Millinery Matters. Fancy Feathers.

When speaking of Millinery our name is always associated with the finest, newest and best. We are Millinery, leaders, and easily discount the trade at every point of comparison. In fact, what we are showing so far exceeds what is seen outside this store that all else is mere contrast. Even .5 dealers recognize this fact, and not a few prefer buying here because finding it profitable to do so.

For instance, take Fancy Feathers. The magnitude of our display has no equal nor even a close second in Canada. Worthy styles and novelties from Paris, Berlin and New York find showing here. THE TORONTO WORLD the C.P.R. at least is getting ready ONE CENT MORNING PAPER. No. 83 YONGE-STREET. Toronto.

OUR NEIGHBORS WANT CHEAP OCEAN POSTAGE, TOO.

The proposal to establish a two-cent and Great Britain cannot well be carried into effect without the consent of the latter country, if not of the whole scheme, when it came before Parlia-Postal Union. According to the arrange- ment next session. This railway is as ments of the Postal Union each country is authorized to issue a stamp of the cific scheme. If Sir William Van Horne value of five cents to carry a letter is successful in defeating this charter from that country to any other within it will be a defeat for the Grand Trunk the Union. If one of the countries concerned reduces the rate to two cents, it is evident that the amount of mail matter will be largely increased and a corresponding burden placed upon the country to which the letters are sent. A two-cent rate would probably double the number of letters sent from the United States to Great Britain. This would entail a large increase in the expense for the delivery of these letcarried out unless Great Britain is a a competitive road against the C.P.R. evident that our neighbors are not going

the United States or any other country. THE PROPOSED DON BRIDGE. across the Don at King-street has been before the public for many years now, but the bridge seems no nearer completion than ever. A new bridge is badly needed at this point. This was especially demonstrated during the past season when the traffic to and from the eastern suburbs was more than usually neavy. A great amount of farm proluce comes into the city over the bridge as well as large quantities of building material in the shape of sand, bricks and gravel. Between the vehicles drawn by horses, bicycles, street cars and the railway trains the traffic is at times very much congested.

The bridge will be even more necessary next year than ever. A high level structure, however, is out of the ques ion, and the sooner the east end aldernen are disabused of that idea the nore likely is the district to get a lowevel bridge. If the hollow on the west side of the bridge is raised two or three level with the rallway tracks, and a bridge 66 feet in width constructed, the It is to be hoped that some scheme for raising the necessary money will be forthcoming and that the bridge will be Van Horne's position and abandon its Gi

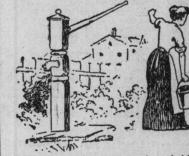

of its big rival there will, of course, be no battle, but if, on the other hand, Mr. Hays and the Grand Trunk management decide to oppose the pretensions of Sir William Van Horne there will surely develop one of the greatest contests that have ever taken place in the railway world. It is quite evident that

A Chatham Lady's Case. CARRYING A PAIL OF WATER OR OTHER HOUSEHOLD WORK MADE HER HEART BEAT

VIOLENTLY. She's been Restored to Perfect Health by Milburn's Heart and

Nerve Pills.

There are many women in this land who find household duties a drag and a burden. The least exertion tires them,

gives them a pain in the back and side, makes their heart palpitate and their head ache. To such we would commend for consideration the following statement made by Mrs. James Ranken, Baldoon Street, Chatham, Ont.:
"I saw by the advertisement of Mil-burn's Heart and Nerve Pills, that they

were a specific for weakness of the heart and nerves, general debility, dizziness, fluttering, palpitation, etc. I was so weak that I could not go to the Central Drug Store to get them myself, so I sent my son for a box.
"When I commenced taking these
pills I was dreadfully nervous, suffered a

great deal with weak heart action, sometimes my heart almost stopped beating. Carrying a pail of water or other similar exertion, while performing my household duties would make my heart beat violently. I did not obtain restful sleep, and vas easily startled and frightened.
"Milburn's Heart and Nerve Pills

have toned up my nerves, caused my heart to resume its healthy action, and invigorated my entire system."

in different transactions that have re cently come to the surface. Trunk by getting possession of the Manitoba and Northwestern Railway, which extends from Portage la Prairie fertile country. This road is some miles in length, and if the Grand Trunk were ever able to reach Winnipeg, and ters in Great Britain. The proposal, by means of the proposed Rainy River consequently, is a violation of the Inter- Railway, it would have been able to national Postal Union, and it cannot be use the Manitoba and Northwestern as consenting party to the deal. The The announcement the other day that United States no doubt intends opening Mr. E. B. Osler, M.P., had been apnegotiations with the latter country in pointed a director of this railway is order to secure its approval. It is quite presumptive evidence that it has passed under the control of the C.P.R. These to allow Canada to get a preference are the strategic moves that the C-P.R. from Great Britain in any respect. The has made to keep the Grand Trunk out preference is all the other way. They of British Columbia and Manitobahave a higher tariff against British Its attitude towards the Grand Trunk

goods than we have, while they enjoy in Ontario is still more defiant. The intent of the cut in passenger rates the same privileges as Canada does in that the C.P.R. inaugurated some eight months ago is now patent. A parapreference in the British market over graph, which appeared in the papers yesterday to the effect that the C.P.R. was contemplating the purchase of the Northern Railway, shows which way the wind is blowing. We have now little doubt that Sir William Van Horne instituted his war against the Grand Trunk in Ontario for the express purpose of ompelling the latter to surrence Northern line to the C.P.R. Sir William LADIES, SEE OUR Van Horne claims that the Grand Trunk has no right to the traffic of the Northwest, and his policy is shaped to prevent it from sharing in that traffic a any respect. His fighting the Grand Trunk in Ontario is consistent with the policy he has adopted in shutting that road out of British Columbia and Manitoba. We feel confident that the survey of a new line from Toronto to Sudbury is merely a bluff to compel the Grand Trunk to accept the situation as outlined by Sir William Van Horne. As n matter of fact the Grand Trunk has no use for its northern extension, unless it can obtain some share in the Northwestern business. If the Grand Trunk does not propose to get into Winnipeg or to compete with the C.P.R. in British feet, so as to make the street on a Columbia, then, we say, there is no reaecessities of the case will be fully met. | C.P.R. Destroying the Bicycle Path.
Editor World: It is to be hoped the mounted officers enjoyed their 10-minute canter on Saturday along the bicycle path that follows the Lake Shore-road. Possibly (?) they did not know that they were unlawfully riding at others' expense, to the tune of \$10 a minute; but, in the face of large warning placards placed along the route, one would have looked for more considerate conduct from the quarter in dicated that that characteristic of a lot of snobs. This path has been built at considerable private expense, and it is too bad that it should be cut up by those who should be the first to set a good example.
