NINE INJURED BY "AUTO."
Benzine Blazes Up and Sets Fire to Clothes of Driver and Spectators.

Vienna, July 25.—Count Trauttmansdorf's automobile came to a sudden stop Monday morning at Libenitz, near an inn around which a number of children were playing. Heinrich Glaser, the count's secretary, who was driving, found that the breakdown was due to the reservoir being empty, and proceeded to refill it. He had, however, only poured in a few drops of benzine when a terrible explosion occurred, the benzine having caught fire.

In a moment Glaser's clothing was in flames, and he dropped the burning benzine can. The flaming fluid splurted over several of the children, who were standing near. Shrieking with pain, the children were with great difficulty stripped of their burning garments by several persons, who were themselves badly burned in this humane task.

Glaser's wounds are most serious, and he is not expected to survive. The children seriously injured number eight.

ARRESTED FOR MURDER.
Boy Charged With Killing His Father, Who Ate His Family.

Erie, Pa., July 25.—Floyd Peckham, 19 years old, was arrested this morning at Cranewille, near Albion, in this county, for the murder of his father, Dalton Peckham, on Jan. 18 last.

The elder Peckham had come home drunk and driven his family out. His dead body was found next day with four bullet holes in it. Floyd easily proved that after going to a neighbor's house he had not gone back home.

It is now said that County-Detective Sullivan has discovered evidence that the murder was committed before Floyd left, following his mother and the other children. A reward of \$1500 was offered for the arrest and conviction of the murderer. Floyd Peckham was sent to jail for a hearing next Tuesday.

SCHLEY COURT OF INQUIRY.
Washington, July 25.—Secretary Long announced this morning that he had selected Admiral Dewey and Rear Admiral Kimbrey and Benham as members of the Schley court of inquiry. The court will meet in Washington Sept. 12.

Wants It Called Allan Park.

ONE DAY AT THE CITY HALL

Contractors May Be Charged for Planing Lumber if It is Found With Uneven Surface.

ELEVATOR REPAIRS NECESSARY
City Commissioner Coatsworth Reports That He Was Compelled to Renew Certain Parts.

A sub-committee of the Board of Works, composed of Ald. Hubbard, Foster, Sheard and Hodgson, appointed to report on the question of planing lumber for sidewalks, have recommended that for the balance of the year contractors be charged 40c per thousand feet for planing lumber that requires it, and, if they refuse to pay that amount, that they be given instructions to vacate the western lumber yard. The committee further recommended that tenders be called for next year for planing lumber, and also for the contractor to supply it with an even surface.

Repairs Were Needed.
Some time ago three appeared in the accounts two items of \$49.15 and \$106.40 for repairs to the City Hall elevators. Both of them were referred back for particulars, and the impression prevailed that there must be something radically wrong with the hoists when they required repairing after being in use such a short time.

Yesterday the City Commissioner reported that the repairs were absolutely necessary. The amount asked for was for safety cradles, chains, lubricants, safety cable, supplies and new tiller rope.

Don't Appreciate Convenience.
Contrary to expectations, the Street Commissioner has so far received but few applications from householders, who have the proper receptacles, to remove their garbage from the house and return the receptacles. They indifferent or else unaware of this new and convenient innovation in the scavenger department.

Toronto's Water Supply.
At present there is about 10,000,000 gallons of water less in the reservoir, as a result of the extra amount consumed during the hot spell. The reserve supply is usually about 20,000,000, but just now it is only 18,000,000. On an average, Torontonians consume 100 gallons a day each all the year round.

Ald. Bell was acting Mayor yesterday. To-day it will be Ald. Burns' turn, and on Saturday Ald. Cox's. They are being chosen in alphabetical order.

The "Poet's" Suggestion.
"Poet" Sabine has suggested to the Mayor that big bottles and fireworks conclude the Duke of Cornwall's visit. He says: "If I had the cash, sure I would purchase some broken down shacks and hovels and pile them with the rest of the dirt and rubbish which you notice I refer to in my late poem on the situation. More anon."

ENGLISH AGAINST FRENCH.
Ottawa, July 25.—The race question was raised in the Ottawa Typographical Union recently, and, as a result, at an election yesterday of delegates to the Dominion Trades and Labor Congress three English-speaking members were elected over two French-speaking members. The successful candidates were Messrs. C. G. Pepper, P. M. Draper and H. H. Cairns respectively. Messrs. C. S. O. Boudreau and J. B. Dion, who were defeated last night, were elected at the first contest, but the election was voided as the result of a protest.

The race cry was first introduced after Mr. Draper criticized "Vice-General" Lightfoot for some alleged utterances against strikers. The local French newspapers called Draper a Protestant, and said he was anti-French. The French and English divided and each ran a ticket, with the result that the English won.

Germany Discriminates Against Canada In Favor of the United States.
Retaliatory Measures Asked

Unfair Tax of Ten Cents a Bushel Levied by Germany on Canadian Wheat.

H. N. Baid presented at a meeting yesterday afternoon of the Council of the Board of Trade a resolution passed by the grain men, urging that the government take retaliatory measures against Germany for the discrimination against Canadian grain in favor of the United States.

The question was fully gone into, the discussion continuing for over an hour. The grain men consider it very unfair that an extra tax of ten cents per bushel should be levied on Canadian wheat in the German government, when the Canadian tariff on German manufacturers is much lower than the tax imposed by the United States.

The following resolution was unanimously carried:

That the Council of the Board of Trade of the city of Toronto, in exploring the continued discrimination of Germany against this country, and beg respectfully to remind Sir Wilfrid Laurier, the Minister of the Interior, of the Canadian tariff on German manufacturers is much lower than the tax imposed by the United States.

The following resolution was unanimously carried:

That the Council of the Board of Trade of the city of Toronto, in exploring the continued discrimination of Germany against this country, and beg respectfully to remind Sir Wilfrid Laurier, the Minister of the Interior, of the Canadian tariff on German manufacturers is much lower than the tax imposed by the United States.

THE SOLE OF COMFORT

YOUR foot sole is curved and soft.
Your shoe sole is flat and hard.
Walking with such a foot sole on such a shoe sole, is like sleeping on a plank, instead of on a mattress.

Cut open an old shoe at its most comfortable stage, and you will find its insole shaped by wear, to ball and heel, great toe, and outer edge.

You will also find it burnt up and eaten, through accumulated sweat, which must have gnawed the foot, when it so ate the leather.

The Resilia Sole, is placed between insole and outsole, instead of the usual scrap leather filling.

It is an elastic spring centresole, which collapses and shapes up round foot-curves like an old shoe, the first moment it is borne upon.

The foot sinking into the sole, at the very time the ball of the foot spreads, makes the shoe a size larger inside, when the foot needs most room.

The foot lifting, permits the insole and outsole to expand apart, and in so doing they pump in fresh air through a hidden valve in the heel.

This fresh air circulating through insole perforations, around the stocking, keeps the foot dry, clean, hardy and healthy.

The Resilia Ventilating Sole can be had only in the \$5.00 grade of that Good-year Waxed leader.
