxes. They propose o erect a refrigerating warehouse at cost of \$150,000.

In answer to Ald. Saunders' query Ir. McGregor, the general manager of

In answer to Ald. Saunders' query Mr. McGregor, the general manager of the company, informed the committee that the company had been in existence for four months. There is \$50,000 worth of capital subscribed, with \$5000 paid-up for preliminary expenses. The capital stock is \$3,000,000. The company has not yet commenced operations, and it is proposed to make Toronto the headquarters of the concern. Ald. Burns thought the company should show that it was in a position to carry out any agreement that might be made with the city.

The committee were of the opinion that the establishment of a cold storage warehouse on a large scale would be of advantage to the city. The susgestion that the company pay taxes on the assessed value of the land, amounting to \$50,000, and the machinery be exempted was agreed to. This will amount to \$1300, the city to have the use of the railroad tracks through the company's premises.

After some further discussion the committee adjourned until Tuesday, in order to give the members an opportunity to consult with the City Engineer and Commissioner.

More Factories Wanted.

more Factories Wanted.

Deputations representing the Board f Trade, consisting of L. M. Jones, A. Kemp and W. K. McNaught; Rate-

of Trade, consisting of L. M. Jones.

E. Kemp and W. K. McNaught; Ratepayers' Association, R. Reynolds, P.
Connor, J. Rogers and H. G. Strathy;
Trades Council, I. H. Sanderson, held
a consultation with Ald. Saunders'
Manufactures Committee to consider
the best means of inducing manufacturers to locate in the city.

Mr. Jones was not altogether in favor
of bonusing, at the same time he
would be willing to go to any reazonable length to encourage manufacturers coming to Toronto. Mr. Kemp
thought Toronto's natural advantages
should be inducement enough to bring
them here. Mr. Reynolds said the
greater part of the present depression
was due to trades unionism, as manufacturers had left here on account of
the coercion, dictation and tyranny
that they had been subjected to by the

Mr. Connor said new manufacturers would never come to the city until taxes were lower, and there was no corruption in the council.

The meeting adjourned to meet again, without doing anything.

Ald, Leslie's Telephone Committee yesterday held a short session. Those present were Ald. Leslie, Boustead, Hubbard and Lamb.
Ald. Hubbard suggested that tenders be advertised for the privilege of establishing a telephone system.
Ald. Lamb moved that the present company be asked to make an offer for five years, for the exclusive right for five years, for the exclusive right to operate in the city. This was agreed to and the company given ten days in which to reply. If the offer is not satisfactory, the franchise will then be advertised for sale.

City Hall Aofes. The bill now before the Legislature, which deals with the ownership of trees on the boulevards is likely to cause the city some trouble. The bill provides that the trees will become the property of the owners of the premises in front of which they stand, and if the city wishes to remove them for any cause they will have to be paid for.

Aldermen have commenced to lobby for a position on the Board of Confor a position of trol.

Dr. Sheard has prepared a report of his inspection of city and country dairies. The result shows that milch cows in the vicinity of the city are in a good condition, and there is little

good condition, and there is little ause for complaint.

The Board of Administration opened tenders for firemen's summer clothing.
McCarthy & Co. were again successful.
The price per suit, which includes
coat, vest, trousers and jacket, is
\$19.15, a total of \$2968.25. An offer was \$19.15, a total of \$2968.25. An offer was received from the locked-out tailors, but it was 50 cents too high.

The Provincial Secretary has notified the city that an order in council has been passed approving of the \$15,000 Island waterworks bylaw. The bylaw will be given its third reading by the City Council on Monday.

Would Mr. Laurier Do it? Winnipeg Nor'Wester.
The Liberals say Mr. Laurier is not a coercionist. There is a simple test. In case Mr. Greenway is obdurate to Mr. Laurier's policy of blarney and blandishments, and refuses to reestablish Separate schools, would Mr. Laurier pass a Remedial law?

How to Appease Your Wife. Bobcaygeon Independent.

"Symposium," that is the Ottawa
Parliamentary term. When your wife
mildly emphasizes the incongruity of
putting your coat into bed and hanging yourself over the back of the
chair, you can tell her that you have
been engaged in a little (hic) s'mposum with the (hic) boys.
