But it is known here that about two weeks ago the Grang Buke Alexandrovitch of Russia, who is on a pleasure trip, reached Constantipole. He became the guest of the Sultan, and it is understood that in an Oriental desire to be hospitable the ruler of Turkey, who is getting old, has been indulging with his younger and harder-headed guest in what among common folks would be called a protracted spree. This, following a long life of excesses, has proved too much for the Sultan.

Abdul Hamid II. was made Sultan in 1876. He is considered one of the world, for the reason that he is chief bookkeeper in a business which lacks organization.
