AMUSEMENTS FOR OURSELVES AND OTHERS

NICKEL TODAY AND MONDAY.

The Nickel is the source of a great deal of Saturday half-holiday enjoyment and today promises to be no exception. The bill is a strong one including the Biograph drama, The Purgation, the Edison story of English army life entitled Bootle's Baby, and a western yarn full of dash and action, The Ranchman's Feud. Miss Betty Donn will conclude her engagement today in the song The Last Rose of Summer, and Miss Mildred Prescott will render an Italian hit, The Italian Rag.

On Monday the Nickel will introduce its latest novelty under the title Little Moments From Big Plays, in which dramatic and comedy sketches Miss Sadie Calhoun and small company of players will produce tabloid versions of notable successes. The opening piece is to be an adapted version of Henrietta Crosman's comedy hit, All of a Sudden Susan, entitled Peggy's Dilemma, a society play with its scenes and people purely English "Don't Cherknow." This feature will be put on at 3.15, 4.15, 7.45, 8.45 and 9.45.

UNCLE TOM'S CABIN.

There is coming to the Gem, Waterloo street, a big Vitagraph production of three reels of film, showing the famous southern drama, Uncle Tom's Cabin, in a manner striking in reality, true to life, and complete in every particular. The date of its showing will be announced later, but the public should not be deceived by other films of a supposedly similar nature, as the one to be seen at the Gem will be the very best.

Helps About The House

After an umbrella has been in use for a short time, put a drop of oil in the centre of the top about once a month. This prevents the ribs from rusting.

If two thin glasses have stuck, one in the other, place them in rather warm water and pour cold water in the upper glass. The expansion of one and the contraction of the other loosens them.

A little soap or black lead, rubbed on the hinge of a squeaking door will often remedy matters.

Brown boots can be blackened by rubbing the blacking well into the shoes with a raw potato and then polishing.

The little half-rubbers fitting over the toe of the shoe and held in place by a band over the heel sometimes become useless long before they are worn out, because the band stretches and slips over the heel.

There is no need, however, in such a case, to buy a new pair, for any cobbler will make one a couple of straps of soft black, leather, with tiny buckles at the end. If the end of the strap is slipped under the band of the rubbers at the back of the heel and the strap buckled round the ankle, it is impossible for the band to slip down.

The price charged is usually only about 10 or 15 cents a pair for the straps. Of course, ribbon would do as well, but it becomes so saturated with wet that it is cold and unpleasant, whereas the leather strap throws off the water, as the shoe does, and is easily cleaned if it becomes muddy.

WEEKLY COTTON LETTER

From E. & C. Randolph to J. M. Robinson & Sons, Bankers

New York, July 29:—As soon as the speculative short interest in July had secured cover between 16 and 16 1-2 cents, the excitement in the old crop months subsided, and it has since developed that more cotton than anticipated had been brought here for July delivery. When the demand from speculative shorts was withdrawn, the bull leaders, being left in the position of the only buyers, seemed willing to let the price ease off although showing no disposition to avoid the actual cotton, and they have continued to stop such notices as have been issued. Meanwhile the new crop positions have become relatively firm owing to the failure of private crop reports to show any improvement, and while at the close of business last night July cotton was nearly a cent a pound under the high level of last week. October contracts were selling at about the highest point reached since the big January break; the July premium having been reduced from 335 to 226 points.

August shorts did a great deal of covering while the squeeze of July was in progress but it seems improbable that all the speculative short interest in that position has been eliminated; the chances being that as soon as the advance in July was over and prices began to react, August shorts concluded to wait and see how the bulls handled the balance of the July deliveries. We cannot see that the bull party is making any profit out of the spot cotton it is taking up in the course of the bull campaign. No doubt the bull leaders were able to sell contracts representing several thousands of bales at the high level recently reached, but according to all accounts, they have been pushing the sale of their spot supplies at concessions ranging from 50 to 100 points as compared with the price at which they held their contracts, One would think, consequently, that their incentive for maintaining their position might be the ownership of such a volume of August contracts as would promise them speculative profits to offset the difference between the price at which they have taken up July cotton and the price at which they have been selling it, where possible, to the mills. Naturally the advance in the new crop months has helped their position to some extent but in any event there is no sign of their abandoning the old crop months, in which there is no longer any general business and we see no reason for expecting any slump in old crop values; the chances, on the contrary, being more in favor of a speculative flurry in August similar to that which has just occurred in July.

The prospects are, therefore, that we shall enter the new season with sustained old crop values, as well as with a very strong statistical position. The volume of spinners' takings is now falling off, and from present indications there will be over 500,000 bales, in the world's visible supply of American cotton on Sept. 1st. The supplies in the hands of mills will be at a minimum; and the supply of goods following six months of more or less drastic curtailment in manufacture must also be small. And even though there are some unfavorable features from a general trade standpoint, considering the way purchases have been procrastinated for the past season, many think that the outlook is for a normal requirement during the coming year. The question as to whether the coming crop will be up to the normal average is still an open one; and one which depends largely upon future growing conditions, but the truth of the matter is that the present promise is not regarded by the trade, generally, as encouraging. Very gloomy accounts are received from the Eastern belt where rainy weather has been more or less persistent since early in June, the crop is late and fields in many cases are foul. The best reports have been coming from Texas and Oklahoma, and we have heard some pretty good authorities estimate the combined crops of these two states at from five to six millions bales. But the precipitation in Texas has been below the normal since the first of March in most districts, and we appear now to be in the midst of one of the dry hot spells which usually test very severely the stamina of the crop during the mid-summer. Should this droughty period continue there may be a decided change in the news from the only section of the belt which has been sending in encouraging reports, and that the outlook is considered dubious in trade as well as speculative sources is shown by the fact that mills continue to hedge their future requirements by purchases of contracts on moderate reactions.

Although we feel that the crop prospects are decidedly unfavorable, we do not care at this time to express any definite opinion as to the probable size of the coming crop. At the same time we realize that during the next thirty days, at any rate, sentiment is likely to be very nervous, and should the unfavorable features of the weather continue, we must be prepared for a general trade and speculative buying movement; high as present prices already appear to be.

Yours very truly,
E. & C. RANDOLPH

Yes, the world is growing wiser—thanks to the trust legislative investigations.

SPORT NEWS OF A DAY, AT HOME AND ABROAD

The St. Johns turned the tables on the Clippers last evening on the Every Day Club grounds when they shut the whites out and made six runs in the innings played.

It was a wise move of Manager Tilley when he engaged Gero to pitch for the St. John. The twirler is from New Bedford and has been pitching for the St. Stephen team this season. His work last evening was excellent and he had the Clippers at his mercy. His remarkable control, speed and shoots proved a puzzle to the Clipper batters.

There were in the vicinity of 800 people at the game. The following is the score:

St. Johns.

	A.B.	R.	H.	P.O.	A.	E.
E. Ramsey, 2b	3	1	1	0	2	1
Copeland, s.s.	3	0	0	1	2	1
Lynch, 1b.	3	1	1	7	0	0
Riley, l.f.	3	0	1	1	0	0
Cribbs, r.f.	3	1	2	0	0	0
Cregan, c.f.	3	1	3	0	0	0
A. Ramsey, 3b	3	1	0	0	1	1
Gero, p.	3	1	1	0	1	0
Humphrey, c.	3	0	0	8	0	0
	27	6	9	18	6	2

Clippers.

	A.B.	R.	H.	P.O.	A.	E.
Donelly, 1b.	3	0	0	8	0	0
Long, s.s.	3	0	0	1	0	0
F. Finnimore, 2b	3	0	0	4	4	1
Chase, r.f.	2	0	1	0	0	0
T. Howe, 3b.	2	0	0	1	1	0
McGovern, p.	2	0	0	0	5	0

Cooper, c.f.	2	0	0	0	0	0
Mills, c.	2	0	0	2	0	0
	22	0	2	18	10	1

Summary—Every Day Club grounds, Friday evening, July 29, 1910: St. John's 6; Clippers, 0; two base hit, Chase; home run, Gero; struck out by Gero, 8, viz., Donelly (2), Long, Finnimore, T. Howe, Woods, Mills (2); by McGovern, 1, viz., Gero; left on bases, St. Johns, 3; Clippers, 3; time of game, one hour; umpires, McAllister and Britt; attendance, 804.

League Standing.

	Won.	Lost.
St. Johns	13	10
Clippers	10	13

Rockwoods Won.

The Rockwoods won from the Acadians by a score of 12 to 4, on Puddington's field last evening. The batteries were: for the winners, Coffey and Lawlor; for the losers, McEachern and Bragen.

St. Malachi's Team Win.

The St. Malachi's defeated the Champlains by a score of 6 to 2 on the Weldon lot last evening. The batteries were: O'Regan and McShane for the winners, and McDonald and Mooney for the Champlains.

National League.

At New York—Boston, 2; New York, 5.
At Brooklyn—Philadelphia, 5; Brooklyn, 2.
At St. Louis—Chicago, 5; St. Louis, 2.
At Pittsburg—Cincinnati, 3; Pittsburg, 7.

American League.

At Boston—New York, 3; Boston, 1.
At Chicago—Detroit, 1; Chicago, 0.
At Philadelphia—Washington, 0; Philadelphia, 4.

Eastern League.

At Toronto—First game, Newark, 5; Toronto, 4. Second game, Newark, 1; Toronto, 6. (Called end 7th on account of rain.)
At Montreal—Jersey City, 9; Montreal, 5.
At Buffalo—Baltimore, 8; Buffalo, 8. Called end ninth, dark.

Woodstock Won.

In a rather slow game at Woodstock yesterday afternoon the home team won from Fredericton 3 to 0. Peasley played his usual star game, having ten strike-outs to his credit. Brogan in the box for Fredericton was a puzzler for a time with a slow ball, but he was soon found and two men were gotten around the circuit in the seventh and eighth.

The Ring

With the Boxers.

Jack ("Twin") Sulivan has been matched to meet Andrew Morris at Sydney, C. B., August 1. Several days later Sullivan will probably meet "Porky" Flynn at Bar Harbor.

Sam Langford who is at Northboro training for his bout with Al Kaufman in Philadelphia, is telling his friends in that town that he lost $3,700 betting on Jeffries to beat Johnson.

Mike ("Twin" Sullivan, who has been resting several months, will begin the season's campaign he has mapped out on August 2, when he will meet Willie Mack of New York at Buffalo.

Promoter McIntosh of Australia, who has been a great admirer of Johnson since the latter defeated Tommy Burns, predicts that Johnson will not hold the title long, and that he white race will regain it.

William Warren Barbour, the New York millionaire boxer who won the amateur heavyweight championship this year, is talked of as Jim Corbett's unknown. It would take a lot of schooling to get Barbour good enough to meet even some of the second-rate heavyweights.

The managers of Battling Jim Johnson, the colored Philadelphia heavyweight, got themselves "in bad" with the people of Brussels the other day by passing him off as Jack Johnson. The managers had to flee from the Belgian city and the Battler was taken to court to explain the deception. He placed all the blame on his managers.

Abe Attell has got the managers of the boxing club in Winnipeg to stage a bout between him and Eddie Greenwald on August 10. More easy money for Abey.

Tommy Burns, the ex-heavyweight champion, is at his old tricks again of holding up fight promoters for more money after having agreed to fight for a certain amount. Hugh McIntosh is the promoter this time that Burns has stuck up for the extra sum. Burns agreed to accept a big percentage of the gross receipts to fight Sam Langford a twenty-round battle in London the last week in September, but when he heard that Langford had signed to fight he notified McIntosh that he must have an additional fifteen per cent. of the receipts or else he would call off the match. This extra percentage will figure up to over $10,000. McIntosh is to meet Joe Woodman, manager of Langford, this week, and talk the matter over with him. It is likely that Burns' demand will be granted.

Sam Langford has been engaged to give boxing exhibitions at Hammerstein's in New York for one week. Joe Woodman, his manager, completed the arrangements and has secured Bob Armstrong, the colored heavyweight, to be Sambo's sparring partner. Armstrong was one of Jim Jeffries' sparring partners while the latter was training for his fight with Jack Johnson.

Running

Good Words for Cameron.

Bob Dunbar in the Boston Journal says: Fred Cameron of Amherst, N. S., winner of the B. A. A. Marathon last April, is one of the greatest long-distance runners developed in recent years and, if properly handled, may prove a sensational record breaker. Cameron should guard against one thing, and that is overconfidence. Strenuous claims are being made by Cameron's supporters that he can lower Alfie Shrubb's world record for ten miles. This is foolish talk at present, although the Nova Scotian may develop. If Cameron had a coach like Jack Moakley to show him the real secrets of distance running, there is no telling what might happen.

The Turf

Moncton Races.

Moncton, July 29—(Special)—The running races at the Speedway this evening drew a larger crowd than usual, Summary of events:

First race, four and a half furlongs—King Guinea, (Croyley) 1st, Tina Hall (Robinson), 2nd, Virginia Maid (Johnson) 3rd, Florence D. and Kingston Bel also ran. Time 58 3-5.

Second race, five furlongs—Enlist (Watley), 1st, C. A. Morgan (Robinson) 2nd, Adoration (Crowley) 3rd. Pearl Point also ran. Time 1.05.

Third race, four and a half furlongs—Bonnie Bee (Robinson) 1st, Johnny Wide (Martin) 2nd, Roose (Johnson) 3rd. Square Deal and Alta McDonald also ran. Time 59.

Fourth race, five furlongs—Lista (Johnson) 1st, Lady Chilton (Martin) 2nd, Judge Dundon (Crowley) 3rd. Gilford and Many Colors also ran. Time 1.04.

In the city baseball league tonight the Ozo's defeated the Y. M. C. A.'s by a score of 5 to 4.

FATHER SEEKS VENGEANCE FOR HIS BABY'S DEATH

New York Man Alleges Wrong Powders Were Furnished by the Druggist—Child Was Poisoned

New York, July 30—"I will not rest until my baby's death has been avenged. I believe the little one was poisoned. She died on June 12 and this is July 29, and yet the man who sent the medicine is still doing business unmolested. It is outrageous."

This statement was made last night by H. S. Head, No. 502 West One Hundred and Thirty-fifth street, the death of whose daughter is being investigated by the Board of Coroners.

Incidentally there has been talk of a $500 bribe to some one connected with the Coroner's office to cause a hold-up of the case.

Coroner Holtzhauser said the reason the case had been delayed was because he had turned over the stomach of the baby to Professor John H. Larkin for chemical analysis. He showed a letter received the early part of the week from Professor Larkin which stated that he found no evidence of a caustic poison or of other poisons which might have caused the child's death, and continued: "That microscopical examination of the stomach and intestines shows the child had a marked case of follicular enteritis, and that therefore death was due to natural causes."

The Coroner also stated that Dr. Atkinson, a Brooklyn chemist, had reported that in the powders he examined he found only six one-hundredth grains of bichloride of mercury, which, he said, would not be injurious to a child.

The recital of Mr. Head, father of the dead child, is corroborated by Dr. S. Dana Hubbard, his family physician, who is also attached to the Brooklyn Board of Health. Mr. Head says:

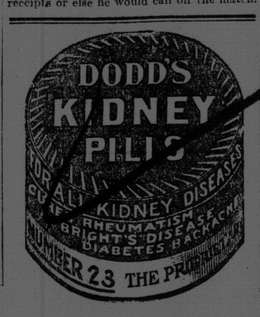
"On Wednesday, June 8,. Dr. Hubbard gave our nurse a prescription to have filled. She stopped in the drug store of Jacob Halper, No 2101 Amsterdam avenue and sent Mr. Halper fill the prescription. When I got home, the nurse said there must be something wrong about the powders as she could not get one to stay in the baby's stomach. While we were talking, a colored boy who said he was from Halper's drug store came with a box of powders, saying he had been sent to leave them and take back the box the nurse had brought.

"I called up Halper and he said the doctor had changed the prescription. Dr. Hubbard says about 6 o'clock the druggist called him and asked the Head address. When I informed the doctor, he denied he had ordered the prescription changed.

Friday the baby was suffering so I went and asked if he knew what was in the powders to tell us so we might get an antidote. He said he could not tell unless I brought the powders back. He said they had been lying on his desk a long time and he did not know what was in them, as he had evidently picked them up by mistake.

Dr. Hubbard declares he has had a private analysis made of the first powders sent to the Head home, and that they contain a much greater percentage of bi-chloride of mercury than the Brooklyn chemist says he found. He also declares he received an anonymous telephone message asking him how much he would take to drop the matter. The inquest is scheduled for tomorrow.

Through the influence of Lord Charles Beresford, Thomas C. Payne, of Ottawa, has received his first Egyptian campaign medal and the Star of the Khedive of Egypt, after twenty-eight years' time.



EDUCATIONAL

ASHBURY COLLEGE
ROCKCLIFFE PARK, OTTAWA.

RESIDENT SCHOOL FOR BOYS

BOARD OF TRADE WILL ACT ON THE TELEPHONE RATES

Resolution by J. N. Harvey Adopted Without Opposition—$100 Voted for Use of Committee—West Side Transfer

At a meeting of the board of trade yesterday afternoon, attended by nearly fifty members, a committee of three was appointed to aid in prosecuting any complaint brought either by firms or individuals against the N. B. Telephone Company before the public utilities commission. The sum of $100 was placed at the disposal of the committee.

A resolution introduced by W. F. Hatheway, M. P. P., relating to the west side transfer, was passed. It was to the effect that while the board of trade approved the transfer, a clause should be put in the agreement that the C. P. R. should spend within ten years not less than $250,000 in improving the forty acre strip, otherwise the property to revert back to the city.

J. S. Gregory, John S. Davidson, H. C. Green and John H. Lee were elected members of the board and John E. Wilson was appointed a member of the council.

The chairman referred to the report of the committee of the board on the telephone matter which had been sent back from the Public Utilities Commission, who had directed attention to their rules of procedure.

Mr. Harvey introduced a resolution on the matter, sketching the steps taken in the raising of rates by the telephone company which the board's committee had found to be unjustifiable. The company had been in existence seventeen years and during that time had paid dividends of 8 per cent. They had absorbed the Central Telephone Company. They had paid $73,000 for the Central stock and had accumulated $100,000 of a reserve fund.

His resolution was as follows:

"Resolved, that a committee of three members of this board of trade be selected and that the sum of $100 be placed at the disposal of such committee to aid in the prosecution of any complaint which may be made by any person, firm, or corporation to the board of commissioners of public utilities against the New Brunswick Telephone Company to the effect that the telephone rates and charges in the city of St. John are excessive and unreasonable."

The resolution was seconded by W. H. Thorne, and it carried without a dissenting voice. W. F. Hatheway, M. P. P., then moved his resolution relative to the west side transfer which was in effect that the C. P. R. must agree to spend $250,000 within ten years for filling track and other improvements as needed for a railway yard, and failing the property to revert to the city. The resolution was seconded by D. Mullin, K. C. Ald. Baxter spoke at some length in support of the resolution, going back some years in the development of the west side. W. H. Thorne was strongly for the transfer and did not agree with either Mr. Hatheway's or Ald. Baxter's views. It was simply a case of exchanging a non-productive for a productive piece of property. Mr. Schofield and L. P. D. Tilley also spoke against the resolution. On being put to the meeting the resolution was carried 19 to 10. Mr. Hathaway reported that there would be a meeting of the local committee of arrangements for the Technical Commission, Wednesday.

While rehearsing for an entertainment a gun, supposed to be unloaded, was discharged in the hands of Everett Olden, at Muskogee, Oklahoma, killing Jacob Winkler, his chum, instantly.

The United States cuts yearly some 20,000,000,000 cubic feet of lumber over and above what is lost by fire and other natural causes.

A plan to bring a Zeppelin airship to the States for the conveyance of passengers between Boston and New York is receiving consideration.

The Portland cement production in the United States last year was nearly 62,000,000 barrels, an increase of 10,000,000 barrels over the year before.

The United States geological survey reports 2,805 lives lost in mines in that country in 1909.

Doesn't it sound funny when you hear of a milkman being on the water wagon?

To All Who Suffer Ill Health From Any Cause

Investigate this wonderful way to restore health and strength by nature's own method.

No medicine, no drugs, no electricity, just pure life giving oxygen!

Oxygen as instilled into the system by our marvelous Oxydonor, has helped thousands of sufferers to regain health and strength where drugs have failed. Oxydonor is as effective for the child as the adult. Oxydonor never wears out, it lasts a life time, and serves all members of the family, for ANY DISEASE; you are cured while you sleep, no loss of time or money and your cure is permanent. A grateful friend of Oxydonor says:

Dear Sir:—

I have owned an Oxydonor No. 2 in my family for seven years, and I can bear witness to the great results we have received from it for many different ills. In one case, my little boy, who had entirely lost the use of his limbs and could not stir them at all. After we had treated him with the Oxydonor for six months, he had completely recovered and began to walk again. Now the boy is nine years old, and is, I think, as strong and nimble as any child of his age. Therefore I am glad to acknowledge the success that attended our use of Oxydonor, far beyond what was expected.

Yours very truly,
O. NORMANDIN,
Hats and furs importer,
35 St. Lawrence Boulevard,
Montreal, Que.

Remember! There is but one way of being cured by Oxygen and that is by the use of Dr. H. Sanche's Oxydonor.

Dr. H. Sanche, of Montreal, is originator and inventor of Oxydonor, look for the name Dr. H. Sanche, which is plainly stamped on every original instrument.

Do not let any similarity of names lead you to confuse Oxydonor with any other article. Beware of imitations!

Oxydonor has a marvelous record of cures.
