

TELEGRAPH NEWS.

LONDON, Nov. 18. Reports come from various quarters of a successful sortie by the French from Paris, but no particulars.

It is rumored that Austria has ordered a large number of troops to the neighborhood of its Turkish frontier in order to be ready to co-operate with other powers in event of breaking out of hostilities.

Rumors come thick and fast but the general impression is nothing can event war.

Earl Russell proposes a joint armed resistance of the powers if Prussia demands more than a third part of Lorraine, and urges England to form strong military reserves, based on militia, and to place a strong garrison at Quebec under an able commander.

English officers are volunteering service in Turkish army.

The King of Prussia telegraphed that the French were repulsed, Drenx captured, and many prisoners taken yesterday.

New York, Nov. 18. A mining occurred yesterday in 69th Regt. on the ship Onanite (at Quebec) on the refusal of Col. Bagitt to take the families of men married without leave in Canada. Several mineers were killed before it was quelled.

The families were sent by another vessel.

[Such was the story sent over the wires last week, but a special telegram to the "News" states that the citizens and soldiers were alike dissatisfied, because many wives of the latter were left behind, but the steamer left amid the cheers of the spectators, with the soldiers in good humor.

The Colonel had explained that marriage ceremony had been performed without the usual permission from the Commandant. The wives were subsequently sent off in the steamer Tamar. The reports as to the riot and bloodshed were false, as when the Onanite was seen off Father Point she reported all well.]

LONDON, Nov. 21. All leaves of absence to the Guards have been cancelled, and orders issued to prepare for active service.

Rumors that Gortchakoff offered to withdraw his note and submit Russia's claim to decision of a Congress.

Russian answer to Vienna note expected by 23d.

Gold 111 1/2.

MELANCHOLY.—When the nervous system loses its tone and vigor the whole body suffers in consequence; not infrequently some one organ suffers more than the rest, hence the origin of Heart Disease, Consumption, Softening of the Brain, &c. The most direct method of cure lies in restoring the vital principle to the nerves, which is most easily accomplished by using Fellows' Compound Syrup of Hypophosphites.

United States Items.

By way of frightening Congress into the annexation of San Domingo some of the speculators have started a story that the question of annexation to North Germany is being canvassed here.

The New York Custom House officers have seized a valuable cargo belonging to a prominent importing firm for fraud on the Government, which, if it is allowed, will reach \$200,000. The firm have also been taken and the affair is now undergoing a thorough investigation, pending which the authorities refuse information.

BRISWICK, Me. Nov. 15. The Rev. Dr. Edward Ballard, rector of St. Paul's Church, died here last night.

The Treasury Department ordered the payment of the Maine and Massachusetts claims, which have been pending for some time amounting to \$775,000. Satisfaction of the claims, five per cent. currency coupon certificates will be issued. Massachusetts is entitled to two thirds of the amount, and Maine to the other third.

Newark, N. J., William R. Sayre, a prominent citizen, hung himself at his residence this morning. He was an elder in the Presbyterian church, and a recent member of the Legislature, but declined a re-nomination.

The Sun says: "We are authorized to state that all the rumors from Washington, alleging that Judge Chase intends to resign his office as Chief Justice, are nothing but falsehoods."

The Bangor Whig says that a Boston steamer was attacked in Bangor, Saturday night, by a dozen roughs, who attempted to "go through" him for a watch and large sum of money which he had accidentally displayed. The police intervened, however, and rescued him.

A vessel in the British Channel lately picked up a live pig seven miles at sea, disproving the popular idea that a pig cannot swim.

LIABILITY OF A CAPTAIN FOR SICKNESS OF HIS CREW.—An action brought by Geo. E. White against David E. Welles, to recover \$7,500 for violation of a charterparty of the vessel T. K. White, was tried yesterday in the Court of Common Pleas, before Judge Robinson. The vessel was chartered to go to Swan Island, by way of Aspinwall, there to take a load of guano, and go to Cork, Ireland, and await orders. The vessel went to Aspinwall, and then started for Swan Island. A few days out the Captain and crew became sick, and they were unable to work, they put into Belize, Honduras. While there a number of the crew died, and although the Captain tried to obtain a new crew, he was unsuccessful, and was obliged to give up the voyage. The Court directed a verdict for the defendant. [N. Y. Tribune.]

DEATH OF WINE.—It will be pleasant for those who dread the scarcity and high price of

wine, as one of the consequences of the European war, to know that the deficiency is likely to be made up elsewhere. From Madeira particularly, the supply is described as unusually large. Coincidentally with the neglect of the vineyards in France and Germany, an overflowing vintage has been gathered in that island. This is owing first to extended culture, and second to a general paucity of seeds in the grape, an unforeseen circumstance which has aided vastly to the quantity of wine. It is said therefore that casks enough on the island to hold it, and that the few coopers there are unable to meet the increased demand.

DISASTROUS STORM ON THE LAKES.—Toronto papers inform us that on Sunday night and early on Monday morning, a gale swept with furious force over the three great lakes, causing several terrible disasters, and the loss, as far as at present reported, of eleven lives. Eight were lost from a large white unknown schooner driven ashore near Picton. Some of the men despairingly clung to the rigging; others ventured to plunge boldly to the shore, but the merciless tempestuous waves engulfed them all. The gale was terrible in its fury on Lake Erie, and drove many vessels ashore, of which there are reports from Port Elgin, Port Burwell, and other places. On Lake Huron it was equally fierce, and several schooners and logs are reported ashore.

Under our ordinary heading will be seen the death of Mr. GEORGE STINSON, exactly two years from the time he met with the accident on the Railway, which it will be remembered was caused by tripping on a sleeper while shacking the tender to the passenger car. The tender passed over him, and it is known that he was struck by the break, which injured his spine fatally. He was confined to his bed from the time of the accident until relieved by death. His sufferings were intense, but he bore them with great fortitude and patient resignation to the Divine Will, and departed trusting in the merits of his Redeemer. Mr. Stinson was a universal favorite in the Town. He leaves a widowed sister and several relations, who desire to express their sincere thanks to the community for their kindness and attention to their deceased relative during his long and painful sufferings.

AGRICULTURAL DINNER.—Arrangements are in progress for celebrating the Fifty-first Anniversary of the Charlotte Co. Agricultural Society, by an Annual Dinner, of which due notice will be given. The Society which is the oldest in the Dominion is as full of life and vigor as in its youthful days, and each year its annual Exhibitions give evidence of its judicious management, and the impetus it has given to the agriculturists of this Parish, in improved husbandry and stock. We trust that those who are not members of the Society, will become so ere the Dinner takes place, by leaving their names and subscriptions with the Secretary. Spend the Plough!

The world waits with patient expectation for the time to arrive, when the Courier will have an opinion of its own on any matter of public importance. On the School Question, it ought to have an opinion founded on very painful experience, ending in complete miserable failure.

The opening of the Houlton Branch Railway it is said, has advanced the price of farm produce in that section of Maine. It also furnishes a market for short lumber of all kinds. The manufacturers will find wharf accommodation, vessels and an open harbor during the winter at the Port of St. Andrews, and an attentive commission merchant in Mr. Ross, who has been extensively engaged in the business for several years and is favorably known to the merchants of Portland, Boston and New York.

LECTURES.—Almost every town and village in the Province has made arrangements for a course of Lectures during the approaching winter. What is doing here? Is the Lyceum to be open, and are the members preparing to afford the public an evening entertainment each week for the next few months. Could they not obtain the services of the "long-winded plagiarist" to give the introductory lecture, and amuse, if he fails to instruct, by introducing his "magic lantern." It would at all events prevent their doing as they did at his proxy lectures.

PATRICK BENNET who landed here some forty years ago, fresh as a daisy from the "old sod," brim full of life, quaint humor, and no small share of talent and originality—taught stenography, having been a reporter in his own green Isle. After some time he removed to the County of St. John and taught school, but having a disease quite common now a days, termed "coughsies-critchies," he published a paper in the City of St. John, but the receipts not being a remuneration as he fondly hoped, he emigrated to the States, where he was local reporter for one of the Daily papers. For several years we heard nothing of him, until last week, when we read some lines of his in one of the (St. John) City papers addressed to the authorities from the Alms House, praying them to release him from his present confinement. It appears that recently he was brought before the Police Court, badly battered and in indigent circumstances; he was sent to the Alms House for food and raiment. "Paddy Bennet" as he was formerly known here, deserved a better fate, but his love of the "cruskeen" led to his present downfall. In former years he was a genial fellow, and liked by every one who knew him.

The talk at Calais and St. Stephen is, that a lock will be placed on the river below Calais, for the purpose of providing a sufficient depth of water for vessels to float at the wharves, and that the U. S. government will grant \$75,000 towards the undertaking. The Dominion government will be applied to for a similar amount. Old King "Frost" will take the start, and lock up the above mentioned places with an ice barrier without costing the Governments named one cent.

The case of Green, a seaman on board a vessel called the "Gladstone" at St. John, for wages, has been decided upon review before Judge Wetmore, who confirmed the decision of the Police Magistrate. The man will consequently be paid off. The Captain, York, has been again sued by the men for balance

of wages due them from Matanzas. The owners it is probable will relieve Capt. York of command, on his arrival in England.

SUMMARY.

TO CORRESPONDENTS.—A Friend to Schools' letter is received too late for insertion this week. The writer replies to "Inquirer" and gives at length the information sought for. The letter will be published in our next issue.

The people of Fredericton (the "News" says) are willing to contribute \$2,000 towards a race between the St. John and Tyne crews.

Tobacco it is probable will be cheap. Chewers and Smokers may rejoice, particularly the latter as they can smoke as much as they "chew." So says an exchange.

Six cargoes of Coal arrived at St. John since Saturday last.

ON DUTY.—That there is a probability of an election taking place in this County ere many weeks for "one able and discreet man" to represent the constituency in the Legislature. Who is it that is about to accept the "Children hundreds?"

The weather is now clear and cool, but still mild for the season, flowers may be seen still in bloom in some of the gardens.

We are happy to state that A. J. Wetmore, Esq., is somewhat easier, and that there are hopes of his recovery.

STORM.—The wind came round to the Southeast last night and blew a gale, the tide rose above the wharves, and "carried away the ship at the Steamboat landing, which however has been replaced.

Flour has taken a rise, not at all to the wishes of the consumers. The supply is equal to the demand, and it is probable from the abundant crop of wheat raised this season that the price of Flour will not rule very high during the winter.

There is some talk of putting on a Screw Steamer between Boston, Portland and Calais.

The "Home Journal" a large thirty-two column literary journal with a supplement published by Morris, Phillips & Co. New York, is one of the best, and at the same time lowest priced papers in the States. The character of the journal stands high for ability,—only \$3 per annum. Specimen copies may be seen at this office.

The "Canadian Illustrated News" is improving with every issue. The illustrations are much more distinct and the letter press interesting.

HARPER'S MAGAZINE for December is a choice number, filled with entertaining and instructive articles, and commences a new volume. The illustrated articles are—the Brooklyn Navy Yard,—Pio Nono and his Councils,—Life in Brittany—Frederick the Great—Dombay and the Parsees, Invigilating Nature, with poetry, and the inimitable Editor's Easy Chair, &c. The present is a good time to subscribe for this Magazine—Price \$4.00 U. S. currency.

The Farmer states that all the steamers of the People's Line are again plying on the river above Fredericton. They daily carry immense quantities of freight, and business with them is brisk.

Gen Butler's method of saving the party is characteristic. He thinks by making it do to fire the American heart by making a blunder about the Alabama claim, and relying upon the cowardice of England to prevent any actual fighting. We don't believe General Grant will talk war unless he means war, or that the American people are such fools as to be caught by the airs and gesticulations of a bully who all the time is comforting himself with the belief that other fellow won't fight.

Gen. Butler has appealed once to the dishonesty of his countrymen; he proposes now to test their admiration for stage valor and diplomatic cheap talk; and he will meet as satisfactory a response as he got before.—[U. S. paper.]

Some experiments have been made at Tours with a view of ascertaining at what distance balloons would be in danger of being struck by projectiles. At an elevation of 2,500 metres not a single ball struck the experimental balloon. At a distance of 1,000 and 1,200 metres several bullets struck the balloon, but the escape of gas was so gradual that, aided by a good wind, it would bear the amount some miles from the locality where it had been struck.

The manufacturers of Berlin who have given employment to German workmen expelled from Paris are said to be extremely well satisfied with the result. A great number of handsome and useful objects known as "articles de Paris" can be already produced in Berlin, quite as elegant as those of the French capital, and considerably cheaper. We believe the French will one day discover that they made a grand blunder in driving beyond their frontiers an industrious population who have so largely contributed to the prosperity of France.

From Ottawa telegrams to the Toronto Leader:—"Ottawa is nobly doing its duty in its subscription to the testimonial to 'Sir John Mac

donald. The amount anticipated is largely exceeded.

The franking privilege has been withdrawn in all the governmental departments except on official communications.

Mr. W. C. Fox, of the eminent firm of Fox & Co. of London, England, iron masters, is here, respecting the sale of rails to the Government for the Intercolonial Railway."

ARRIVED.

On the 17th inst., at the residence of the bride's father, by the Rev. R. Veriker, Mr. Wm. Lawlor, to Miss Margaret, second daughter of Mr. Hugh Faloon, of this Parish.

DIED.

On the 20th inst., after a long and painful illness, which he bore with Christian resignation, Mr. George Stinson, aged 33 years and 7 months, universally sad and deservedly respected by all who knew him.

ALL Persons who hold the Estate of ROBERT late of St. George, in deceased, are requested, and all persons in whose Estate, are hereby requested to pay to me, A. Admitt, St. George, Nov. 12.
