Destruction by Fire of the Baptist Church, Woodstock.

It is with much regret we lean that the Baptist Church at Woodstock—Rev. Mr Jones, pastor—was totally destroyed by fire early on the morning of Sunday last. The origin of the fire was purely accidental, and no blame is attached to any one. The building was erected a few years since at a cost of about $7,000; it was insured in the Gore Mutual for $3,000.

☞ Three of our Ingersoll young men, viz.: Messrs. L. W. Johnston, John Crotty and William Crotty, on Tuesday last skated from Ingersoll to Woodstock by the River in 1 hour and 40 minutes, and back in 1 hour and 20 minutes. The next day the same persons skated from here to London in 3 hours. On both trips the course of the River was followed the whole distance. For the first 6 miles on the latter trip the ice was no better, and in many places much worse than it is along the river below the Thames St. bridge, but beyond that, with the exception of a mile below each mill-dam, they represent the skating as being very good. Pretty good skating. Are there any others who can beat it?

☞ We would call the attention of our readers to a special meeting of the Ladies Aid Society, to be held in the old Masonic Hall, this (Friday) evening, under the auspices of the young ladies and gentlemen of the W. Musical.

Mr L. W. Johnston, whose advertisement will be found in another column, has received a further supply of "Tramp, Tramp, Tramp," with its second part, "On, On, On;" also, the "Soldier's Chorus," for two hands, and the same for four hands, by B. Richards. These latter are transcriptions from the opera of Faust—very beautiful, and exceedingly popular wherever known. Also, "The Kiss Waltz (Il' Bacio,) very easy; the "Woodland Whispers-Waltzes," and "Five O'clock in the Morning," the least difficult, but decidedly best liked song of Mme. Parepa, who has lately been so enthusiastically received throughout the United States, and who was paid $3,000 for singing three nights in Boston. The last named piece contains an excellent likeness of this gifted singer.

CORRECTION.—In our notice of the Bible Society meeting last week, a mistake occurred in giving the names of the officers of the Society. It should have read—Mr J. Bowers, President—and not Mr J. Bowes, as stated.

☞ The Debating Club will meet on Tuesday evening next, when the following subject will be discussed:—"Resolved, that great events produce great men, and not great men great events." J. IMPORTING WAR MATERIAL INTO CANADA.—The Commissioner of Customs has issued a circular to the collectors of the several ports of Canada, in which he informs them (under legal advice) that the Imperial Act 16 and 17 Vic, cap. 107, sec. 159, is still in force in Canada, and that therefore the importation of ammunition, arms or utensils of war, is still prohibited, except from the United Kingdom or any British possessions. Custom-house officers are consequently informed that it will be their duty to see that the articles in question are not introduced into Canada from the United States.

FROZEN TO DEATH.—On Sabbath last a weaver named Wm. Young was found frozen to death in a field belonging to John Warnock, Esq., Waverley. Deceased had been in Galt during Saturday, and was evidently on his way home by a short path through the fields when he was overcome by the extreme cold. Parcels of groceries, shoes, &c., were found beside him. An inquest was held on the body and a verdict found in accordance with the above facts. He leaves a wife and large family behind him.—*Galt Reformer.*

HON. JOSEPH HOWE.—Hon. Mr Howe, of Halifax, Nova Scotia, the eloquent advocate of Reciprocity at the Detriot convention, has gone to Washington. He is not a member of the "Imperial Commission," that has gone thither from the Provinces, but it is presumed his movements are in relation to the Reciprocity question. With the repeal of the Treaty, we suppose his office of Imperial Fishery Commissioner will cease. It is worth $5,000 a year, and quitted the Cabinet to obtain it. He has, therefore, a strong personal, as well as a patriotic interest, in procuring an extension of the Treaty.

A Really Good Article

We would call the attention of all interested to an article of undoubted merit, and which we would advise all in want of to give a trial. We refer to Darley's Arabian Heave Remedy and Condition Medicine for horses, now being extensively used by many of the largest horse dealers in the country; these men have discovered that it improves the condition of the horse by purifying the blood and removing from the lungs and liver all that prevent their healthy action; its effect is soon apparent in the improved appearance of the animal; which is one great reason why horse dealers use it, as they are thus enabled to get better prices and at the same time give their customers sound and healthy horses.

Extraordinary Escape of a Female from Prison.

A woman named Ann Harrison recently escaped from the prison at Bury, England. She had been committed for theft, having previous to committal attempted to get up the chimney at the police station. The manner in which she effected her escape proved her to be possessed of great daring and determination, combined with considerable agility. It was for some time a matter of speculation in what way she contrived to gain her liberty, but she has given her own account of the transaction, and from her statement (which is corroborated by various circumstances, and is no doubt correct) it appears that she went direct to the gate, within three yards of the matron's residence, and contrived to clamber to the top of it by getting her foot upon the cross bar in the centre, though, being a short woman, this would scarcely appear possible. From the centre she mounted the top of the gate, in another stride, no doubt using the *chevaux de frise* by grasping the centre as a means of drawing herself up. She must have shifted herself along the top of the gate, holding by the *chevaux de frise* till she came to the wall, the top of which she was then able to reach. Having mounted the wall she crawled along it a distance of 16 yards, which brought her to the roof of the cells, and this also she climbed; but, after having gained the summit, and when at an elevation of about 20 feet, she missed her hold when preparing to descend, and after rolling down the roof, fell over the edge, and came to the ground from a height of from 12 to 14 feet. Fortunately for her, she fell upon soft mould in the garden, but she alighted within three feet of the water tank, and therefore very narrowly escaped either drowning or severe injury by collision with the brickwork. She was a little stunned by the fall, but speedily rose to her feet, apparently none the worse, and ran across the garden, and then to the south-west corner, where a wood fence afforded her the means of scaling another wall, from which she dropped into some allotment ground on the other side, and so gained the road. When it is considered that this daring feat was performed by a small woman, on a dark night, it seems impossible not to credit her with a large amount of personal courage, supposing her to have possession of her proper senses, of which the officials have some doubt. She was recaptured, and when taken back to prison did not appear to be much the worse for her escapade; but on the following day it was found that, although no bones were broken, she had sustained a severe shock to the system by her fall.

"Every Saturday."

ON SATURDAY, January 6, 1866, Messrs. TICKNOR & FIELDS will begin the publication of a weekly journal entitled

"EVERY SATURDAY;"

A Journal of Choice Reading, selected from Foreign Current Literature.

Much of the best literature of the day is found in the English and Continental magazines and periodicals; and it is the design of the Publishers of this new journal to reproduce the choicest selections from these for American readers, in a form at once attractive and inexpensive. The Publishers believe that such a journal, conducted upon the plan which they propose, will be not only entertaining and instructive in itself, but interesting and valuable as a reflex of foreign periodical literature of the better class.

Every Saturday is intended for Town and Country, for the Fireside, the Seaside, the Railway, and the Steamboat. Its plan embraces Incidents of Travel and Adventure, Essays Critical and Descriptive, Serial Tales, Short Stories, Poems, Biographies, Literary Intelligence, etc., in connection with judicious selections from the admirable popular papers on Science which are constantly appearing in foreign periodicals. The value of these papers arise from the fact that scientific subjects, however harsh and dry in themselves, are here treated in so graphic and picturesque a style as to charm the reader while instructing him.

It will be, in short, the aim of its Publishers that *Every Saturday* shall commend itself by its freshness and variety to all classes of intelligent and cultivated readers.

Every Saturday will contain each week thirty-two large octavo pages, handsomely printed in double columns, with an engraved title.

JUDSON'S

Mountain Herb Pills.

Agent, we present you with a perfect likeness of Tecumseh, a chief of a tribe of the strange Aztec Nation, that once ruled Mexico. You will find a full account of him and his people in our Pamphlet and Almanac—to be had gratis, from the Agents for these Pills.

The inventor and manufacturer of "Judson's Mountain Herb Pills," has spent the greater part of his life in traveling, having visited nearly every country in the world. He spent over six years among the Indians of the Rocky Mountains and of Mexico, and it was thus that the "MOUNTAIN HERB PILLS" were discovered. A very interesting account of his adventures there, you will find in our Almanac and Pamphlet.

It is an established fact, that all diseases arise from

IMPURE BLOOD!

The blood is the life! and when any foreign or unhealthy matter gets mixed with it, it is at once distributed to every organ of the body. Every nerve feels the poison! and the vital organs quickly complain. The stomach will not digest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feeble. The body becomes clogged with the poisonous matter; hence a cough—and all from a slight impurity at the fountain-head of life—the Blood! As if you had thrown some salts, for instance, in a pure spring, from which run a thirty rivulet, in a few minutes the whole course of the stream becomes disturbed and discolored. As quickly does impure blood fly to every part, and leave its sting behind. All the passages become obstructed, and unless the obstruction is removed, the lamp of life soon dies out.

These pills not only purify the blood, but regenerate all the secretions of the body; they are, therefore, unrivalled as a

CURE FOR BILIOUS DISEASES.

Liver Complaint, Sick Headache, &c. This *Anti-Bilious* Medicine expels from the blood the hidden seeds of disease, and renders all the fluids and secretions pure and fluent, clearing and resuscitating the vital organs.

Pleasant indeed, is it to us, that we are able to place within your reach, a medicine like this—*Judson's Mountain Herb Pills*—that will cure directly to the affected parts, through the blood and fluids of the body, and cause the sufferer to brighten with the flush of beauty and health.

Judson's Pills are the Best Remedy in existence for the following Complaints:

Bowel Complaints.	Debility.
Coughs.	Fever and Ague.

Each subscription obtained for the Daily *Spectator* will count as five weekly subscribers.

Each list of subscribers as received will be entered in a book kept for that purpose, to the credit of the party sending it; and as many of our friends have already sent us in lists since the 1st of January, these will also be credited in awarding the prizes. Should they send any further list, they will please mention the fact of a previous list having been sent, to avoid the chance of error or oversight.

During the session of Parliament full reports of the proceeding of the Legislature are given, and its editorial correspondence from the seat of Government gives an interesting resume of all questions of general interest.

THE WEEKLY SPECTATOR
