IT WAS ALL A JOKE

And if the Senseless Joker is Caught It Will Be No Joke for Him.

A false report which was put in circulation over the telephone Saturday evening to the effect that the water supply would be cut off at 9 p. m. caused much inconvenience to householders throughout the city. A report that the water supply for a fortnight ago apparently inspired every one to fill every available receptacle with the precious fluid, and between 7 p. m. and 10 p. m. the draught was enormous. There was no break in any of the mains and H. G. Hunter, the resident engineer, is now offering a reward of \$25 for information which will lead to the conviction of the perpetrators of a thoughtless practical joke.

Sunday Schools

Rev. J. B. Ganong, field secretary of the N. B. and P. E. Island Sunday School Association, yesterday conducted interesting services in the Baptist and Methodist churches in Carleton. The afternoon session was held in the Methodist church and took the form of a conference led by Rev. Mr. Ganong. Representatives from all the Sunday schools of the city were present, besides T. S. Simms, chairman of the executive; A. H. Chipman, president of the association; and J. N. Harvey. The conference was a decided success.

In the evening Rev. Mr. Ganong gave a fine address in the Baptist church to a large audience on the modern Bible class for men. It is the intention of the executive of the association to conduct several conferences during the winter in the interests of the work of the Bible schools. A mixed Bible class for adults is to be organized in the Methodist church, Carleton, and in the Charlotte street Baptist church, Carleton. A Bible class for young men will be organized on Tuesday evening at the residence of the superintendent, D. C. Clark.

A PRESENTATION

At a social gathering held in Calvin church school room Saturday evening Mrs. L. A. McLean, wife of the pastor, was presented a well filled purse by the Ladies' Aid Society.

Mrs. McLean has been an active worker in all the branches of Calvin church work and to her is due in a large measure the present prosperity and well being of this church. During the year the Ladies' Aid Society have raised for church purposes several hundred dollars, and perhaps the most unique plan of securing a portion of these funds was in connection with the talent fund, in which an investment of \$2 realized \$110.

The second regiment of Halifax follows with 273, and Montreal third with 176 points. The 62nd regiment, 16th among the cavalry and infantry city corps, with 146 points.

CANADA HAS BEST CHANCE

Conditions for Her Development Are Better Than Those Which Confronted United States.

That the Dominion of Canada has crossed the threshold of the Twentieth Century under conditions incomparably more favorable to rapid expansion than obtained in the United States at the beginning of the nineteenth, is the opinion of Dr. Theodor Barth, a distinguished German visitor to the neighboring republic, who, for some months past, has been writing a series of letters to the Frankfurter Zeitung. In support of this statement, the following facts and figures are given:

The population of the United States in 1800 was 3,929,000; that of the Dominion in 1901 (exclusive of Newfoundland) was 5,714,000. The total imports of the United States in 1800 were valued at less than \$163,000,000; the total imports and exports of the Dominion of Canada in 1901 exceeded \$500,000,000. The receipts of the United States Treasury in 1800 were from customs \$9,080,000 and from internal revenue \$800,000; the total revenue of the Dominion in 1906 was \$80,000,000 to which \$60,000,000 was contributed from customs and excise. In 1800 the United States did not have a steamboat or a mile of railway. Canada, on the other hand, at the end of June, 1906, had a network of steam railways with a trackage of 29,600 miles. Finally, the inhabitants of all the chief cities of the United States in 1800 did not constitute a fraction of the present population of Montreal.
