Perfectly Cured

Weak and Low Spirited - Nervous Prostration - Appetite Poor and Could Not Rest.

"I take great pleasure in recommending Hood's Sarsaparilla to others. It has been the means of restoring my wife to good health. She was stricken down with an attack of nervous prostration. She suffered with headaches and her nerves were under severe strain. She became very low spirited and so weak she could only do a little work without resting. Her appetite was poor, and being so weak she could not get the proper rest at night. She decided to try Hood's Sarsaparilla, as we had heard it highly praised, and I am glad to state that Hood's Sarsaparilla has perfectly cured all her ailments." G. TORONTO, Oct. 28.—With yester-day afternoon's and this morning's deat the western cattle market today, comprising in all 89 carloads. Of these there were 1,175 sheep and 3,100 hogs. Trade was very slow, and those who held their stock over from yesterday, thinking to do better, were disappointed. As a matter of fact, the supply was a little over the demand, and prices offered, the average run was coarse and poor in quality. Mr. Crawford sold a load of exporters weighing an average of 1,400 pounds, but failed to get more of the low condition of the export market A few of the very choicest exporters were sold at \$4, but this seemed to be the highest price made today. Stockers were a little easy, selling at \$3 to \$3 25. Feeders were worth from \$35 to \$37, several lots being sold at the latter figure. Butchers' cattle were a little easier, good useful cattle selling at \$3 70; one load of extra choice brought \$4. Sheep were about the same as on Tuesday, with very slow market. Hogs are keeping a little steadier, at \$4 25 for the choicest selections. Export cattle, choice, \$4; light, \$3 75 to \$3 87½. Bulls, medium export, \$3 25 to \$3 40; heavy export, good quality, \$3 50 to \$3 75; loads of good butchers' and exporters, mixed, \$3 70 to \$4; stockers and medium to good, \$3 to \$3 25; feeders, heavy, \$3 40 to \$3 70. Butchers' cattle-Picked lots, \$3 70 to \$4; good, \$3 60 to \$3 85; medium, \$3 35 to \$3 45; common, \$3 to \$3 12½; inferior, \$2 75 to \$2 85. Milch cows, each, \$30 to \$50. JAS. FRAWLEY FREE

A Former Londoner Who Shot His Bartender in Chicago Set at Liberty.

James Frawley, who at one time kept the Metropolitan Hotel in this city, and who subsequently removed to Chicago, where, having engaged in the same business, he shot and killed his bartender, John Cromey, in August last, for which he was sent to the state insane penitentiary, is again at liberty. The doctors and experts, who testified at his trial that Frawley was oriminally insane and dangerous, are, according to the Chicago Chronicle, incensed that the prisoner should be set free by the state board of charities, after two months' detention, and it is understood that steps are to be taken for another inquiry into his state of mind to determine whether it is safe to allow him his liberty. An odd fea-ture of the case is that the man was released by the state board of charities on the 21st inst., and a petition for a writ of habeas corpus, was to be argued on the 22nd. At the hour set for hearing, Frawley was in Chicago, At Frawley's trial the a free man. At Frawley's trial the jury returned a verdict that he was an "irresponsible lunatic."

CONFLAGRATION

Sargent's Planing Mills on King Street Wiped Out.

Loss Will Reach Nearly \$15,000-Only \$1,000 Insurance-Origin of the Fire a Mystery-A Number of Residences Scorched-Firemen Injured-A Second Blaze.

One of the most disastrous fires that has taken place for some years in this city occurred early this morning, when the planing mills of Mr. Isaac Sargeant, situated at the corner of Adeliveries, there was a pretty heavy run laide and King streets, were completely wiped out by fire. The loss will reach the large sum of nearly \$15,000, and the insurance is only \$1,000.

Just how the fire originated is a mystery. Stoves were burning during the day, but they were all supposed were correspondingly low. Although to be out when the men quit work. there were some lots of good quality Mr. Sergeant could offer no solution. Mr. Baker, engineer at the mills, who resides nearby, was awakened at about 3:45 by a crackling sound, and when than \$3 671/2, which is a good indication looking out of his window saw the building in flames. He hurriedly dressed himself, and ran to Mr. Sar geant's residence and awakened the

family. An alarm was quickly rung, and the firemen were soon at the spot, but the building was too far gone to

save anything. The firemen made heroic efforts to put out the flames, but it was impossible. They had to keep putting streams on the houses close by to keep them from catching. The three sections of the mill were completely gutted, nothing being sav-

The north building which was recently erected, was partly occupied by Mr. Cowan's carriage and wood works. His loss will amount to about \$400, in-

surance \$300. The large building in the center and the one to the south were used for dressing lumber and for sash and door factories. (The machinery in these buildings was very valuable, one machine alone costing \$900. They were

The stables also fell a prey to the flames, but fortunately the two horses were rescued in time by a policemany Two wagons, a bob-sleigh and cutter, with a large amonut of hay and oats

were consumed. A number of residents close by also suffered. The shed and outbuildings of Messrs. Hawkins and Chas. Campbell were totally destroyed. Mr. Baker's house, to the east of the fire was badly scorched, and it was only by keeping a constant stream on it that it was saved. Mr. Baker's

shop, shed and outbuildings were wiped out. Fifty piles of lumber in stock in the vards were burned, adding greatly to

on until 10 a.m. The firemen wish to thank Mrs. Sargeant and daughter for kindly furnishing them with a warm breakfast.

The fire lasted longer than either the Dundas or First Methodist Church

The fire department say it was one of the hottest and hardest fires to handle they ever tackled. Twelve men are thrown out of work

by the blaze. Mr. Heaman, carriage manufacturer, sustains a slight loss, having had some lumber there being dressed. The large and costly brick chimney still stands unharmed. Some 50 kegs of nails were de-

ANOTHER BLAZE.

The firemen had hardly returned to the station when another alarm was rung in. It was a small blaze at the residence of Mr. J. Welford, on King, just east of Lyle street. Damage about \$5. Origin unknown.

Upon the women of Canada rests a tremendous responsibility. In their keeping, to a great extent, lies the wellbeing of our future population. Upon them depends the strength or weakness of the men and women of the coming generations. Unhealthy mothers cannot bear

healthy children. Unhealthy mothers do bear sickly. puny children, and such children grow up to be puny, unhealthy men and women, or else they die during their childhood or youth.

It behooves the women of Canada, then, to retain their health and Unfortunately they are a strength. thousandfold more liable to disease than men are. Kidney Discase finds thousands, yes,

hundreds of thousands of victims And no other disease has as terribly baneful an effect upon the children of its victims as has Kidney Disease.

Yet Kidney Disease is very easily cured. It yields, surely, rapidly and permanently to the power of that great Kidney Cure—Dodd's Kidney Pills. Dodd's Kidney Pills have cured thousands of women of Kidney Disease and Female Complaints (the latter being, as a rule, merely different phases

of Kidney Disease).

Dodd's Kidney Pills root the disease out of the system, by causing the Kidneys to do their work thoroughly. Dodd's Kidney Pills build up the system by insuring a full and sure supply of pure blood to make bone and muscle, nerves and tissue, to create Pills are women's truest frienda

The long crossed silk stitching at the ends of corset bones or steels is termed the "flushing." Its purpose is to prevent the cutting and slipping through of the steels. Flushing to be done properly must be done by hand and the stitches must go through -- otherwise it is

sham. In ordinary corsets "flushing" is done by machine, and no ma chine in existence can do genuine

"flushing." If deceit be practiced in such a bare-faced manner on an exposed part of a corset, what about the quality of the hidden materials-of the steels or bones for instance? The celebrated French, tailor-cut,
